INDEX TO MINUTES

ITEM	PAGE NO
1. DISCLOSURES OF INTEREST	317
2. CONFIRMATION OF MINUTES.....	317
3. MATTERS ARISING FROM THE MINUTES.....	317
4. DEVELOPMENT APPLICATION: 42-60 ROSEBERY AVENUE AND 94-100 AND 102 DALMENY AVENUE ROSEBERY.....	318
5. PLANNING PROPOSAL - 60 MARTIN PLACE	378
6. POST EXHIBITION - PLANNING PROPOSAL FOR VARIOUS SITES IN WATERLOO AND AMENDMENTS TO SYDNEY DEVELOPMENT CONTROL PLAN 2012 IN ALEXANDRIA AND WATERLOO	379
7. 301-303 BOTANY ROAD, ZETLAND (GREEN SQUARE TOWN CENTRE) – SITE UN-DEFERRAL	380

PRESENT

The Right Hon The Lord Mayor Councillor Clover Moore (Chair)

Members - The Hon. Craig Knowles, Councillor Robert Kok, Councillor John Mant, Mr Richard Pearson (Deputy Secretary Housing, Growth and Economics, NSW Department of Planning and Environment), Mr Peter Poulet, the Hon. Robert Webster

At the commencement of business at 5.17pm, those present were -

The Lord Mayor, Mr Knowles, Councillor Kok, Councillor Mant, Mr Pearson, Mr Poulet and Mr Webster.

The Director City Planning, Development and Transport was also present.

Mr Knowles left the meeting of the Central Sydney Planning Committee at 5.30pm prior to discussion on Item 6 on the agenda and returned at 5.32pm at the conclusion of discussion on Item 6. Mr Knowles was not present at, or in sight of, the meeting of the Central Sydney Planning Committee during discussion and voting on this item.

ITEM 1 DISCLOSURES OF INTEREST**(a) Section 451 of the Local Government Act 1993**

Mr Knowles declared an interest in Item 6 on the agenda in that he understood a conflict may arise from being a member of an Advisory Board of organisations which may own or may have an interest in a property within a precinct under consideration, which is the subject site. Mr Knowles stated that he would not be present during discussion and voting on Item 6.

No other Members disclosed any pecuniary or non-pecuniary interests in any matter on the agenda for this meeting of the Central Sydney Planning Committee.

(b) Local Government and Planning Legislation Amendment (Political Donations) Act 2008

No disclosures were made by any members of the public at this meeting of the Central Sydney Planning Committee.

ITEM 2 CONFIRMATION OF MINUTES (S108533)

Moved by Councillor Mant, seconded by Councillor Kok -

That the minutes of the meeting of the Central Sydney Planning Committee of 21 August 2014, as circulated to Members, be confirmed.

Carried unanimously.

ITEM 3 MATTERS ARISING FROM THE MINUTES (S108553)

There were no matters arising from the minutes of the meeting of the Central Sydney Planning Committee of 21 August 2014.

ITEM 4 DEVELOPMENT APPLICATION: 42-60 ROSEBERY AVENUE AND 94-100 AND 102 DALMENY AVENUE ROSEBERY (D/2014/526)

Note - A memo dated 11 September 2014 from the Director City Planning, Development and Transport, Relevant to Item 4 at the Central Sydney Planning Committee, was circulated to members prior to the meeting of the Committee.

Mr Walter Gordon addressed the meeting of the Central Sydney Planning Committee on this matter.

Moved by the Chair (the Lord Mayor), seconded by Councillor Mant -

It is resolved that the recommendation in the memo dated 11 September 2014 from the Director City Planning, Development and Transport, as circulated to members prior to the meeting of the Central Sydney Planning Committee, be adopted.

Carried unanimously.

The motion, as adopted by the Central Sydney Planning Committee, is as follows:

It is resolved that:

- (A) pursuant to the provisions of Clause 7.20(3) of Sydney Local Environmental Plan 2012, the consent authority waive the requirements for the preparation of a site specific development control plan as it is considered to be unreasonable and unnecessary in this instance;
- (B) pursuant to the provisions of Clause 6.21(7) of Sydney Local Environmental Plan 2012, the consent authority award 10% additional floor space to the development as the proposal exhibits design excellence;
- (C) pursuant to the provisions of Clause 4.6 of Sydney Local Environmental Plan 2012, the variation sought to Clause 4.3 Building Height of the Sydney Local Environmental Plan 2012 be supported in this instance;
- (D) pursuant to Section 80(3) of the Environmental Planning and Assessment Act 1979, a deferred commencement consent be granted to Development Application No. D/2014/526, subject to the following deferred commencement conditions:

(1) DETAILED ENVIRONMENTAL SITE ASSESSMENT

- (a) A Detailed Environmental Site Assessment (DESA) must be submitted to Council's Health and Building Unit for review and written approval. The DESA must be carried out in accordance with the NSW EPA Contaminated Sites guidelines, certifying that the site is suitable (or will be suitable, after remediation) for the proposed use.
- (b) Note: Where the Detailed Environmental Site Assessment states the site is suitable for the proposed use, it is to be peer reviewed by a NSW EPA accredited site auditor and a Site Audit Statement submitted to Council prior to granting any consent, certifying that the site is suitable for the proposed use.

- (c) Where the Detailed Environmental Site Assessment states that a Remediation Action Plan (RAP) is to be undertaken, the RAP is to be peer reviewed by a NSW EPA Accredited Site Auditor and include a statement certifying that the RAP is practical and the site will be suitable after remediation for the proposed use before scheduled conditions of consent can be activated.
 - (d) The RAP and NSW EPA Accredited Site Auditor's review and statement must be submitted to the Health and Building Unit for review and written approval before scheduled conditions of consent can be activated.
- (E) evidence that will sufficiently enable Council to be satisfied as to those matters identified in deferred commencement conditions, as indicated above, must be submitted to Council within 24 months of the date of this determination of this deferred commencement consent, failing which this deferred development consent will lapse pursuant to section 95(6) of the Environmental Planning and Assessment Act 1979;
- (F) the consent will not operate until such time that the Council notifies the Applicant in writing that deferred commencement consent conditions, as indicated above, have been satisfied; and
- (G) upon Council giving written notification to the Applicant that the deferred commencement conditions have been satisfied, the consent will become operative from the date of that written notification, subject to the following conditions of consent and any other additional conditions reasonably arising from consideration of the deferred commencement consent conditions.

SCHEDULE 1A

Approved Development/Design Modifications/Covenants and Contributions/Use and Operation

Note: Some conditions in Schedule 1A are to be satisfied prior to issue of a Construction Certificate and some are to be satisfied prior to issue of Occupation Certificate, where indicated.

(1) APPROVED DEVELOPMENT

- (a) Development must be in accordance with Development Application No. D/2014/526 dated 17 April 2014 and the following drawings:

Drawing Number	Architect	Date
A-DA-110-000_Q	Turner	29 July 2014
A-DA-110-001_J	Turner	16 June 2014
A-DA-110-002_J	Turner	16 June 2014
A-DA-110-003_J	Turner	16 June 2014

Drawing Number	Architect	Date
A-DA-110-004_J	Turner	16 June 2014
A-DA-110-005_J	Turner	16 June 2014
A-DA-110-006_J	Turner	16 June 2014
A-DA-110-007_J	Turner	16 June 2014
A-DA-110-100_J	Turner	16 June 2014
A-DA-110-101_J	Turner	16 June 2014
A-DA-110-102_J	Turner	16 June 2014
A-DA-110-B01_J	Turner	16 July 2014
A-DA-210-001_E	Turner	16 June 2014
A-DA-210-002_E	Turner	16 June 2014
A-DA-210-003_E	Turner	16 June 2014
A-DA-210-004_E	Turner	16 June 2014
A-DA-310-001_G	Turner	16 June 2014
A-DA-310-002_F	Turner	16 June 2014
A-DA-310-003_F	Turner	16 June 2014
Subdivision plan 124765- sheet 1 of 2	JBW Surveyors Pty Ltd	18 June 2014
Subdivision plan 124765- sheet 2 of 2	JBW Surveyors Pty Ltd	JBW Surveyors Pty Ltd

and as amended by the conditions of this consent.

- (b) In the event of any inconsistency between the approved plans and supplementary documentation, the plans will prevail.

(2) APPROVED DESIGN ROOF - TOP PLANT

All roof-top plant and associated equipment must be located within the approved building envelope. Should the plant exceed the approved building envelope, then further approval is required from Council.

(3) BUILDING HEIGHT

- (a) The height of each building is restricted as follows:
- (i) **Building A – Rosebery frontage** height of the building must not exceed RL 43.6 (AHD) to the top of the building, RL 43.9 (AHD) to the parapet of the building and RL 46.2 (AHD) to the top of the lift overrun.
 - (ii) **Building A (3 storey wing)** height of the building must not exceed RL 34.1 (AHD) to the top of the building and RL 34.5 (AHD) to the parapet of the building.
 - (iii) **Building B /C Rosebery Avenue** height of the building must not exceed RL 46.5 (AHD) to the top of the building, RL 47.5 (AHD) to the parapet of the building and RL49.1 (AHD) to the top of the lift overrun.
 - (iv) **Building B/C (3 storey wing)** height of the building must not exceed RL 33.9 (AHD) to the top of the building and RL 34.3 (AHD) to the parapet of the building.
 - (v) **Building D corner element** height of the building must not exceed RL 43.3 (AHD) to the top of the building, RL 43.6 (AHD) to the parapet of the building and RL 45.9 (AHD) to the top of the lift overrun.
 - (vi) **Unnamed and unlabelled building fronting new street at northern end of site** – height of the building must not exceed RL 33.6 (AHD) to the top of the building and RL 34.6 (AHD) to the parapet of the building.
 - (vii) **Building E – Dalmeny Avenue** height of the building must not exceed RL 47.1 (AHD) to the top of the building, RL 48.1 (AHD) to the parapet of the building and RL 49.7.
 - (viii) **Building F – Dalmeny Avenue** height of the building must not exceed RL 48.1 (AHD) to the top of the building, RL 49.1 (AHD) to the parapet of the building and RL 50.7 (AHD) to the top of the lift overrun.
 - (ix) **Building F (3 storey wing)** height of the building must not exceed RL 35.5 (AHD) to the top of the building and RL 36.0 (AHD) to the parapet of the building.
- (b) Prior to any Occupation Certificate being issued for the respective building, a Registered Surveyor must provide certification that the height of the buildings accords with (a) above, to the satisfaction of the Principal Certifying Authority.

(4) FLOOR SPACE RATIO - ALL OTHER AREAS

The following applies to Floor Space Ratio:

- (a) The Floor Space Ratio for the mixed use development must not exceed 2.1:1. For the purposes of the calculation of FSR, the Gross Floor Area of the childcare use (internal) is 476.37sqm, for the residential component and the total Gross Floor Area is 22,376 sqm.
- (b) Prior to any Occupation Certificate being issued for the respective building, a Registered Surveyor must provide certification of the total and component Gross Floor Areas (by use) in the development, utilising the definition under Sydney LEP 2012, applicable at the time of development consent, to the satisfaction of the Principal Certifying Authority.

(5) COMPLIANCE WITH VOLUNTARY PLANNING AGREEMENT

The terms of the planning agreement as registered on title are to be complied with.

(6) DESIGN QUALITY EXCELLENCE

- (a) In order to ensure the design quality excellence of the development is retained:
 - (i) The design architect is to have direct involvement in the design documentation, contract documentation and construction stages of the project;
 - (ii) The design architect is to have full access to the site and is to be authorised by the applicant to respond directly to the consent authority where information or clarification is required in the resolution of design issues throughout the life of the project;
 - (iii) Evidence of the design architect's commission is to be provided to the Council prior to release of the Construction Certificate.
- (b) The design architect of the project is not to be changed without prior notice and approval of the Council's Director City Planning, Development and Transport.

(7) DESIGN MODIFICATIONS

The design of the building must be modified as follows:

- (a) An accessible ramp is to be incorporated into the childcare centre entrance from Rosebery Avenue.
- (b) Details of the proposed fences associated with private ground floor courtyards are to be supplied. The fences are to have a maximum height of 1.4m consistent with the site specific Sydney DCP 2012 criteria.
- (c) Direct access is to be provided from the lobby of Building A to the through site link at the southern end of the site.

- (d) The external area associated with the childcare centre is to be restricted to align with the eastern fire exit adjacent to the communal pool.

The modifications are to be submitted to and approved by Council's Director City Planning, Development and Transport prior to the issue of a construction certificate for structures above ground level.

(8) FLOOD CONTROLS

A flood report is to be prepared providing compliance with the City of Sydney Draft Interim Flood Management Policy. The report must provide clarification of the following:

- (a) A review of the architectural drawings to confirm that the proposed non-residential and residential floor levels comply with the recommended development levels in the submitted flood report.
- (b) Consider the need for all services fronting Dalmeny Avenue to be flood proofed above the Q100 flood level. Flood proofing is to be undertaken using a combination of measures sufficient to ensure that the structure and building contents are able to withstand the forces due to the ingress or passage of floodwaters, including debris.
- (c) The flood planning level at the car park entry must be as prescribed in the City of Sydney Draft Interim Flood Management Policy. This level must be reflected on the architectural drawings.

(9) COMMUNITY / MUSIC PRACTICE ROOMS

- (a) The proposed ground floor community room within building B/C is to incorporate sound attenuated music practice rooms and community rooms. The music and community rooms are to be accessible from both the through site link and internal communal open space to provide a visual connection between these two spaces.
- (b) Details of the proposed layout and design of these rooms are to be submitted to and approved by the Director City Planning, Development and Transport.
- (c) A management plan demonstrating how the music practice / community rooms will function including operating hours, booking system and caretaker facilities are to be provided to and approved by the Director City Planning, Development and Transport.

(10) ADDITIONAL REPORTING REQUIRED AND FINALISATION OF NOISE CONTROL CONDITIONS

The proponent is to engage a suitably qualified acoustic consultant* who will review and assess the detailed design of the proposal with regard to the proposed child care centre and new residential flat buildings to be located at 94 – 100 & 102 Dalmeny Avenue and 42 – 60 Rosebery Avenue, ROSEBERY NSW, to assess and report on the following:

- (a) In relation to the matter of 'corrected wind data', the proponent is to undertake one of the following which must be representative of wind levels at ground level:
- (b) Justify submitted background monitoring data:
 - (i) With reference to the exclusion rules in the INP (not exceeding the allowances for excluding data);
 - (ii) By other means with reference to the INP;
 - (iii) By comparing noise levels during periods of acceptable weather data and unacceptable weather, data and contrasting any observed differences;
 - (iv) RBL90 Broadband and 1/1 octave levels will need to be presented in a revised report in accordance with the above.
- (c) Further submitted information following compliance with (a) above is to be submitted to the Health and Building Unit for review and written approval. Satisfactory background data will form part of this consent with regard to establishing noise performance criteria.
- (d) Internal noise emissions within the proposed residential apartments must comply with Australia Standard AS2021 – 2000 "Aircraft Noise Intrusion – Building Siting and Construction" and Sydney Development Control Plan 2012 Section 4.2.1.1.
- (e) Operational noise, inclusive of internal noise, mechanical plant and equipment, and noise breakout from the facility or any other activity proposed to be conducted or noise associated with that activity can comply with parts (a) and (b) of the given condition in this consent, Noise – General at all noise sensitive residential and commercial receivers once operating.
- (f) Specific assessment requirements for the above are as follows:
 - (i) L_{Aeq} project specific noise levels are to be determined from long term unattended noise monitoring that has been conducted over a minimum seven (7) day period that encapsulates each day of the week.
 - (ii) The above L_{Aeq} noise levels are to be determined from assessment and rating background noise levels determined from the environmental monitoring strictly under the following terms:
 - a. In full accordance with Sections 2, 3, 5 and Appendix B (note Figure B1 and Table B1) of the NSW EPA Industrial Noise Policy (INP).
 - b. Gradient wind speeds as measured at the Sydney Airport AWS that are less than 5m/s / 18km/h and no precipitation is to occur. Where this occurs during monitoring data, the events are to be excluded up to and within the limits specified in the INP.

