Morning Mr. Mackay

I am writing to oppose the additional rooftop development for the theatre. At present the top floor height of the theatre is consistent/square with the rest of our apartment blocks that does not completely cut off the sky light. By adding another floor, it would cast a shadow onto our block of units and our garden thus depriving us of natural light.

Also, the expansion would bring a lot more noise and traffic to the area. Currently, parking in and around the theatre is severely limited. Patrons who choose to walk have to endure the poor lighting and the uneven/potholes surface of the pavements surrounding the theatre. God help you if you are an older person with mobility issues.

So, I don't think the project is a good idea.

Thanking you

Sincerely,