- (g) A summary report is to be issued to the satisfaction of the Director City Planning, Development and Transport. The report is to document the results of the above assessment and if necessary provide written recommendations necessary for incorporation into the proposed development such that it will achieve compliance with the Noise – General condition once operating.
- (h) *Note: Suitably qualified Acoustic Consultant means a consultant who possesses the qualifications to render them eligible for membership of the Australian Acoustics Society, Institution of Engineers Australia or the Association of Australian Acoustic Consultants at the grade of member.

(11) STREET TREE PRUNING SPECIFICATION

An updated Arboricultural Impact Assessment (AIA) must be submitted to and approved by Council's Director City Planning, Development and Transport. The report must reflect current industry practices, with particular reference to the Australian Standard 'Protection of trees on development site' (AS4970-2009) and must include:

A 'Pruning Schedule' (size of branches, location, extent of pruning) of any street trees to accommodate any construction activities. Pruning of any trees must not exceed more than 10% of the total live canopy area.

(12) MATERIALS AND SAMPLES BOARD

A materials sample board detailing all proposed finishes must be submitted to and approved by Council's Director City Planning, Development and Transport prior to a Construction Certificate being issued for structures above ground level.

(13) USE - SEPARATE DA REQUIRED

- (a) No approval is granted by this consent for child placement numbers, fitout or trading hours associated with the childcare centre.
- (b) A separate development application is to be lodged for the fitout and use of the childcare centre.

(14) USE OF COMMON AREAS AND FACILITIES

The roof top terrace, gymnasium, swimming pool, community rooms and music practice rooms must be available for the use of all residents of the building, and must be designated as common property on any strata subdivision of the site, with no exclusive use rights.

(15) SECTION 94 SOUTHERN PRECINCT CITY OF SYDNEY DEVELOPMENT CONTRIBUTIONS PLAN 2006

As a consequence of this development, Council has identified an additional demand for public amenities and facilities. Pursuant to Section 94 of the Environmental Planning and Assessment Act, 1979 (as amended), and City of Sydney Section 94 Contributions Development Contributions Plan 2006 the following monetary contributions towards the cost of providing facilities and amenities are required.

<u>Contribution Category</u>	<u>Amount</u>
Community Facilities	\$564,340.40
Public Domain	\$347,601.14
New Open Space	\$2,708,428.03
New Roads	\$687,864.32
Accessibility	\$28,529.81
Management	\$30,847.31
Total	\$4,367,611.02

The above payments will be adjusted according to the relative change in the Consumer Price Index using the following formula.

Contributions at Time of Payment = C x CPI2 / CPI1

where:

- C is the original contribution amount as shown above;
- CPI2 is the Consumer Price Index: All Groups Index for Sydney available from the Australian Bureau of statistics at the time of payment; and
- CPI1 is the Consumer Price Index: All Groups Index for Sydney available from the Australian Bureau of Statistics at the date of calculation being – June 2014.

The contribution must be paid prior to issue of a Construction Certificate. Payment may be by EFTPOS (debit card only), CASH or a BANK CHEQUE made payable to the City of Sydney. Personal or company cheques will not be accepted.

Please contact Council's Planning Administration staff at planningsystemsadmin@cityofsydney.nsw.gov.au to confirm the amount payable, prior to payment.

Copies of the City of Sydney Section 94 Development Contributions Plan 2006 may be inspected at Council's offices.

(16) AFFORDABLE HOUSING CONTRIBUTION - GREEN SQUARE - PAYMENT OF MONEY IN LIEU OF FLOOR SPACE

In accordance with Clause 27P of Sydney Local Environmental Plan 2012 and prior to a Construction Certificate being issued, the applicant must provide evidence that a monetary contribution towards the provision of affordable housing has been paid at the office of the Department of Planning or a bank guarantee in favour of The Department of Planning to the value of the required contribution has been lodged. The contribution is \$4,209,407.10 based on the in lieu monetary contribution rate for non-residential development at \$50.05 per square metre of total non-residential floor area 476.37sqm, and for residential development at \$150.20 per square metre of total residential floor area 27,866.61sqm. Contributions will be indexed in accordance with the formula set out below.

Prior to an Occupation Certificate being issued or the use commencing, whichever is earlier, the applicant must provide evidence that the bank guarantee referred to above has been redeemed as payment of this contribution. If the contribution is paid after the indexation period in which the consent is granted 1 March 2013 to 28 February 2014, the amount of the contribution will be indexed in accordance with the formula set out below.

Notes:

- (a) Applicants have two payment options:

Option 1 is payment by bank cheque using "Form B - Receipt to Release Certificate of Construction after payment by Bank Cheque". Form B must be obtained from the Green Square Project Team in the City Strategy and Design Unit at the City of Sydney, and then must be lodged with a bank cheque with the NSW Department of Planning.

Option 2 is lodgement of a bank guarantee using "Form A - Receipt to Release Certificate of Construction after lodgement of Bank Guarantee". Form A must be obtained from the Green Square Project Team GSPT@cityofsydney.nsw.gov.au in the City Strategy and Design Unit at the City of Sydney, and then must be lodged with a Bank Guarantee with the NSW Department of Planning.

Where Form A has been used, an occupation certificate will not be released until payment by bank cheque using "Form C - Receipt to Release Certificate of Occupancy after payment by Bank Cheque". Form C must be obtained from the Green Square Project Team GSPT@cityofsydney.nsw.gov.au in the City Strategy and Design Unit at the City of Sydney and then must be lodged with a bank cheque with the NSW Department of Planning.

- (b) Applicants are made aware that the contribution amount quoted in this condition may not be final and that a correct indexed affordable housing contribution amount can be obtained from the relevant Form A, B or C at time of payment.
- (c) Forms A, B or C for payment of the affordable housing contribution can only be obtained from the City of Sydney, 456 Kent Street Sydney. Quote the development application number and the relevant Council officer will provide the applicant with an indexed contribution amount which must be paid at the Department of Planning. To arrange payment, contact the Housing Policy Team, NSW Department of Planning on Ph: 9228 6111 or Fax: 9228 6455 to arrange a time for payment.
- (d) The contribution will be indexed on the basis of the Established House Price Index for Sydney as published by the Australian Bureau of Statistics.
- (e) Contributions at Time of Payment = $C \times \text{HPI2} / \text{HPI1}$, where:

- (i) C is the original contribution amount as shown above;
- (ii) HPI2 is the Established House Price Index: All Groups Index for Sydney available from the Australian Bureau of Statistics at the time of the payment; and
- (iii) HPI1 is the Established House Price Index: All Groups Index for Sydney available from the Australian Bureau of Statistics that applied at the date of the consent 1 March 2013 to 28 February 2014.

The amount of the monetary contribution is calculated on the total floor area (not a percentage of it). Contribution = (total residential floor area sqm) x residential rate (\$) + (total non-residential floor area (sqm) x non-residential rate (\$) + (total non-residential floor area (sqm) x non-residential rate (\$)).

(17) RESTRICTION ON USE OF CAR SPACES - RESIDENTIAL, SERVICED APARTMENTS AND MIXED USE

The following conditions apply to car parking:

- (a) The on-site car parking spaces, exclusive of service and visitor car spaces, are not to be used other than by an occupant, tenant or resident of the subject building.
- (b) Prior to any Occupation Certificate being issued, a documentary restrictive covenant, is to be registered on the Title of the development site pursuant to Section 88E of the Conveyancing Act 1919, to the effect of (a) above. The covenant is to be created appurtenant to Council, at no cost to and to the satisfaction of Council.
- (c) Any future strata subdivision of the site is to include a restriction on User pursuant to section 39 of the Strata Titles (Freehold Development) Act, 1973, as amended, burdening all utility car parking allotments in the Strata Plan and/or an appropriate restrictive covenant pursuant to section 88B of the Conveyancing Act 1919 burdening all car parking part - lots in the strata scheme.

(18) RESTRICTION ON RESIDENTIAL DEVELOPMENT

The following restriction applies to buildings approved for residential use:

- (a) The accommodation portion of the building must be used as permanent residential accommodation only and not for the purpose of a hotel, motel, serviced apartments, private hotel, boarding house, tourist accommodation or the like, other than in accordance with the Sydney Local Environmental Plan 2012.
- (b) A restrictive covenant is to be registered on the title of the development site in the above terms and restricting any change of use of those levels from residential flat building as defined in Sydney Local Environmental Plan 2012. The covenant is to be registered on title prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, to the satisfaction of the Council. All

costs of the preparation and registration of all associated documentation are to be borne by the applicant.

- (c) If a unit contains tenants, it must be subject to a residential tenancy agreement for a term of at least three months.
- (d) An owner, tenant or Owners Corporation shall not permit a Building Manager or agent to advertise or organise for short term accommodation or share accommodation in the building.

(19) ALCOVE LIGHTING

Any proposed external alcove(s) shall be fitted with a sensor-activated vandal proof security light. The light shall be maintained in good working order to Council's satisfaction. The intensity, colour, and illumination must be varied if, at any time in the opinion of the consent authority, adverse impact or Obtrusive Light in accordance with the definition in Australian Standard AS4282-1997 Control of the obtrusive effects of outdoor is being caused to the amenity of the area.

(20) EXTERNAL LIGHTING

A separate development application is required to be lodged and approved prior to any external floodlighting or illumination of the building or site landscaping.

(21) AIR CONDITIONERS GENERALLY

No air-conditioning equipment is to be visible from the public domain. Equipment and associated wiring shall:

- (a) Not be located on awnings or attached to the face of the building.
- (b) Not be located on roofs in such a way that it is visible from any street, footpath or park.
- (c) Be visually screened if located 1.8 metres above ground level in other locations.
- (d) Wiring shall be fully concealed.

(22) AWNING MAINTENANCE

The awning must be inspected and maintained to ensure the structural integrity, aesthetic and functional quality of the awning.

(23) REFLECTIVITY

The Certifying Authority must ensure that the visible light reflectivity from building materials used on the facade of the building does not exceed 20% prior to issue of the Construction Certificate.

(24) COMPLIANCE WITH THE ACOUSTIC REPORT & ADDITIONAL REPORTING & CERTIFICATION REQUIREMENTS PRIOR TO CONSTRUCTION AND OCCUPATION CERTIFICATES

- (a) All performance parameters, requirements, engineering assumptions and recommendations contained in the Approved Acoustic Report (the Acoustic DA Report) and any additional conditions resulting from satisfying the deferred commencement conditions and must be certified as implemented during the detailed design stage prior to the construction and again verified prior to the commencement of the use of the premises in accordance with requirements of (b) and (c) below and to the satisfaction of the certifying authority.
- (b) Prior to the issue of a Construction Certificate, the construction drawings and construction methodology must be assessed and certified by a suitably qualified acoustic consultant* to be in accordance with the requirements of The DA Report. Specifically, the consultant will prepare a written Acoustic Certification Report with reference to drawings, to the satisfaction of the Principal Certifying Authority (PCA – or other specified authority).
- (c) Prior to the issue of any Occupation Certificate, a suitably qualified acoustic consultant is to provide a written Acoustic Verification Report to the satisfaction of the PCA or other authority as given in (b) above that the development complies with the requirements set out in The Report and in (a) and (b) above.
- (d) *Note: Suitably qualified Acoustic Consultant means a consultant who possesses the qualifications to render them eligible for membership of the Australian Acoustics Society, Institution of Engineers Australia or the Association of Australian Acoustic Consultants at the grade of member.

(25) DEMOLITION, EXCAVATION AND CONSTRUCTION NOISE AND VIBRATION MANAGEMENT PLAN

A site specific noise management plan shall be submitted to the Council for comment and approval prior to issue of any Construction Certificate.

The Plan must be prepared by a suitably qualified person who possesses the qualifications to render them eligible for membership of the Australian Acoustic Society, Institution of Engineers Australia or the Australian Association of Acoustic Consultants.

The plan must include but not be limited to the following:

- (a) Identification of noise sensitive receivers near to the site.
- (b) A prediction as to the level of noise impact likely to affect the nearest noise sensitive receivers from the use and proposed number of high noise intrusive appliances intended to be operated onsite. A statement should also be submitted outlining whether or not predicted noise levels will comply with the noise criteria stated within the City of Sydney Construction Hours /Noise Code of Practice 1992 for the typical construction hours of 07.00am to 7.00pm. Where resultant site noise

levels are likely to be in exceedance of this noise criteria then a suitable proposal must be given as to the duration and frequency of respite periods that will be afforded to the occupiers of neighbouring property.

- (c) A representative background noise measurement ($L_{A90, 15 \text{ minute}}$) should be submitted, assessed in the vicinity of any potentially affected receiver locations and measured in accordance with AS 1055:1.2.1997.
- (d) Confirmation of the level of community consultation that has/is and will be undertaken with Building Managers/ occupiers of the main adjoining noise sensitive properties likely to be most affected by site works and the operation of plant/machinery particularly during the demolition and excavation phases.
- (e) Confirmation of noise monitoring methodology that is to be undertaken during the main stages of work at neighbouring noise sensitive properties in order to keep complaints to a minimum and to ensure that noise from site works complies with the noise criteria contained within City's Construction Noise Code.
- (f) What course of action will be undertaken following receipt of a complaint concerning offensive noise.
- (g) Details of any noise mitigation measures that have been outlined by an acoustic consultant or otherwise that will be deployed on site to reduce noise impacts on the occupiers of neighbouring noise sensitive property to a minimum.
- (h) What plant and equipment is to be used on site, the level of sound mitigation measures to be undertaken in each case and the criteria adopted in their selection taking into account the likely noise impacts on the occupiers of neighbouring property and other less intrusive technologies available.

(26) COMPLIANCE WITH DEMOLITION, EXCAVATION AND CONSTRUCTION NOISE MANAGEMENT PLAN

- (a) All works conducted on site which form part of this development must be carried out in accordance with the submitted and approved Demolition, Excavation and Construction Management Plan.
- (b) Where all such control measures have been implemented and the resultant noise levels at any noise sensitive receiver are still in exceedances with the Council's noise criteria stated in the Construction Hours/Noise Code 1992 and are giving rise to sustained complaints then the contractor must provide regular, appropriate and sustained periods of respite.
- (c) Such periods are to be agreed with the Council and be given at times high noise levels are, or are likely, to cause most offence.

(27) NOISE - GENERAL

- (a) The emission of noise associated with the use of the premises including the operation of any mechanical plant and equipment shall comply with the following:
- (i) The $L_{Aeq, 15 \text{ minute}}$ noise level emitted from the use must not exceed the project specific noise level for that receiver as determined in accordance with the NSW Industrial Noise Policy. Noise must be measured in accordance with the Industrial Noise Policy and relevant requirements of Australian Standard AS 1055-1997 Acoustics – Description and measurement of environmental noise.
 - (ii) Project specific noise levels shall be determined by establishing the existing environmental noise levels, in complete accordance with the assessment $L_{A90, 15 \text{ minute}}$ / rating $L_{A90, 15 \text{ minute}}$ process to be in accordance with the requirements for noise monitoring listed in the NSW Industrial Noise Policy and relevant requirements of Australian Standard AS1055-1997 Standard AS 1055-1997 Acoustics – Description and measurement of environmental noise.
 - (iii) Modifying factors in Table 4.1 of the NSW Industrial Noise Policy are applicable.
- (b) An $L_{Aeq, 15 \text{ minute}}$ noise level emitted from the use must not exceed the $L_{A90, 15 \text{ minute}}$ noise level by more than 3dB in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) when assessed inside any habitable room of any affected residence or commercial premises provided that:
- (i) Where the $L_{A90, 15 \text{ minute}}$ noise level is below the threshold of hearing, T_f at any Octave Band Centre Frequency as defined in Table 1 of International Standard ISO 226 : 2003- Normal Equal-Loudness-Level Contours then the value of T_f corresponding to that Octave Band Centre Frequency shall be used instead.
 - (ii) The $L_{Aeq, 15 \text{ minute}}$ noise level and the $L_{A90, 15 \text{ minute}}$ noise level shall both be measured with all external doors and windows of the affected residence closed.
 - (iii) The relevant background noise level ($L_{A90, 15 \text{ minute}}$) is taken to mean the day, evening or night rating background noise level determined in complete accordance with the methodology outlined in the *NSW Industrial Noise Policy* and Australian Standard AS1055.1997 Acoustics – Description and measurement of environmental noise.
 - (iv) Background noise shall be established in the absence of all noise emitted from the use but with the ventilation equipment normally servicing the affected residence operating. Background noise measurements are to be representative of the environmental noise levels at the affected location.

- (v) Modifying factors in Table 4.1 of the NSW Industrial Noise Policy are applicable. Internal Noise measurements are not to be corrected for duration.

(28) SIGNS - SEPARATE DA REQUIRED

A separate development application for any proposed signs additional to those approved as part of this consent (other than exempt or complying signs under Council's exempt and complying DCPs) must be submitted to and approved by Council prior to the erection or display of any such signs.

(29) SIGNS/GOODS IN THE PUBLIC WAY

No signs or goods are to be placed on the footway or roadway adjacent to the property.

(30) ALLOCATION FOR CAR WASH BAYS

If car wash bays are provided, spaces must not at any time be allocated, sold or leased to an individual owner/occupier and must be strictly retained as common property by the Owners Corporation for use by all tenants.

(31) ALLOCATION FOR VISITOR PARKING

Visitor parking spaces must not at any time be allocated, sold or leased to an individual owner/occupier and must be strictly retained as common property by the Owners Corporation for use by building visitors.

All spaces must be clearly marked 'visitor' prior to the issue of any occupation certificate or the use commencing, whichever is earlier. All signs must be maintained in good order at all times.

(32) ALLOCATION OF ACCESSIBLE CAR PARKING SPACES

For residential development, accessible car parking spaces for people with mobility impairment are only to be allocated as visitor parking or to adaptable units. Where allocated to adaptable units, the unit(s) and car spaces must be assigned to the unit in any future strata subdivision of the building.

(33) CAR PARKING LAYOUT

- (a) The layout of car parking spaces is to be amended as follows:
 - (i) Spaces R80 through R88 are to be allocated as visitor parking spaces;
 - (ii) Spaces V01 to V04 are to be allocated as resident parking spaces;
 - (iii) Spaces R65 and R66 are to be allocated as car share;
 - (iv) Space R64 is to be allocated as a child care pick up and drop off space;
 - (v) Space CC03 is to be allocated as a resident parking space;

- (vi) Spaces CC04, CC05, CC06, R64, CS01 and CS02 are to be allocated as pick up and drop off spaces; and
 - (vii) Spaces CC01, CC02 are to be allocated the child care staff parking spaces.
- (b) The details are to be submitted to and approved by Council's Director City Planning, Development and Transport prior to the issue of a Construction Certificate.

(34) ALLOCATION OF PARKING

The number of car parking spaces to be provided for the development shall comply with the table below. Details confirming the parking numbers shall be submitted to the satisfaction of the Certifying Authority prior to the issue of a Construction Certificate.

Car Parking Type	Number
Residential spaces	161
Accessible residential spaces	36
Residential visitor spaces	12
Accessible residential visitor spaces	1
Childcare parking (staff)	2
Childcare drop off and pick up	6
Car share parking	2
Subtotal	220
Motorcycle parking (equivalent car parking spaces)	3
Service vehicle	1
Total	224

(35) ASSOCIATED ROADWAY COSTS

All costs associated with the construction of any new road works including kerb and gutter, road pavement, drainage system and footway shall be borne by the developer. The new road works must be designed and constructed in accordance with the City's "Sydney Streets Technical Specification" including amendments and "Sydney Streets Design Code".

(36) BICYCLE PARKING AND END OF TRIP FACILITIES

- (a) The minimum number of bicycle parking spaces and end of trip facilities to be provided for the development must comply with the table below.

Bicycle Parking Type	Number	Requirements
Residential	235	Class 1 – 90 Class 2 – 128 Class 3 - 17
Residential visitor	24	Spaces must be Class 3 bicycle rails
Childcare	4	Spaces must be Class 3 bicycle facilities
End of Trip Facility Type	Number	
Showers with change area	1	For childcare staff
Personal lockers	4	For childcare staff

Notes:

- (i) If a basement storage area on title that is large enough to store a bike and is no smaller than a class 1 bike locker this can be counted as a space.
- (b) The layout, design and security of bicycle facilities must comply with the minimum requirements of Australian Standard AS 2890.3 Parking Facilities Part 3: Bicycle Parking Facilities. The details must be submitted to and approved by the Principle Certifying Authority confirming prior to the Construction Certificate being issued.

(37) CAR SHARE SPACES

- (a) A minimum of 2 car share spaces for the exclusive use of a car share scheme vehicles are to be provided as shown in plan A-DA-110-B01 (Rev J).
- (b) The spaces must be retained as common property of the Owners Corporation of the site, and not sold or leased to an individual owner /occupier at any time.
- (c) The spaces must be made available to car share operators without a fee or charge.
- (d) The spaces must be sign posted for use by car share vehicles and well lit.
- (e) The spaces must be publically accessible at all times.
- (f) The car share spaces are to be available at the same time the car park commences operation.

(38) USE OF VISITOR CAR PARKING SPACES

At no time are the car parking spaces allocated as visitor car parking to be used for the purpose of childcare staff parking.

(39) CHANGES TO KERB SIDE PARKING RESTRICTIONS

A separate submission must be made to the Local Pedestrian, Cycling and Traffic Calming Committee via the City Infrastructure and Traffic Operations Unit seeking the City's approval for any changes to kerb side parking arrangements. There is no guarantee kerb side parking will be changed, or that any change will remain in place for the duration of the development use.

The submission must include two plans. One showing the existing kerb side parking restriction signs and stems, the second showing the proposed kerb side parking restriction signs and stems. Both plans must include chainages to all signs and stems from the kerb line of the nearest intersection.

All costs associated with the parking proposal will be borne by the developer.

Note: As parking in the LGA is at a premium, it is recommended that the applicant should approach the Area Traffic Engineer to discuss the proposal before making a submission.

(40) CHILD CARE DROP OFFS AND PICK UP

No approval is granted by this consent to change the traffic conditions on Rosebery Avenue to accommodate the drop off and pick up of children associated with the childcare centre.

Parents and Guardians are to be advised that allocated car parking spaces are available within the basement for this purpose. Signs are also to be erected within the childcare centre to this effect.

(41) COST OF SIGNPOSTING

All costs associated with signposting for any kerbside parking restrictions and traffic management measures associated with the development shall be borne by the developer.

(42) ON SITE LOADING AREAS AND OPERATION

All loading and unloading operations associated with servicing the site must be carried out within the confines of the site, at all times, and must not obstruct other properties/units or the public way.

At all times the service vehicle docks, car parking spaces and access driveways must be kept clear of goods and must not be used for storage purposes, including garbage storage.

(43) INTERCOM FOR VISITORS

Where a boom gate or barrier control is in place, the visitor spaces must be accessible to visitors by the location of an intercom (or card controller system) at the car park entry and at least 4m clear of the property boundary, wired to all units. The intercom must comply with Australian Standard AS 1428.2-1992: Design for access and mobility - Enhance and additional requirements - Building and facilities Sections 22 and 23.

(44) PARKING DESIGN

The design, layout, signage, line marking, lighting and physical controls of all off-street parking facilities must comply with the minimum requirements of Australian Standard AS/NZS 2890.1 Parking facilities Part 1: Off-street car parking, AS/NZS 2890.2 Parking facilities Part 2: Off-commercial vehicle facilities and AS/NZS 2890.6 Parking facilities Part 6: Off-street parking for people with disabilities. The details must be submitted to and approved by the Principal Certifying Authority prior to a Construction Certificate being issued.

(45) PARKING ON COMMON PROPERTY AREAS

No part of the common property, apart from the visitor vehicle spaces which are to be used only by visitors to the building, and service vehicle spaces which are to be used only by service vehicles, is to be used for the parking or storage of vehicles or boats. The strata subdivision of the building is to include an appropriate documentary restriction pursuant to Section 88B of the Conveyancing Act 1919, so burdening common property, with the Council being the authority to release, vary or modify the restriction.

(46) PROHIBITION ON PARTICIPATION IN RESIDENT PARKING PERMIT SCHEME - APPLICATION OF CITY OF SYDNEY PARKING POLICY

All owners, tenants and occupiers of this building are advised that it is the Policy of Council that they are not eligible to participate in any existing or proposed Council on-street resident parking schemes. The owner of the dwelling must advise all intending owners, tenants and occupiers of the dwelling of this prohibition in writing at the time of entering into a purchase / lease / occupancy agreement.

(47) SIGNAGE TO INDICATE NON PARTICIPATION IN RESIDENT PARKING PERMIT SCHEME

Signs reading 'all owners, tenants and occupiers of this building are advised that they are not eligible to obtain an on-street resident parking permit from Council' must be permanently displayed and located in prominent places such as at display apartments and on all directory boards or notice boards, where they can easily be observed and read by people entering the building. The signs must be erected prior to any Occupation Certificate being issued and must be maintained in good order at all times by the Owners of the building.

(48) SECURITY GATES

Where a car park is accessed by a security gate, that gate must be located at least 6 metres within the site from the street front property boundary.

(49) SIGNAL SYSTEM

A system of traffic lights and/or mirrors must be installed at the ends of any single lane ramp(s), to indicate traffic movement on the ramp(s). This system must be detailed in the application for a construction certificate. Any system using traffic light signals must maintain a green signal to entering vehicles at the point of entry, and must maintain a red signal when an exiting vehicle is detected upon the ramp or driveway.

(50) SIGNS AT EGRESS

The following signs must be provided and maintained within the site at the point(s) of vehicle egress:

- (a) Compelling drivers to stop before proceeding onto the public way.
- (b) Compelling drivers to "Give Way to Pedestrians" before crossing the footway; or compelling drivers to "Give Way to Pedestrians and Bicycles" before crossing a footway on an existing or identified shared path route.

(51) TRAFFIC WORKS

Any proposals for alterations to the public road, involving traffic and parking arrangements, must be designed in accordance with RMS Technical Directives and must be referred to and agreed to by the Local Pedestrian, Cycling and Traffic Calming Committee prior to any work commencing on site.

(52) VEHICLE FOOTWAY CROSSING

A separate application is to be made to, and approved by, Council for the construction of any proposed vehicle footway crossing or for the removal of any existing crossing and replacement of the footpath formation where any such crossings are no longer required.

All disused or redundant vehicle crossings and laybacks must be removed and footway, kerb, gutter and road restoration reinstated in accordance with Council's standards, to suit the adjacent finished footway and edge treatment materials, levels and details, or as otherwise directed by Council officers. All construction and replacement works are to be completed in accordance with the approved plans prior to the issue of any Occupation Certificate.

Note: In all cases the construction materials should reinforce the priority of pedestrian movement over that of the crossing vehicle.

SCHEDULE 1B**Prior to Construction Certification/Commencement of Work/Health and Building**

Note: Prior to the issue of the Construction Certificate, sufficient information must be forwarded to the certifying authority (whether Council or a private accredited certifier) illustrating compliance with the relevant requirements of the Building Code of Australia (and a copy forwarded to Council where Council is not the certifying authority). If Council is to be the certifying authority, please contact the Building Unit to discuss the requirements prior to submission of the application for construction certificate.

(53) ACCESS AND FACILITIES FOR PERSONS WITH DISABILITIES

The building must be designed and constructed to provide access and facilities for people with a disability in accordance with the Building Code of Australia.

If, in complying with this condition, amendments to the development are required, the design changes must be submitted to and approved by Council prior to a Construction Certificate being issued.

(54) ADAPTABLE HOUSING

Prior to a Construction Certificate being issued, information from an appropriately qualified access consultant:

- (a) confirming that the required number of residential units are able to be adapted for people with a disability in accordance with the Building Code of Australia,
- (b) demonstrating (in a checklist) compliance with Australian Standard AS4299

is to be submitted to the Certifying Authority.

(55) FOOTPATH DAMAGE BANK GUARANTEE

A Footpath Damage Bank Guarantee calculated on the basis of 8 lineal metres of the concrete site frontage must be lodged with Council in accordance with the City of Sydney's adopted Schedule of Fees and Charges. The Footpath Damage Bank Guarantee must be submitted as an unconditional bank guarantee in favour of Council as security for repairing any damage to the public domain in the vicinity of the site.

The guarantee must be lodged with Council prior to issue of a Construction Certificate.

The Bank Guarantee will be retained in full until the final Occupation Certificate has been issued and any rectification works to the footway and Public Domain are completed to Council's satisfaction. On satisfying the above requirements, 90% of the total securities will be released, with the remaining 10% to be retained for the duration of the 12 months Defect Liability Period.

(56) ALIGNMENT LEVELS

- (a) Prior to a Construction Certificate being issued, footpath alignment levels for the building must be submitted to Council for approval. The submission must be prepared by a Registered Surveyor and must be in accordance with the City of Sydney's Public Domain Manual.
- (b) These alignment levels, as approved by Council, are then to be incorporated into the plans submitted with the application for a Construction Certificate, excluding a Construction Certificate for approved preparatory, demolition, excavation or shoring work.

- (c) If a Public Domain Plan condition applies to the development the Alignment Levels application must be made concurrently with the submission of a Public Domain Plan.

(57) PUBLIC DOMAIN PLAN

- (a) Three copies of a detailed Public Domain Plan must be prepared by an architect, urban designer or landscape architect and must be lodged with Council's Public Domain Section and be approved by Council prior to a Construction Certificate being issued for any new building work (including internal refurbishments) excluding approved preparatory, demolition, excavation or shoring work.
- (b) The Public Domain Plan must be prepared in accordance with the City of Sydney's Public Domain Manual. If an Alignment Levels condition applies to the development, the Public Domain Plan submission must be made concurrently with the Alignment Levels application. The works to the public domain are to be completed in accordance with the approved plan and the Public Domain Manual before any Occupation Certificate is issued in respect of the development or before the use commences, whichever is earlier.
- (c) Note: A Public Domain Works Guarantee deposit will be required for the public domain works, in accordance with the City of Sydney's adopted fees and charges and the Public Domain Manual. The Public Domain Works Guarantee must be submitted as an unconditional bank guarantee in favour of Council as security for completion of the obligations under this consent.
- (d) Council's Public Domain section must be contacted to determine the guarantee amount prior to lodgement of the guarantee. The guarantee must be lodged with Council prior to a Road Opening Permit for works on the public way being issued.
- (e) The Bank Guarantee will be retained in full until all Public Domain works are completed and the required certifications, warranties and works-as-executed documentation are submitted and approved by Council in writing. On satisfying the above requirements, 90% of the total securities will be released. The remaining 10% will be retained for the duration of the specified Defects Liability Period.
- (f) The Bank Guarantee will be retained in full until all Public Domain works are completed and the required certifications, warranties and works-as-executed documentation are submitted and approved by Council in writing. On satisfying the above requirements, 90% of the total securities will be released. The remaining 10% will be retained for the duration of the specified Defects Liability Period.

(58) PUBLIC DOMAIN WORKS - HOLD POINTS AND HANDOVER

- (a) Prior to a Construction Certificate being issued for a new building work, excluding approved preparatory, demolition, excavation and shoring work, a set of hold points for approved public domain and civil construction work is to be determined with and approved by the City's Public Domain section in accordance with the City's Public Domain Manual.
- (b) Completion and handover of the constructed public domain works is to be undertaken in accordance with the City's Public Domain Manual, including requirements for as-built documentation, certification and defects liability period.

(59) NEW ROAD RESERVE

The landscape plans submitted with this Development Application have not been approved by this consent. The design and construction of the new road reserve, including temporary road works, shall be undertaken in accordance with the Sydney Streets Technical Specifications. Detailed plans and construction specifications for the works shall be prepared and certified as complying with Council's specifications prior to the issue of a Construction Certificate for structures above ground level for the adjacent buildings.

The detailed plans and supporting documentation shall include as a minimum the following information:

- (a) General subdivision plan with contour details and a clear indication of the extent of work;
- (b) Typical road cross sections showing road widths, pavement configuration, kerb and gutter types;
- (c) Plan and longitudinal section of the public road showing services;
- (d) Drainage plan and schedule of drainage elements;
- (e) Drainage profiles;
- (f) Lighting details;
- (g) Standard engineering and structural details plan;
- (h) Erosion and sedimentation control plans;
- (i) Specifications for the construction of all components of the roadworks in accordance with Sydney Streets Technical Specifications and standard details for civil works.

All landscaping for the new road reserve is to be completed prior to any Occupation Certificate being issued for the adjacent building.

(60) PHOTOGRAPHIC RECORD / DILAPIDATION REPORT - PUBLIC DOMAIN

Prior to an approval for demolition being granted or a Construction Certificate being issued, whichever is earlier, a photographic recording of the public domain site frontages is to be prepared and submitted to Council's satisfaction.

The recording must include clear images of the building facade adjoining the footpath, the footpath, nature strip, kerb and gutter, driveway crossovers and laybacks, kerb ramps, road carriageway, street trees and plantings, parking restriction and traffic signs, and all other existing infrastructure along the street.

The form of the recording is to be as follows:

- (a) A PDF format report containing all images at a scale that clearly demonstrates the existing site conditions;
- (b) Each image is to be labelled to identify the elements depicted, the direction that the image is viewed towards, and include the name of the relevant street frontage;
- (c) Each image is to be numbered and cross referenced to a site location plan;
- (d) A summary report, prepared by a suitable qualified professional, must be submitted in conjunction with the images detailing the project description, identifying any apparent existing defects, detailing the date and authorship of the photographic record, the method of documentation and limitations of the photographic record;
- (e) Include written confirmation, issued with the authority of both the applicant and the photographer, that the City of Sydney is granted a perpetual non-exclusive license to make use of the copyright in all images supplied, including the right to make copies available to third parties as though they were Council images. The signatures of both the applicant and the photographer must be included.

Any damage to the public way including trees, footpaths, kerbs, gutters, road carriageway and the like must immediately be made safe and functional by the applicant. Damage must be fully rectified by the applicant in accordance with the City's standards prior to a Certificate of Completion being issued for Public Domain Works or before any Occupation Certificate is issued for the development, whichever is earlier.

(61) EMISSIONS

- (a) The use of the premises must not give rise to the emission of gases, vapours, dusts or other impurities which are a nuisance, injurious or prejudicial to health.
- (b) Gaseous emissions from the development must comply with the requirements of the Protection of the Environment Operations Act, 1997 and Regulations. Uses that produce airborne particulate matter must incorporate a dust collection system.

(62) ASBESTOS REMOVAL WORKS

- (a) All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with WorkCover NSW, holding either a Friable (Class A) or a Non- Friable (Class B) Asbestos Removal Licence, whichever applies.
- (b) Five days prior to the commencement of licensed asbestos removal, WorkCover must be formally notified of the works. All adjoining properties and those opposite the development must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification is to identify the licensed asbestos removal contractor and include a contact person for the site together with telephone number and email address.
- (c) All works must be carried out in accordance with the Work Health and Safety Regulation 2011 and the NSW Government and WorkCover document entitled How to manage and control asbestos in the work place: Code of Practice (NSW WorkCover) and the City of Sydney Managing Asbestos Policy.
- (d) The asbestos removalist must use signs and barricades to clearly indicate the area where the asbestos removal work is being performed. Signs must be placed in positions so that people are aware of where the asbestos removal work area is and should remain in place until removal is completed and clearance to reoccupy has been granted. Responsibilities for the security and safety of the asbestos removal site and removal work area should be specified in the asbestos removal control plan (where required). This includes inaccessible areas that are likely to contain asbestos.
- (e) Warning signs must be placed so they inform all people nearby that asbestos removal work is taking place in the area. Signs should be placed at all of the main entry points to the asbestos removal work area where asbestos is present. These signs should be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs should be in accordance with AS 1319-1994 Safety signs for the occupational environment for size, illumination, location and maintenance.
- (f) Asbestos to be disposed of must only be transported to waste facilities licensed to accept asbestos. The names and location of these facilities are listed in Appendix F of the City of Sydney's Managing Asbestos Guidelines.
- (g) No asbestos products are to be reused on the site (i.e. packing pieces, spacers, formwork or fill etc).
- (h) No asbestos laden skips or bins are to be left in any public place without the approval of Council.
- (i) A site notice board must be located at the main entrance to the site in a prominent position and must have minimum dimensions of 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size.

The site notice board must include the following:

- (i) contact person for the site;
- (ii) telephone and facsimile numbers and email address; and
- (iii) site activities and time frames.

(63) COMPLIANCE WITH BUILDING CODE OF AUSTRALIA

The proposed work must comply with the Building Code of Australia (BCA).

(64) PHYSICAL MODELS

Prior to a final Occupation Certificate being issued, an accurate 1:500 scale model of the development as constructed must be submitted to Council for the City Model in Town Hall House.

Note:

- (i) The models must be constructed in accordance with the Model Specifications available online at <http://www.cityofsydney.nsw.gov.au/development/application-guide/application-process/model-requirements>. Council's modellers must be consulted prior to construction of the model.
- (ii) The models are to comply with all of the conditions of the Development Consent.
- (iii) The models must be amended to reflect any further modifications to the approval (under section 96 of the Environmental Planning and Assessment Act) that affect the external appearance of the building.

(65) SUBMISSION OF ELECTRONIC CAD MODELS PRIOR TO CONSTRUCTION CERTIFICATE AND PRIOR TO OCCUPATION CERTIFICATE

- (a) Prior to any Occupation Certificate being issued, an updated electronic model of the completed development must be submitted to Council for the electronic City Model. The model is to be an accurate 1:1 electronic CAD "as built" model of the detailed building.
- (b) The data required to be submitted within the surveyed location must include and identify:
 - (i) building design above and below ground in accordance with the development consent;
 - (ii) all underground services and utilities, underground structures and basements, known archaeological structures and artefacts;

- (iii) a current two points on the site boundary clearly marked to show their Northing and Easting MGA (Map Grid of Australia) coordinates, which must be based on Established Marks registered in the Department of Lands and Property Information's SCIMS Database with a Horizontal Position Equal to or better than Class C.

The data is to be submitted as a DGN or DWG file on a Compact Disc. All modelling is to be referenced to the Map Grid of Australia (MGA) spatially located in the Initial Data Extraction file.

- (c) The electronic model must be constructed in accordance with the City's 3D CAD electronic model specification. The specification is available online at <http://www.cityofsydney.nsw.gov.au/development/application-guide/application-process/model-requirements>. Council's Modelling staff should be consulted prior to creation of the model. The data is to comply with all of the conditions of the Development Consent.

(66) CONSTRUCTION TRAFFIC MANAGEMENT PLAN

- (a) The Construction Traffic Management Plan accompanying this Development Application has not been approved by this consent.
- (b) A Construction Traffic Management Plan must be submitted to and approved by Council prior to a Construction Certificate being issued.

(67) DEMOLITION, EXCAVATION AND CONSTRUCTION MANAGEMENT

- (a) Prior to the commencement of demolition and/or excavation work, the following details must be submitted to and be approved by the Principal Certifying Authority:
 - (i) Plans and elevations showing distances of the subject building from the location of adjoining and common/party walls, and (where applicable) the proposed method of facade retention.
 - (ii) A Demolition Work Method Statement prepared by a licensed demolisher who is registered with the WorkCover Authority. (The demolition by induced collapse, the use of explosives or on-site burning is not permitted.)
 - (iii) An Excavation Work Method Statement prepared by an appropriately qualified person.
 - (iv) A Waste Management Plan for the demolition and or excavation of the proposed development.
- (b) Such statements must, where applicable, be in compliance with AS2601-2001 Demolition of Structures, the Work, Health and Safety Act 2011 and Regulation; Council's Policy for Waste Minimisation in New Developments 2005, the Waste Avoidance and Resource Recovery Act 2001, and all other relevant acts and regulations and must include provisions for:

- (i) A Materials Handling Statement for the removal of refuse from the site in accordance with the Waste Avoidance and Resource Recovery Act 2001.
- (ii) The name and address of the company/contractor undertaking demolition/excavation works.
- (iii) The name and address of the company/contractor undertaking off site remediation/disposal of excavated materials.
- (iv) The name and address of the transport contractor.
- (v) The type and quantity of material to be removed from site.
- (vi) Location and method of waste disposal and recycling.
- (vii) Proposed truck routes, in accordance with this development consent.
- (viii) Procedures to be adopted for the prevention of loose or contaminated material, spoil, dust and litter from being deposited onto the public way from trucks and associated equipment and the proposed method of cleaning surrounding roadways from such deposits. (Note: With regard to demolition of buildings, dust emission must be minimised for the full height of the building. A minimum requirement is that perimeter scaffolding, combined with chain wire and shade cloth must be used, together with continuous water spray during the demolition process. Compressed air must not be used to blow dust from the building site).
- (ix) Measures to control noise emissions from the site.
- (x) Measures to suppress odours.
- (xi) Enclosing and making the site safe.
- (xii) Induction training for on-site personnel.
- (xiii) Written confirmation that an appropriately qualified Occupational Hygiene Consultant has inspected the building/site for asbestos, contamination and other hazardous materials, in accordance with the procedures acceptable to WorkCover Authority.
- (xiv) An Asbestos and Hazardous Materials Clearance Certificate by a person approved by the WorkCover Authority.
- (xv) Disconnection of utilities.
- (xvi) Fire Fighting. (Fire fighting services on site are to be maintained at all times during demolition work. Access to fire services in the street must not be obstructed).
- (xvii) Access and egress. (Demolition and excavation activity must not cause damage to or adversely affect the safe access and egress of the subject building or any adjacent buildings).

- (xviii) Waterproofing of any exposed surfaces of adjoining buildings.
 - (xix) Control of water pollution and leachate and cleaning of vehicles tyres (proposals must be in accordance with the Protection of the Environmental Operations Act 1997).
 - (xx) Working hours, in accordance with this development consent.
 - (xxi) Any WorkCover Authority requirements.
- (c) The approved work method statements and a waste management plan as required by this condition must be implemented in full during the period of construction.

(68) DILAPIDATION REPORT – MAJOR EXCAVATION/DEMOLITION

- (a) Subject to the receipt of permission of the affected landowner, dilapidation report/s, including a photographic survey of the buildings adjoining the northern and southern boundaries are to be prepared by an appropriately qualified structural engineer prior to commencement of demolition/excavation works. A copy of the dilapidation report/s together with the accompanying photographs must be given to the above property owners, and a copy lodged with the Certifying Authority and the Council prior to the issue of a Construction Certificate.

UPON COMPLETION OF EXCAVATION/DEMOLITION

- (b) A second Dilapidation Report/s, including a photographic survey must then be submitted at least one month after the completion of demolition/excavation works. A copy of the second dilapidation report/s, together with the accompanying photographs must be given to the above property owners, and a copy lodged with the Principal Certifying Authority and the Council prior to the issue of any Occupation Certificate.

Any damage to buildings, structures, lawns, trees, sheds, gardens and the like must be fully rectified by the applicant or owner, at no cost to the affected property owner.

Note: Prior to the commencement of the building surveys, the applicant/owner must advise (in writing) all property owners of buildings to be surveyed of what the survey will entail and of the process for making a claim regarding property damage. A copy of this information must be submitted to Council.

(69) EROSION AND SEDIMENT CONTROL - MORE THAN 2,500SQM

The Soil and Water Management Plan accompanying this Development Application has not been approved by this consent.

Prior to the commencement of any works on site, including, but not limited to demolition, excavation or construction work, a Soil and Water Management Plan (SWMP) must be submitted to and be approved by the Principal Certifying Authority.

- (a) The SWMP must identify and respond to all items for Erosion and Sediment Control Plans listed in the condition above, as well as:
 - (i) existing site contours;
 - (ii) location and diagrammatic representation of all necessary erosion and sediment control systems or structures used to mitigate or prevent pollution to stormwater;
 - (iii) Location and engineering details with supporting design calculations for all necessary sediment basins, constructed wetlands, gross pollutant traps, trash racks or biofiltration swales (as relevant).

(70) TEMPORARY GROUND ANCHORS, TEMPORARY SHORING AND PERMANENT BASEMENT/RETAINING WALLS AFFECTING THE ROAD RESERVE

For temporary shoring including ground anchors affecting the road reserve, a separate application under Section 138 of the Roads Act 1993 must be lodged with Council.

(71) LAND REMEDIATION

- (a) The site is to be remediated and validated in accordance with the Approved Remediation Action Plan and associated Letters of Interim Advice from the NSW EPA Accredited Site Auditor.
- (b) A NSW EPA Accredited Site Auditor and Council shall approve any variations to the proposed Remediation Action Plan in writing prior to the commencement of such work.
- (c) Prior to the exportation of waste (including fill or soil) from the site the material should be classified in accordance with the provisions of the Protection of the Environment Operations Act 1997 and the NSW EPA Environmental Guidelines Assessment, Classification and Management of Non- Liquid Wastes. The classification of the material is essential to determine where the waste may be legally taken. The Protection of the Environment Operations Act 1997 provides for the commission of an offence for both the waste owner and the transporter if the waste is taken to a place that cannot lawfully be used as a waste facility for the particular class of waste. For the transport and disposal of industrial, hazardous or Group A liquid waste advice should be sought from the EPA.

(72) SITE AUDIT STATEMENT

Prior to the execution of works associated with the built form of the development (excluding building work directly related to remediation) a Section A Site Audit Statement from a NSW EPA Accredited Site Auditor is to be submitted to Council Health and Building Unit clearly indicating that the site is suitable for the proposed use. Conditions on the Site Audit Statement shall form part of the consent.

Note: Where the Site Audit Statement is subject to conditions that require ongoing review by the Auditor or Council, these should be discussed with Council before the Site Audit Statement is issued.

(73) CLASSIFICATION OF WASTE

Prior to the exportation of waste (including fill or soil) from the site, the waste materials must be classified in accordance with the provisions of the Protection of the Environment Operations Act 1997 and the NSW DECC Waste Classification Guidelines, Part1: Classifying Waste (July 2009). The classification of the material is essential to determine where the waste may be legally taken. The Protection of the Environment Operations Act 1997 provides for the commission of an offence for both the waste owner and the transporters if the waste is taken to a place that cannot lawfully be used as a waste facility for the particular class of waste. For the transport and disposal of industrial, hazardous or Group A liquid waste advice should be sought from the EPA.

(74) DISCHARGE OF CONTAMINATED GROUNDWATER

Prior approval must be sought from the City's Public Domain Department to discharge any groundwater into the City's stormwater drainage system.

Other options for the disposal of groundwater include disposal to sewer with prior approval from Sydney Water or off-site disposal by a liquid waste transporter for treatment/disposal to an appropriate waste treatment/processing facility.

(75) IMPORTED FILL MATERIALS

All fill imported onto the site shall be validated to ensure the imported fill is suitable for the proposed land use from a contamination perspective. Fill imported on to the site shall also be compatible with the existing soil characteristic for site drainage purposes.

The City may require details of appropriate validation of imported fill material to be submitted with any application for future development of the site. Hence all fill imported onto the site should be validated by either one or both of the following methods during remediation works:

- (a) Imported fill should be accompanied by documentation from the supplier which certifies that the material is not contaminated based upon analyses of the material for the known past history of the site where the material is obtained; and/or
- (b) Sampling and analysis of the fill material shall be conducted in accordance with NSW EPA (1995) Sampling Design Guidelines.

(76) NOTIFICATION – NEW CONTAMINATION EVIDENCE

Any new information which comes to light during remediation, demolition or construction works which has the potential to alter previous conclusions about site contamination shall be notified to the City's Area Planning Manager and the Principal Certifying Authority immediately.

(77) HAZARDOUS AND INDUSTRIAL WASTE

Hazardous and/or industrial waste arising from the demolition/operational activities must be removed and/or transported in accordance with the requirements of the NSW Environmental Protection Authority, NSW Work Cover Authority pursuant to the provisions of the following:

- (a) Protection of the Environment Operations Act 1997.
- (b) Protection of the Environment Operations (Waste) Regulation 2005.
- (c) Waste Avoidance and Recovery Act 2001.
- (d) Work Health and Safety Act 2011.
- (e) Work Health and Safety Regulation 2011.

(78) CONTAMINATED WASTE

The generation, storage, transport, treatment or disposal of industrial, hazardous or Group A liquid waste must be in accordance with the requirements of the Protection of the Environment Operations Act 1997 and the NSW Department of Environment and Conservation's (DEC) waste tracking requirements. For further information contact the Department of Environment and Conservation (DEC) on 133 372.

(79) STOCKPILES

- (a) No stockpiles of soil or other materials shall be placed on footpaths or nature strips unless prior approval has been obtained from the City's Construction Regulation Unit.
- (b) All stockpiles of soil or other materials shall be placed away from drainage lines, gutters or stormwater pits or inlets.
- (c) All stockpiles of soil or other materials likely to generate dust or odours shall be covered.
- (d) All stockpiles of contaminated soil shall be stored in a secure area and be covered if remaining more than 24 hours.

(80) LANDSCAPED (GREEN) ROOFS

- (a) A detailed plan of the green roof, drawn to scale, by a qualified landscape architect or landscape designer, must be submitted to and approved by Council's Area Planning Manager prior to the issue of a Construction Certificate for the unlabelled and unnamed building at the northern end of the site between Building D and Buildings E and F. The plan must include:
 - (i) A Design Statement that includes details of proposed use of the green roof, general accessibility, a description of the environmental parameters it sets out to address, including noise and privacy treatment and performance specification.

- (ii) Survey Plans showing existing and proposed services and engineering details of existing roofs proposed to be retrofitted.
 - (iii) Location of existing and proposed structures and hard landscaping on the rooftop, retaining walls, and roof fixings and other structural elements that may interrupt waterproofing, including cross-sectional details of all components.
 - (iv) Details of the location, sizes and numbers of plants used with reference to NATSPEC (if applicable), with preference for drought resistant species and those specified for use by the City of Sydney.
 - (v) Details of installation methodology including structural reinforcement or retention structures for sloping roofs, including details of prevention of slippage.
 - (vi) Details of accessible and inaccessible areas on the Green Roof. Where proposed to be inaccessible, Green Roofs are required to remain such during occupation of the property.
 - (vii) Details of drainage and irrigation systems, including overflow provisions.
- (b) Prior to the issue of a Construction Certificate for the unlabelled and unnamed building at the northern end of the site between Building D and Buildings E and F, a Maintenance Manual is to be submitted and approved by the Principal Certifying Authority. A copy of the Maintenance Manual is to be kept on site at all times during construction and shall be produced to Council on request. The Maintenance Manual shall include as a minimum:
- (i) Frequency and methodology of different maintenance requirements;
 - (ii) Details of safety procedures;
 - (iii) Laminated copies of 'As Built' drawings;
 - (iv) Manufacturer's contact details and copies of manufacturers' typical details and specification; and
 - (v) Copies of warranties and guarantees relating to all materials and plant used in construction.

The owner of the premises shall at all times comply with the on going maintenance requirements of the Maintenance Manual and shall promptly upon request produce a copy of the Manual to Council.

- (c) All landscaping in the approved plan is to be completed prior to any Occupation Certificate being issued for the unlabelled and unnamed building at the northern end of the site between Building D and Buildings E and F.

- (d) Prior to the issue of a Construction Certificate, the Certifying Authority must assess and approve the proposed design of the waterproofing system against the relevant performance provisions of the Building Code of Australia as required by Clause A0.5 of the Code and ensure the following is satisfied:
 - (i) A report from a structural engineer confirming the adequacy of the structure to support the saturated weight-bearing capacity of the green roof; and
 - (ii) A report from a hydraulic engineer certifying the drainage overflow provisions and water retention cells in the drainage layer used to facilitate self-watering for the plants.

(81) AIR HANDLING

In the event of any process in any room being of such a nature that heat, excessive moisture, dangerous or noxious gases, fumes or other aerosols are given-off, an air handling system must be installed providing positive capture and removal of the effluents. The effluent must be discharged to atmosphere at a point that will not create a nuisance and located in a position complying with AS 1668.2.

(82) CAR PARK VENTILATION

The car park must be ventilated in accordance with the Building Code of Australia and, where necessary, Australian Standard AS1668, Parts 1 and 2. Ventilation must be controlled by carbon monoxide monitoring sensors to ensure compliance with occupant health requirements.

(83) MECHANICAL VENTILATION

- (a) The premises must be ventilated in accordance with the Building Code of Australia and AS1668.1 and AS1668.2.
- (b) Details of any mechanical ventilation and/or air conditioning system complying with AS1668.1 and AS1668.2, the Building Code of Australia and relevant Australian Standards must be prepared by a suitably qualified person certified and certified in accordance with Clause A2.2(a)(iii) of the Building Code of Australia, to the satisfaction of the Certifying Authority prior to the issue of a Construction Certificate.
- (c) Prior to issue of any Occupation Certificate and following the completion, installation, and testing of all the mechanical ventilation systems, a Mechanical Ventilation Certificate of Completion and Performance in accordance with Clause A2.2(a)(iii) of the Building Code of Australia, must be submitted to the Principal Certifying Authority.

(84) INTRUDER ALARM

Intruder alarm/s associated with the development must operate only in accordance with the requirements of Clause 53 of the Protection of the Environment Operations (Noise Control) Regulation 2008 under the Protection of the Environment Operations Act, 1997.

(85) MICROBIAL CONTROL IN WATER SYSTEMS

- (a) Prior to the issue of a Construction Certificate detailed plans of any water cooling system (including cooling towers) as defined under the Public Health Act 2010 must be prepared by a suitably qualified person and certified in accordance with AS3666: 1: 2011 Air handling and water systems of buildings – Microbial Control – Design, installation and commissioning and must be submitted to and approved by Council.
- (b) Water cooling system operation and maintenance manuals and maintenance service records shall be readily available at the premises for inspection by an authorised officer upon request. Such records must be kept on the premises in accordance with Clause 2.6 to AS/NZS 3666:2:2011 Air handling and water systems of buildings – Microbial control, operation and maintenance.
- (c) The installation, operation and maintenance of warm water systems and water cooling systems (as defined under the Public Health Act 2010) must comply with the following:
 - (i) Public Health Act 2010, Public Health Regulation 2012 and Parts 1 and 2 (or part 3 if a Performance-based water cooling system) of AS3666:2011 Air handling and water systems of buildings – Microbial Control and the NSW Health Code of Practice for the Control of Legionnaires Disease.
 - (ii) Prior to the issue of any Occupation Certificate or if non applicable, prior to commencement of the use, the owner or occupier of the premises at which any warm water system and/or water cooling system is installed must cause notice of such installation(s) by providing to Council's Environmental Health department, written notification by way of the prescribed form under Clause 12 to the Public Health Regulation 2012. Any changes to these particulars must be notified to Council's Environmental Health department in writing within 7 days of the change(s). Copies of the notification forms are available on the City of Sydney website.

(86) LETTERBOXES

All letterboxes are to be designed and constructed to be accessible from the public way. Details of the location and design of all letterboxes are to be submitted to and approved by Council prior to the Construction Certificate being issued.

(87) PAVING MATERIALS

The surface of any material used or proposed to be used for the paving of colonnades, thoroughfares, plazas, arcades and the like which are used by the public must comply with AS/NZS 4586:2004 (including amendments) "Slip resistance classification of new pedestrian surface materials".

(88) PHOTOGRAPHIC RECORD / DILAPIDATION REPORT - PUBLIC DOMAIN

Prior to an approval for demolition being granted or a Construction Certificate being issued, whichever is earlier, a photographic recording of the public domain site frontages is to be prepared and submitted to Council's satisfaction.

The recording must include clear images of the building facade adjoining the footpath, the footpath, nature strip, kerb and gutter, driveway crossovers and laybacks, kerb ramps, road carriageway, street trees and plantings, parking restriction and traffic signs, and all other existing infrastructure along the street.

The form of the recording is to be as follows:

- (a) A PDF format report containing all images at a scale that clearly demonstrates the existing site conditions;
- (b) Each image is to be labelled to identify the elements depicted, the direction that the image is viewed towards, and include the name of the relevant street frontage;
- (c) Each image is to be numbered and cross referenced to a site location plan;
- (d) A summary report, prepared by a suitable qualified professional, must be submitted in conjunction with the images detailing the project description, identifying any apparent existing defects, detailing the date and authorship of the photographic record, the method of documentation and limitations of the photographic record;
- (e) Include written confirmation, issued with the authority of both the applicant and the photographer that the City of Sydney is granted a perpetual non-exclusive license to make use of the copyright in all images supplied, including the right to make copies available to third parties as though they were Council images. The signatures of both the applicant and the photographer must be included.

Any damage to the public way including trees, footpaths, kerbs, gutters, road carriageway and the like must immediately be made safe and functional by the applicant. Damage must be fully rectified by the applicant in accordance with the City's standards prior to a Certificate of Completion being issued for Public Domain Works or before any Occupation Certificate is issued for the development, whichever is earlier.

(89) PRESERVATION OF SURVEY MARKS

All works in City streets must ensure the preservation of existing permanent survey marks (a brass bolt, or a lead plug holding a brass tack, covered by a cast iron box). At least forty-eight hours prior to the commencement of any works in the public way within 1 metre of a permanent survey mark contact must be made with the City's Project Manager Survey / Design Services to arrange for the recovery of the mark.

Prior to the issue of a Construction Certificate, a survey plan, clearly showing the location of all permanent survey marks fronting the site and within 5 metres on each side of the frontages must be submitted to Council.

At least forty-eight hours prior to the commencement of any works in the public way within 1 metre of a permanent survey mark contact must be made with the City's Senior Surveyor to arrange for the recovery of the mark.

A fee must be paid to the Council for the replacement of any permanent survey mark removed or damaged in accordance with the City's Schedule of Fees and Charges (Reinstatement of Survey Box).

(90) PROTECTION OF SURVEY INFRASTRUCTURE

Prior to the commencement of any work on site, a statement prepared by a Surveyor registered under the Surveying Act 2002 must be submitted to Council verifying that a survey has been carried out in accordance with the Surveyor General's Direction No. 11 – Reservation of Survey Infrastructure. Any Permanent Marks proposed to be or have been destroyed must be replaced, and a "Plan of Survey Information" must be lodged at the Land and Property Management Authority.

Reason: To ensure that the survey control infrastructure and cadastral framework are preserved for the public benefit and in accordance with the Surveying Act 2002.

(91) PUBLIC ART

High quality art work must be provided within the development in publicly accessible locations, such as near main entrances, in lobbies or on street frontages, in accordance with the Sydney DCP 2012 and the Public Art Policy. Details of the art work must be submitted to and approved by Council prior to a Construction Certificate for any above ground works being issued. Installation of the art work must be completed to Council's satisfaction prior to the issue of any Occupation Certificate.

(92) CONNECTION TO SEWERS OF SYDNEY WATER CORPORATION

Wastewater arising from the use must be directed to the sewers of the Sydney Water Corporation (SWC) under a Trade Waste License Agreement. The pre-treatment of wastewater may be a requirement of the Corporation prior to discharge to the sewer. Details of the Corporation's requirements should be obtained prior to the commencement of construction work.

(93) STORMWATER AND DRAINAGE - MAJOR DEVELOPMENT

(a) Prior to a Construction Certificate being issued for any civil construction, drainage or building work (whichever is earlier), excluding approved preparatory or demolition work, details of the proposed stormwater disposal and drainage from the development including a system of on-site stormwater detention in accordance with Council's standard requirements and details of the provision and maintenance of overland flow paths must be submitted to and approved by Council. All approved details for the disposal of stormwater and drainage are to be implemented in the development.

- (b) The requirements of Sydney Water with regard to the on site detention of stormwater must be ascertained and complied with. Evidence of the approval of Sydney Water to the on-site detention must be submitted prior to a Construction Certificate being issued excluding any approved preparatory, demolition or excavation works.
- (c) Prior to the issue of any Occupation Certificate, a Positive Covenant must be registered on the title for all drainage systems involving On-Site Detention (OSD) to ensure maintenance of the approved OSD system regardless of the method of connection.
- (d) Any proposed connection to the Council's underground drainage system will require the owner to enter into a Deed of Agreement with the Council and obtain registration on Title of a Positive Covenant prior to Construction Certificate being issued for public domain works or above ground building works, whichever is earlier, and prior to the commencement of any work within the public way.
- (e) An "Application for Approval of Stormwater Drainage Connections" must be submitted to the Council with the appropriate fee at the time of lodgement of the proposal for connection of stormwater to the Council's drainage system.
- (f) Prior to a Construction Certificate being issued for any excavation, civil construction, drainage or building work (whichever is earlier), but excluding approved preparatory or demolition work, a stormwater quality assessment must be undertaken and must be approved by Council.

The stormwater quality assessment must:

- (i) be prepared by a suitably qualified drainage engineer with experience in Water Sensitive Urban Design;
- (ii) use modelling from an industry-standard water quality model; and
- (iii) demonstrate what water sensitive urban design and other drainage measures will be used to ensure that the development will achieve the following post-development pollutant loads:
 - a. reduce the baseline annual pollutant load for litter and vegetation larger than 5mm by 90%;
 - b. reduce the baseline annual pollutant load for total suspended solids by 85%;
 - c. reduce the baseline annual pollutant load for total phosphorous by 65%;
 - d. reduce the baseline annual pollutant load for total nitrogen by 45%.

Prior to the issue of any Occupation Certificate, maintenance schedules of the proposed water sensitive urban design and drainage measures must be submitted to and approved by the Certifying Authority and a copy provided to Council.

(94) ACOUSTIC PRIVACY BETWEEN UNITS

- (a) The development must be designed and constructed to satisfy the requirements of the Sydney DCP 2012 acoustic privacy requirements. A report prepared by a suitable qualified acoustic professional must be prepared and submitted to the Certifying Authority prior to the issue of a Construction Certificate, and must be suitably referenced in the Construction Certificate documentation.
- (b) The report must:
 - (i) quantify the level of impact (noise at the exposed facades) from the normal noise of the area on the development; and
 - (ii) identify acoustic mitigation measures to be incorporated into the building design to ensure compliance with the design goals contained within the Sydney DCP 2012.
- (c) The Certifying Authority (PCA) must ensure that the acoustic mitigation measures identified in the subject report are suitable incorporated into the development as erected prior to the issue of any Occupation Certificate.

(95) FLOOR TO CEILING HEIGHT

Prior to a Construction Certificate being issued, the Certifying Authority must ensure that all living rooms and bedrooms in sole occupancy units must have a minimum finished floor to ceiling height of not less than 2.7 metres.

(96) NUMBER OF ADULTS PER ROOM

- (a) No more than two adult people shall permanently occupy any bedroom and no bedroom shall contain more than two beds. This excludes children and children's beds, cots or bassinets.
- (b) The total number of adults residing in one unit shall not exceed twice the number of approved bedrooms.

(97) SYDNEY AIRPORT CORPORATION APPROVAL

An approval for the proposed height of the development shall be obtained from Sydney Airport Corporation Limited in accordance with the Civil Aviation (Building Control) Regulations 1988 prior to the issue of a Construction Certificate.

(98) APPLICATION FOR HOARDINGS AND SCAFFOLDING ON A PUBLIC PLACE

- (a) A separate application under Section 138 of the *Roads Act 1993* is to be made to Council to erect a hoarding and/or scaffolding (temporary structures) in a public place.
- (b) Where a consent is granted allowing the placement of temporary structures in a public place the structures must comply fully with Council's Policy for the Design of Construction Hoardings and the conditions of any consent granted including:

- (i) maintaining a current and valid consent for the full duration that the temporary structures are installed in the public place (Section 139, Roads Act 1993);
- (ii) bill posters and graffiti being removed within 24 hours of their placement (Clause 3.1);
- (iii) maintaining temporary structures in a clean and tidy condition including repainting where directed by an authorised officer of Council (Clause 3.1);
- (iv) hoarding site fences complying with Clause 3.3 - Element 3;
- (v) site sheds on decks of Type B hoardings being fully screened from the public place (Clause 3.3 - Element 5); and
- (vi) providing and maintaining operational artificial lighting systems under Type B hoardings (Clause 3.3 – Element 9).

(99) DEFECTS LIABILITY PERIOD – PUBLIC DOMAIN WORKS

All works to the City's public domain, including rectification of identified defects, are subject to a 12 month defects liability period from the date of final completion. The date of final completion will be nominated by Council on the Certificate of Completion for public domain works.

(100) PUBLIC DOMAIN LIGHTING

- (a) Prior to a Construction Certificate for public domain works or above ground building works being issued, whichever is later, a detailed Public Domain Lighting Plan for pedestrian and street lighting in the public domain must be prepared by a suitably qualified, practicing lighting engineer or lighting designer and must be submitted to and approved by Council. The Lighting Plan must be prepared in accordance with the City of Sydney's Interim Draft Sydney Lights Design Code, Sydney Streets Design Code, Sydney Streets Technical Specification and Public Domain Manual and must include the following:
 - (i) Vertical and horizontal illuminance plots for the public domain lighting design to demonstrate compliance with all relevant Australian Standards and to meet the lighting categories and requirements specified by the City;
 - (ii) The location, type and category of existing and proposed lights, including details of luminaire specifications, required to ensure compliance with City policies and Australian Standards;
 - (iii) Footing locations and structural details;
 - (iv) Location and details of underground electrical reticulation, connections and conduits;

- (v) Certification by a suitably qualified, practicing lighting engineer or lighting designer to certify that the design complies with City policies and all relevant Australian Standards including AS 1158, AS 3000 and AS4282;
 - (vi) Structural certification for footing designs by a suitably qualified, practicing engineer to certify that the design complies with City of Sydney policies and Australian Standards.
- (b) The public domain lighting works are to be completed in accordance with the approved plans and the City of Sydney's Public Domain Manual before any Occupation Certificate is issued in respect of the development or before the use commences, whichever is earlier.

(101) TACTILE GROUND SURFACE INDICATORS AND HANDRAILS

All tactile ground surface indicators, handrails and other elements required to provide access into the building / property must be located entirely within the private property boundary.

(102) SWIMMING POOL - WASTE AND OVERFLOW WATERS

Swimming pool waste and overflow waters must be collected and directed to the sewer in accordance with the requirements of Sydney Water, and details are to be submitted with the application for a Construction Certificate to the satisfaction of Council or the accredited certifier and approved by the certifying authority.

(103) SERVICES

- (a) Any trenching works for services / hydraulics / drainage etc must not be undertaken within a Tree Protection Zone (TPZ), and be referred to the Site Arborist with regard to tree protection, prior to commencement of any works.
- (b) Alternative installation methods for services, such as directional boring/drilling, or redirection of services shall be employed where large woody roots greater than 40mm diameter are encountered during the installation of any services adjacent to the specified TPZ.

(104) SITE SUPERVISION AND REPORTING

- (a) An Arborist with minimum qualifications in Arboriculture of Level 5 (under the Australian Qualification Framework) must oversee various stages of work within the Tree Protection Zone in accordance with Australian Standard AS4970 Protection of Trees on Development Sites. The Arborist must certify compliance with each key milestone detailed below to the Director City Planning, Development and Transport:
 - (i) The installation of tree protection measures prior to the issuing of a Construction Certificate;
 - (ii) During demolition of (insert specific details of structures to be demolished within close proximity to TPZ/s);

- (iii) During excavation and construction of (insert details if applicable);
 - (iv) During any excavation and trenching within the Tree Protection Zone;
 - (v) During any Landscape works within xx metres of the trees trunk.
- (b) A fortnightly/monthly/quarterly compliance report shall be submitted to the Director City Planning, Development and Transport which provides details on the health and structure of tree to be retained and protected and must include:
- (i) Certification of compliance with each key milestone;
 - (ii) Details of any other works undertaken on any tree to be retained or within TPZ/s;
 - (iii) Documentary evidence of compliance with tree protection and measures (including photographs and site notes);
 - (iv) Ensure that the soil moisture is appropriate [Optional – Tree Management Team to insert] and the irrigation system is functioning in accordance with the Arborist’s specifications.

(105) TREES APPROVED FOR REMOVAL

- (a) All trees numbered trees 5-11, 13 -18, 26-34, 38-40, 42-46, 49-51, 53-57 and 59-68 are approved for removal.
- (b) Reference should be made to Appendix F of the Arboricultural Assessment Report prepared by TALC dated 9 July 2014 for tree numbering and locations.

(106) TREE PROTECTION ZONE

- (a) Before the commencement of works, a Tree Protection Zone/s (TPZ) must be established around all tree/s to be retained not less than the distance indicated in the TPZ schedule below. Tree protection must be installed and maintained in accordance with the Australian Standard 4970 Protection of Trees on Development Sites.
- (b) TPZ Schedule

Tree No	Species Name	Location	Radius (m) from Trunk
1	<i>Eucalyptus robusta</i>	Street Tree (Dalmeny Ave)	4.8m
2	<i>Eucalyptus robusta</i>	Street Tree (Dalmeny Ave)	4.8m
3	<i>Eucalyptus robusta</i>	Street Tree (Dalmeny Ave)	4.8m
4	<i>Eucalyptus robusta</i>	Street Tree (Dalmeny Ave)	4.8m

Tree No	Species Name	Location	Radius (m) from Trunk
12	<i>Eucalyptus sp.</i>	Street Tree (Dalmeny Ave)	1.5m
19	<i>Angophora costata</i>	Street Tree (Dalmeny Ave)	1.8m
20	<i>Angophora costata</i>	Street Tree (Dalmeny Ave)	1.8m
21	<i>Lophostemon confertus</i>	Street Tree (Rosebery Ave)	1.5m
24	<i>Melaleuca quinquenervia</i>	Street Tree (Rosebery Ave)	5.4m
35	<i>Lophostemon confertus</i>	Street Tree (Rosebery Ave)	1.5m
36	<i>Lophostemon confertus</i>	Street Tree (Rosebery Ave)	1.5m
47	<i>Lophostemon confertus</i>	Street Tree (Rosebery Ave)	1.5m
48	<i>Acacia binervia</i>	Street Tree (Rosebery Ave)	4.2m
52	<i>Melaleuca quinquenervia</i>	Street Tree (Rosebery Ave)	4.8m
58	<i>Acacia binervia</i>	Street Tree (Rosebery Ave)	5.4m
70	<i>Eucalyptus globulus</i>	Street Tree (Rosebery Ave)	4.2m
71	<i>Eucalyptus globulus</i>	Street Tree (Rosebery Ave)	5.4m
72	<i>Acacia binervia</i>	Street Tree (Rosebery Ave)	4.2m
73	<i>Eucalyptus globulus</i>	Street Tree (Rosebery Ave)	4.8m
22	<i>Lophostemon confertus</i>	22-40 Rosebery Ave	4.8m
23	<i>Lophostemon confertus</i>	22-40 Rosebery Ave	2.6m
25	<i>Melaleuca linariifolia</i>	22-40 Rosebery Ave	2m
69	<i>Casuarina glauca</i>	62-72 Rosebery Ave	2m

- (c) Amend the design of basement and building alignment, prior to the commencement of any construction or development works, to ensure the TPZ specified in the table above is achieved for all trees listed for retention.
- (d) The following works shall be excluded from within any TPZ:
- (i) Soil cut or fill including excavation and trenching;
 - (ii) Soil cultivation, disturbance or compaction;
 - (iii) Stockpiling storage or mixing of materials;
 - (iv) The parking, storing, washing and repairing of tools, equipment and machinery;
 - (v) The disposal of liquids and refuelling;

- (vi) The disposal of building materials;
- (vii) Any action leading to the impact on tree health or structure;
- (e) All work undertaken within or above the TPZ must be:
 - (i) Supervised by a qualified Consultant Arborist, who holds the Diploma in Horticulture (Arboriculture), Level 5 under the Australian Qualification Framework;
 - (ii) Undertaken in accordance with all directions given by the Site Arborist and/or Council.

(107) TREES THAT MUST BE RETAINED

- (a) Approval is NOT granted for the removal of the following trees, which Council has determined to be prominent landscape elements.
- (b) Table 2 – Tree Retention.

Tree No:	Tree Name
1	<i>Eucalyptus robusta</i> (Swamp Mahogany)
2	<i>Eucalyptus robusta</i> (Swamp Mahogany)
3	<i>Eucalyptus robusta</i> (Swamp Mahogany)
4	<i>Eucalyptus robusta</i> (Swamp Mahogany)
12	<i>Eucalyptus sp.</i> (gum tree)
19	<i>Angophora costata</i> (Sydney Red Gum)
20	<i>Angophora costata</i> (Sydney Red Gum)
21	<i>Lophostemon confertus</i> (Brush Box)
24	<i>Melaleuca quinquenervia</i> (Broad leafed Paperbark)
35	<i>Lophostemon confertus</i> (Brush Box)
36	<i>Lophostemon confertus</i> (Brush Box)
37	<i>Eucalyptus botryoides</i> (Bangalay)
41	<i>Eucalyptus robusta</i> (Swamp Mahogany)
47	<i>Lophostemon confertus</i> (Brush Box)
48	<i>Acacia binervia</i> (Coastal Myall)
52	<i>Melaleuca quinquenervia</i> (Broad leafed Paperbark)
58	<i>Acacia binervia</i> (Coastal Myall)
70	<i>Eucalyptus globulus</i> (Southern Blue Gum)
71	<i>Eucalyptus globulus</i> (Southern Blue Gum)
72	<i>Acacia binervia</i> (Coastal Myall)
73	<i>Eucalyptus globulus</i> (Southern Blue Gum)

- (c) Reference should be made to Appendix F of the Arboricultural Assessment Report prepared by TALC dated 9 July 2014 for tree numbering and locations.

(108) SERVICES

- (a) Any trenching works for services / hydraulics / drainage etc must not be undertaken within a Tree Protection Zone (TPZ), and be referred to the Site Arborist with regard to tree protection, prior to commencement of any works.

- (b) Alternative installation methods for services, such as directional boring/drilling, or redirection of services shall be employed where large woody roots greater than 40mm diameter are encountered during the installation of any services adjacent to the specified TPZ.

(109) SITE SUPERVISION AND REPORTING

- (a) An Arborist with minimum qualifications in Arboriculture of Level 5 (under the Australian Qualification Framework) must oversee various stages of work within the Tree Protection Zone in accordance with Australian Standard 4970 Protection of Trees on Development Sites. The Arborist must certify compliance with each key milestone detailed below:
 - (i) The Arborist must certify the installation of the tree protection measures to Council and the Principal Certifying Authority prior to the issuing of a construction certificate;
 - (ii) During demolition of any building structures, retaining walls, ground surface material (concrete, pavers, bitumen etc) located within the Tree Protection Zone of any tree listed for retention;
 - (iii) During excavation of the basement carpark located within the TPZ of any tree listed for retention;
 - (iv) During any excavation and trenching within the Tree Protection Zone.
- (b) A monthly arboricultural compliance report shall be submitted to Council's Director - City Planning, Development and Transport which provides details on the health and structure of tree to be retained and protected and must include:
 - (i) Certification of compliance with each key milestone;
 - (ii) Details of any other works undertaken on any tree to be retained or within TPZ/s;
 - (iii) Documentary evidence of compliance with tree protection and measures (including photographs and site notes).

(110) LANDSCAPING OF THE SITE

- (a) The Landscape Plans prepared by Arcadia Landscape Architecture, dated March 2014 are not approved as part of this consent
- (b) A detailed landscape plan, drawn to scale, by a qualified landscape architect or landscape designer, must be submitted to and approved by Council's Director City Planning, Development and Transport prior to the issue of a Construction Certificate for above ground building works. The plan must include:
 - (i) Location of existing and proposed structures on the site including, but not limited to, existing and proposed trees, paved areas, planted areas on slab, planted areas in natural ground, lighting and other features;

- (ii) Details of earthworks and soil depths including mounding and retaining walls and planter boxes (if applicable). The minimum soil depths for planting on slab must be 1000mm for trees, 450mm for shrubs and 200mm for groundcovers;
 - (iii) Location, numbers, type and supply of plant species (and NATSPEC – see below);
 - (iv) Details of planting procedure and maintenance;
 - (v) Details of drainage, waterproofing and watering systems.
- (c) Prior to the issue of a Construction Certificate, a maintenance plan is to be submitted to and approved by the Principal Certifying Authority. The maintenance plan is to be complied with during occupation of the property.
- (d) All landscaping in the approved plan is to be completed prior to any Occupation Certificate being issued.

(111) STREET TREE PROTECTION

Street trees must be protected in accordance with the Australian Standard 4970 Protection of Trees on Development Sites. All street trees must be protected during the construction works as follows:

- (a) Tree trunk and major limb protection must be undertaken prior to or during the installation of any hoarding or scaffoldings. The protection must be installed by a qualified Arborist (AFQ 2 or 3) and must include:
 - (i) An adequate clearance, minimum 250mm, must be provided between the structure and tree branches, limbs and trunk at all times;
 - (ii) Tree trunk/s and/or major branches, located within 500mm of any hoarding or scaffolding structure, must be protected by wrapped hessian or similar material to limit damage;
 - (iii) Timber planks (50mm x 100mm or similar) must be placed around tree trunk/s. The timber planks must be spaced at 100mm intervals, and must be fixed against the trunk with tie wire, or strapping. The hessian and timber planks must not be fixed to the tree in any instance, or in any fashion; and
 - (iv) Tree trunk and major branch protection is to remain in place for the duration of construction and development works, and must be removed at the completion of the project.
- (b) All hoarding support columns are to be placed a minimum of 300mm from the edge of the existing tree pits/setts, so that no sinking or damage occurs to the existing tree setts. Supporting columns must not be placed on any tree roots that are exposed.
- (c) Materials or goods, including site sheds, must not be stored or placed:

- (i) around or under the tree canopy; or
 - (ii) within two (2) metres of tree trunks or branches of any street trees.
- (d) Any damage sustained to street tree/s as a result of the erection of hoardings, scaffolding, or due to the loading/unloading of vehicles adjacent the site, must be immediately reported to the Council's Street Tree Contract Coordinator on 9265 9333, in order to determine the appropriate action for maintaining the health and structural integrity of any damaged street tree.

(112) WASTE CONDITIONS

The following waste conditions apply:

- (a) A storage area for discarding bulky items must be provided per block of residential units.
- (b) Waste and recycling receptacles to be stored within the basement at all times with Council access key for servicing if required.
- (c) Residential and commercial waste rooms are to be separated (commercial tenants must not have access to residential waste and recycling bins).
- (d) A clearance height for access by collection vehicles must be no less than 3.6m at any point.
- (e) The maximum travel distance between the storage point and collection point for all waste recycling receptacles must be no more than 10 metres.
- (f) Unimpeded access shall be provided for collection vehicles between 6.00am and 6.00pm on collection days.
- (g) Waste and recycling containers will not be supplied until construction in development is completed unless other organised with Council's Waste Services Unit.

(113) ELECTRICITY SUBSTATION

If required by the applicable energy supplier, the owner must dedicate to the applicable energy supplier, free of cost, an area of land within the development site, but not in any landscaped area or in any area visible from the public domain, to enable an electricity substation to be installed. The size and location of the substation is to be submitted for approval of Council and Energy Australia, prior to a Construction Certificate being issued or the commencement of the use, whichever is earlier.

The substation(s) are to be in located adjacent to the ground floor lobby of building B/C within the building footprint.

(114) TELECOMMUNICATIONS PROVISIONS

- (a) Appropriate space and access for ducting and cabling is to be provided within the plant area and to each apartment within the building within for a minimum of three telecommunication carriers or other providers of broad-band access by ground or satellite delivery. The details must be submitted for the approval of the Certifying Authority prior to a Construction Certificate being issued.
- (b) A separate DA must be submitted prior to the installation of any external telecommunication apparatus, or the like.

(115) UTILITY SERVICES

To ensure that utility authorities are advised of the development:

- (a) Prior to the issue of a Construction Certificate a survey is to be carried out of all utility services within and adjacent to the site including relevant information from utility authorities and excavation if necessary, to determine the position and level of services.
- (b) Prior to the commencement of work, the applicant is to obtain written approval from the utility authorities (e.g. Energy Australia, Sydney Water, and Telecommunications Carriers) in connection with the relocation and/or adjustment of the services affected by the construction of the underground structure. Any costs in the relocation, adjustment or support of services are to be the responsibility of the developer.

(116) WATER POLLUTION

No wastewater, chemicals or other substances harmful to the environment shall be permitted to discharge to Council's stormwater system. Only clean, unpolluted water is permitted to discharge into the stormwater system.

(117) WASTE AND RECYCLING MANAGEMENT - RESIDENTIAL

- (a) The Waste Management Plan accompanying this Development Application has not been approved by this consent.
- (b) A Waste Management Plan is to be submitted to and approved by Council's Area Planning Manager prior to a Construction Certificate being issued. The plan must comply with the Council's Policy for Waste Minimisation in New Developments 2005. All requirements of the approved Waste Management Plan must be implemented during construction of the development.
- (c) The building must incorporate designated areas or separate garbage rooms constructed in accordance with Council's Policy for Waste Minimisation in New Developments 2005, to facilitate the separation of commercial waste and recycling from residential waste and recycling.

UPON COMPLETION OF THE DEVELOPMENT

- (d) Prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, the Principal Certifying Authority must obtain Council's approval of the waste and recycling management facilities provided in the development and ensure arrangements are in place for domestic waste collection by Council.

(118) WASTE/RECYCLING COLLECTION – CHILDCARE CENTRE

The collection of waste and recycling associated with the childcare must only occur between 7.00am and 8.00pm weekdays and 9.00am and 5.00pm weekends and public holidays, to avoid noise disruption to the surrounding area.

(119) GARBAGE ROOM

The garbage room is to be constructed in accordance with City of Sydney's policy for Waste Minimisation in New Developments and the BCA. The floor of the garbage room is to be drained to a floor waste connected to the sewer. The floor waste is to consist of a removable basket within a fixed basket arrestor and is to comply with Sydney Water requirements. A constant supply of water is to be available within the vicinity.

(120) WASTE AND RECYCLING MANAGEMENT

The proposal must comply with the relevant provisions of Council's Policy for Waste Minimisation in New Developments 2005 which requires facilities to minimise and manage waste and recycling generated by the proposal.

(121) COMPLIANCE WITH BUILDING CODE OF AUSTRALIA

The proposed work must comply with the Building Code of Australia (BCA).

(122) STRUCTURAL CERTIFICATION FOR DESIGN - BCA (ALL BUILDING CLASSES)

Prior to the issue of a Construction Certificate, structural details and a Structural Certificate for Design by a qualified practising structural engineer and in accordance with Clause A2.2(a)(iii) of the Building Code of Australia (applicable to class 2-9 building) and Clause 1.2.2(iii) of Volume 2 of the BCA (applicable to Class 1 and 10 buildings) must be submitted to the satisfaction of Council (where Council is the Certifying Authority).

(123) FIRE SAFETY CERTIFICATE TO BE SUBMITTED

A Fire Safety Certificate must be submitted to the Principal Certifying Authority for all of the items listed in the Fire Safety Schedule prior to any Occupation Certificate being issued. A copy of the Fire Safety Certificate must be submitted to Council if it is not the Principal Certifying Authority.

(124) ANNUAL FIRE SAFETY STATEMENT FORM

An Annual Fire Safety Statement must be given to Council and the NSW Fire Brigade commencing within 12 months after the date on which the initial Interim/Final Fire Safety Certificate is issued or the use commencing, whichever is earlier.

SCHEDULE 1C**During Construction/Prior to Occupation/Completion****(125) BASIX**

All commitments listed in each relevant BASIX Certificate for the development must be fulfilled prior to any Occupation Certificate being issued for the respective building.

(126) HOURS OF WORK AND NOISE – OUTSIDE CBD

The hours of construction and work on the development must be as follows:

- (a) All work, including building/demolition and excavation work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg. loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.30am and 5.30pm on Mondays to Fridays, inclusive, and 7.30am and 3.30pm on Saturdays, with safety inspections being permitted at 7.00am on work days, and no work must be carried out on Sundays or public holidays.
- (b) All work, including demolition, excavation and building work must comply with the City of Sydney Code of Practice for Construction Hours/Noise 1992 and Australian Standard 2436 - 1981 Guide to Noise Control on Construction, Maintenance and Demolition Sites.

Note: The *City of Sydney Code of Practice for Construction Hours/Noise 1992* allows extended working hours subject to the approval of an application in accordance with the Code and under Section 96 of the Environmental Planning and Assessment Act 1979.

(127) LIGHTING OF SITE OUTSIDE OF STANDARD CONSTRUCTION HOURS

Lighting of the site while any work is undertaken outside of Council's standard hours of construction must ensure that at no time must the intensity, hours of illumination or location of the lighting cause objectionable glare or injury to the amenity of the neighbourhood or Obtrusive Light in accordance with the definition in Australian Standard AS4282-1997 Control of the obtrusive effects of outdoor lighting. If in the opinion of Council, injury is likely to be caused, the intensity, hours of illumination and location of the lighting must be varied so that it does not cause injury to nearby residents.

(128) NOTIFICATION OF EXCAVATION WORKS OR USE OF HIGH NOISE EMISSION APPLIANCES/PLANT

The immediately adjoining neighbours must be given a minimum of 48 hours notice that excavation, shoring or underpinning works or use of high noise emission appliances / plant are about to commence.

(129) DUST MANAGEMENT

All reasonable and feasible steps must be taken to ensure that dust from activities conducted on the site is kept to a minimum. This includes the covering and wetting down of disturbed soils.

(130) SITE NOTICE OF PROJECTS DETAILS AND APPROVALS

A site notice is to be prominently displayed at the boundary to each frontage of the site for the purposes of informing the public of appropriate project details and relevant approvals. The notice(s) is to satisfy all of the following requirements:

- (a) Minimum dimensions of the notice are to measure 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size;
- (b) The notice is to be durable and weatherproof and is to be displayed throughout the construction period;
- (c) A copy of the first page of the development approval, building approval (including any modifications to those approvals) and any civic works approvals is to be posted alongside the notice in weatherproof casing;
- (d) The approved hours of work, the Principal Certifying Authority including contact address and certification details, the name of the site manager, the responsible managing company, its address and 24 hour contact phone number for any enquiries, including construction/noise complaint, are to be displayed on the site notice;
- (e) The notice(s) is to be mounted at eye level on the perimeter hoardings and is also to state that unauthorised entry to the site is not permitted.

(131) USE OF HIGH NOISE EMISSION APPLIANCES / PLANT

- (a) The operation of high noise intrusive plant and machinery such as pile-drivers, rock breakers and hydraulic hammers and those which are not listed in Groups B, C, D, E or F of Schedule 1 of the City of Sydney Code of Practice for Construction Hours/Noise 1992 and Australian Standard 2436-2010 "Guide to Noise Control on Construction, Maintenance and Demolition Sites is restricted to the hours of:
 - (i) 9:00am -12:00pm and 1:00 pm– 4:30pm Mondays to Friday
 - (ii) 9:00am – 1:00pm on Saturdays
 - (iii) No work is permitted on Sundays or Public Holidays

- (b) All reasonable and feasible steps must be undertaken to ensure that the work, including demolition, excavation and building complies with the City of Sydney Code of Practice for Construction Hours/Noise 1992 and Australian Standard 2436- 2010 'Guide to Noise Control on Construction, Maintenance and Demolition Sites'.
- (c) All reasonable and feasible steps must be taken to ensure that noise levels from activities conducted on site are kept to a minimum including the adoption of less noise intrusive plant and equipment or technologies.

(132) ENCROACHMENTS – NEIGHBOURING PROPERTIES

No portion of the proposed structure shall encroach onto the adjoining properties.

(133) ENCROACHMENTS – PUBLIC WAY

No portion of the proposed structure, including gates and doors during opening and closing operations, shall encroach upon Council's footpath area.

(134) SURVEY

All footings and walls adjacent to a boundary must be set out by a registered surveyor. On commencement of brickwork or wall construction a survey and report must be submitted to the Principal Certifying Authority indicating the position of external walls in relation to the boundaries of the allotment.

(135) SURVEY CERTIFICATE AT COMPLETION

A Survey Certificate prepared by a Registered Surveyor must be submitted at the completion of the building work certifying the location of the building in relation to the boundaries of the allotment.

(136) COVERING OF LOADS

All vehicles involved in the excavation and/or demolition process and departing the property with demolition materials, spoil or loose matter must have their loads fully covered before entering the public roadway.

(137) VEHICLE CLEANSING

Prior to the commencement of work, suitable measures are to be implemented to ensure that sediment and other materials are not tracked onto the roadway by vehicles leaving the site. It is an offence to allow, permit or cause materials to pollute or be placed in a position from which they may pollute waters.

(138) RAINWATER HARVESTING & RAINWATER TANKS

- (a) Use

Rainwater is only to be collected from roof catchments and its use is restricted to toilet flushing, washing cars, garden use and for washing machines only.

- (b) Installation requirements
- (i) All plumbing work is to be carried out by a licensed plumber and must be carried out in accordance with AS/NZS 3500:2003. A permit in accordance with the NSW Code of Practice - Plumbing and Drainage 2006 (as amended) is to be obtained from Sydney Water for the work to be carried out.
 - (ii) Rainwater tanks shall be designed to include, but not be limited to the following:-
 - (iii) Rainwater tanks shall be fixed to structurally adequate bases or walls in accordance with manufactures specifications or engineers details.
 - (iv) Shall not be fixed to, or otherwise supported by a bounding common fence, wall or the like, without prior approval be adjacent land owners.
 - (v) All roof gutter downpipes must be fitted with a first flush device in accordance with the manufacturer's recommendations.
 - (vi) Openings being suitably sealed to prevent access by children and being fitted with a fine mesh screens in order to prevent penetration of contaminants and insects such as mosquitoes.
 - (vii) All gutters, downpipes and associated supply pipe work must be free draining to prevent ponding of rainwater and made of suitable non corrodible materials.
 - (viii) Shall have an overflow device being fitted to the rainwater tank which directs water into an existing stormwater drainage system, and shall have a suitable drainage plug/tap fitted and positioned in a manner that facilitates flushing and cleaning.
 - (ix) The water supply system from a rainwater tank shall be clearly marked at intervals not exceeding 500 mm with the word 'RAINWATER' in contrasting colour, in accordance with AS 1345. Water outlets shall be identified as 'RAINWATER', or with a rainwater tap identified by a green coloured indicator with the letters 'RW'.
 - (x) A suitable back up water supply using potable water must be provided to ensure that essential services such as toilet flushing are not contradicted where there is inadequate rainfall to meet demand or the rainwater harvesting system fails.

Rainwater tanks that are not directly connected with the potable supply, the indirect connection shall be by means of a visible "air gap" external to the rainwater tank, in accordance with the provisions of the National Plumbing Code AS /NZS 3500 - Minimum air gap requirements.

Where a rainwater tank is to be directly cross connected with the Sydney Water supply, an appropriate testable device shall be provided at the meter location on the potable water supply to prevent backflow of rainwater. This device must meet the requirements of Sydney Water.

- (xi) Water pumps are to be located so as not causing an “offensive noise” as defined by the Protection of the Environment Operations Act 1997 to any affected receiver.

(c) Proximity to other services

That all rainwater pipes must be separated from any parallel drinking water service. Above ground pipes must be 100mm away and below ground 300mm away from any drinking water pipe

(d) Marking and labelling

- (i) Above ground distribution pipes shall be continuously marked ‘RAINWATER’ in accordance with AS1345. Alternatively, adhesive pipe markers clearly labelled ‘RAINWATER’ made in accordance with AS 1345 can be used.

- (ii) Below ground distribution pipes shall be continuously marked ‘RAINWATER’ at intervals not exceeding 500mm in accordance with AS1345. Alternatively, identification tape/pipe sleeve continuously marked ‘RAINWATER’ made in accordance with AS 2648 can be used.

- (iii) All rainwater tank outlets, taps, valves and tank apertures shall be identified as ‘RAINWATER’ with a sign complying with AS1319 or a green coloured indicator with the letters ‘RW’. Alternatively a permanent sign at the front of the premises and visible to all visitors may be displayed advertising rainwater use.

(e) Maintenance

- (i) All rainwater tanks installed are to be maintained by the owner in accordance with these provisions, the NSW Health Department Circular no 2002/1 “Use of rainwater tanks where a reticulated potable supply is available” and any other local water utility requirements.

- (ii) The rainwater collection system shall be constantly maintained in accordance to the manufacturer’s instructions and in line with any approved maintenance plan so as to prevent risk of pathogenic microbial contamination including legionella and organisms.

(139) STREET NUMBERING – MAJOR DEVELOPMENT

Prior to any Occupation Certificate being issued, street numbers and the building name must be clearly displayed at either end of the ground level frontage in accordance with the Policy on Numbering of Premises within the City of Sydney. If new street numbers or a change to street numbers is required, a separate application must be made to Council.

(140) OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifying Authority and a copy submitted to Council prior to commencement of any use or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

(141) ACCESS DRIVEWAYS TO BE CONSTRUCTED

Approved driveways are to be constructed for all vehicular access to the construction site in accordance with the requirements of Council's "Driveway Specifications" to the satisfaction of Council.

(142) LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

- (a) All loading and unloading associated with construction activity must be accommodated on site.
- (b) If, during excavation, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.
- (c) A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the particular need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.
- (d) In addition to any approved construction zone, provision must be made for loading and unloading to be accommodated on site once the development has reached ground level.
- (e) The structural design of the building must allow the basement and/or the ground floor to be used as a loading and unloading area for the construction of the remainder of the development.
- (f) Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate approval under Section 68 of the Local Government Act 1993 must be obtained.

(143) NO OBSTRUCTION OF PUBLIC WAY

The public way must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by Council to stop all work on site.

(144) USE OF MOBILE CRANES

The following requirements apply:

- (a) Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.
- (b) For special operations including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic disruptions.
- (c) Special operations and the use of mobile cranes must comply with the approved hours of construction. Mobile cranes must not be delivered to the site prior to 7.30am without the prior approval of Council.

SCHEDULE 1D

Subdivision

(145) PLANNING AGREEMENT COMPLIANCE

The final Plans of Subdivision for the two stages of this consent are to be consistent with the Planning Agreement (VPA) for the development of the site, executed by Council and Karimbla Properties (No.31) Pty Ltd.

STAGE 1

(146) SUBDIVISION CERTIFICATE

A separate application is to be made to Council to obtain approval of the final Plan of Subdivision and issue of the Subdivision Certificate under Part 4A of the Environmental Planning and Assessment Act 1979.

(147) SYDNEY WATER CERTIFICATE

- (a) Prior to the issue of the Subdivision Certificate, a Section 73 (Subdivider) Compliance Certificate under the Sydney Water Act 1994 must be obtained from the Sydney Water Corporation and submitted to Council.
- (b) Application must be made through an authorised Water Servicing Coordinator. Refer to the Building Developing and Plumbing section on the web site; www.sydneywater.com.au then refer to "Water Servicing Coordinator" under "Developing your Land" or telephone 132092 for assistance. Following application, a "Notice of Requirements" will advise of water and sewer infrastructure to be built and charges to be paid. It is advised to make early contact with the Coordinator, since the construction of sewer/water infrastructure can be time consuming and may impact upon other services and building works.

(148) EASEMENT FOR PUBLIC ACCESS AND POSITIVE COVENANT

- (a) The final Plan of Subdivision is to include the creation of a documentary Easements for Public Access 6 Wide over the Public Through-Site-Link within the development at the southern end of the site, pursuant to Section 88B of the Conveyancing Act 1919. The easement is to be defined in stratum, to limits acceptable to Council, is to burden the affected part of Lot 20 in the subdivision, is to be created appurtenant to Council, in terms granting appropriate public pedestrian and bicycle access rights and is to be in accordance with the requirements and to the satisfaction of Council. The terms of the Easement are to include the obligation to remove the Barrier Fence upon receipt of 14 days notice from Council of the registration of the future extension of the Easement for Public Access to Dalmeny Avenue.
- (b) The final Plan of Subdivision is to include the creation of an associated Positive Covenant, burdening Lot 20, pursuant to Section 88B of the Conveyancing Act 1919, appurtenant to Council and in terms that include all requirements and obligations considered necessary to protect the interests of Council and the public, and created to the satisfaction of Council.
- (c) The Easement and Covenant are to be registered on Title of the subject land prior to issue of any Occupation Certificate for Buildings A and B in the development.

(149) PUBLIC ROAD

The final Plan of Subdivision is to provide notation to the effect that Lot 21 in the subdivision is reserved for future dedication as Public Road 4 Wide.

(150) EASEMENTS AND COVENANTS

- (a) The final Plan of Subdivision is to include the creation of any easements, rights of way, restrictive or positive covenants required as a consequence of the subdivision, pursuant to Section 88B of the Conveyancing Act 1919 and to Council's satisfaction.
- (b) Any proposal to Strata subdivide a lot(s) in the subdivision will require separate applications to obtain Development Consent from Council or a Complying Development Certificate from an accredited certifier and subsequent approval of the Strata Plan and issue of the Strata Certificate by Council or an accredited Strata certifier under the Strata Schemes (Freehold Development) Act 1973.

(151) STRATA SUBDIVISION

Any proposal to Strata subdivide the development occupying Lot 20 in the subdivision will require separate applications to obtain Development Consent from Council or a Complying Development Certificate from an accredited certifier and subsequent approval of the Strata Plan and issue of the Strata Certificate by Council or an accredited Strata certifier under the Strata Schemes (Freehold Development) Act 1973. The Strata subdivision is to include the creation of appropriate Restrictions on Use of Land, pursuant to

Section 88B of the Conveyancing Act 1919, to address Council's requirements for prohibitions on use of car parking spaces, inappropriate use of Common Property, and prohibitions on short-terms use of residential apartments, in accordance with the requirements and to the satisfaction of Council.

STAGE 2

(152) SUBDIVISION CERTIFICATE

- (a) A separate application is to be made to Council to obtain approval of the final Plan of Subdivision and issue of the Subdivision Certificate under Part 4A of the Environmental Planning and Assessment Act 1979.
- (b) As the Plan of Subdivision is effecting the dedication of Public Road only, the issue of the Subdivision Certificate will not require the submission to Council of a Section 73 Compliance Certificate from Sydney Water.

(153) ROAD DEDICATION

- (a) The part of the new road within the site, being Lot 21 in the Stage 1 subdivision, is to be dedicated to the public as Public Road 4 Wide, free of cost to Council.
- (b) Prior to the issue of the Subdivision Certificate, the provisions of Section 109J(2) of the Act with regard to subdivision work, must be satisfied.

(154) DESIGN AND CONSTRUCTION OF DEDICATION

- (a) Detailed engineering, road, drainage, infrastructure and landscaping works, design and construction plans for construction of the new Public Road 4 Wide Park, are to be submitted to Council's Public Domain unit and approval gained prior to the issue of a Construction Certificate for those Subdivision Works. The design and documentation is to include any requirements and approvals from external parties such as public utility service authorities and is to be in accordance with Council's "Sydney Streets – Technical Specifications" and the "City of Sydney Public Domain Manual" or Council's civil works design and construction specifications current at the time and is to be in accordance with any approved flood analysis and assessment report for the site and is to be consistent with Water Sensitive Urban Design principles.
- (b) The submission to Council is to provide plans and specifications sufficient to describe in detail the design, scope and extent of all proposed road, drainage, infrastructure and landscaping works for the construction of the part of the new Public Road within the site, prepared and certified by a Professional Engineer. The design and construction plans are to be fully coordinated with the approved Public Domain Plan and Landscape Plan for the development and are to include confirmation that the design complies with Council's specifications and standards.

- (c) Council's acceptance of completed Subdivision Work and issue of the final Compliance Certificate as the Principal Certifying Authority will be subject to compliance with the approved drawings, certification of compliance with Council's specifications and applicable standards and the submission of certified Works as Executed drawings.

(155) PRINCIPAL CERTIFYING AUTHORITY FOR SUBDIVISION WORKS

A separate application is to be made to Council for appointment as Principal Certifying Authority for the Subdivision Works under Section 109E of the Act, and Council's appointment is to be obtained prior to the commencement of any such work on the site.

(156) CONSTRUCTION CERTIFICATE FOR SUBDIVISION WORKS

Prior to the issue of any Occupation Certificate for Buildings D, E and F in the development occupying Lot 21 in the Stage 1 subdivision, all Subdivision Work, including any such work subject to a bond under Section 109J(2) of the Act, is to be completed in accordance with the requirements and to the satisfaction of Council.

(157) SECTION 138 APPROVAL

Prior to the commencement of any work within the existing public way, a separate application is to be made to Council to obtain approval under Section 138 of the Roads Act 1993 for those works.

(158) PUBLIC UTILITY SERVICE AUTHORITIES

- (a) Prior to the commencement of any Subdivision Work on the site, or public domain work, evidence is to be submitted to Council that the requirements of all public utility service authorities with services installed or to be installed in the new road have been satisfied with regard to the design of those services.
- (b) Prior to the issue of the Stage 2 Subdivision Certificate, evidence is to be submitted to Council that the requirements of those public utility service authorities have been satisfied with regard to the completion of construction/installation of those services.

SCHEDULE 2

The prescribed conditions in accordance with Clause 98 of the Environmental Planning and Assessment Regulation 2000 apply to the development.

ITEM 5 PLANNING PROPOSAL - 60 MARTIN PLACE (S110780)

Moved by the Chair (the Lord Mayor), seconded by Mr Webster -

It is resolved that:

- (A) the Central Sydney Planning Committee approve the Planning Proposal – Sydney Local Environmental Plan 2012 - 60 Martin Place, shown at Attachment A to the subject report, for submission to the Minister for Planning with a request for a Gateway determination;
- (B) the Central Sydney Planning Committee note that the supporting technical documentation included in the Planning Proposal – Sydney Local Environmental Plan – 60 Martin Place, shown at Attachment A (Parts A2 through to A18), will be revised prior to public exhibition, to reflect the following changes:
 - (i) an increase in the maximum depth of the cantilever element from 5.5 metres to 8 metres;
 - (ii) raising the lowest level of the cantilever to a height above the spire of the adjacent St Stephen’s church;
 - (iii) increasing the cantilever setback from Macquarie Street to 8 metres, from 4.85 metres; and
 - (iv) lowering of the street wall height at Macquarie Street from 45 metres to a height corresponding with the surrounding built form;
- (C) the Central Sydney Planning Committee approve the Planning Proposal – Sydney Local Environmental Plan 2012 - 60 Martin Place for public authority consultation and public exhibition in accordance with any conditions imposed under the Gateway determination;
- (D) the Central Sydney Planning Committee note the recommendation to Council’s Planning and Development Committee on 9 September 2014 that Council seek authority from the Secretary of the Department of Planning and Environment to exercise the delegation of the Minister for Planning of all her functions under section 59 of the Environmental Planning and Assessment Act 1979 to make the local environmental plan;
- (E) the Central Sydney Planning Committee note the recommendation to Council’s Planning and Development Committee on 9 September 2014 that Council approve the draft Sydney Development Control Plan 2012 – 60 Martin Place, shown at Attachment B to the subject report, for public authority consultation and public exhibition in parallel with the Planning Proposal – Sydney Local Environmental Plan 2012 – 60 Martin Place;
- (F) the Central Sydney Planning Committee:
 - (i) delegate authority to the Chief Executive Officer to make any minor variations to the Planning Proposal – Sydney Local Environmental Plan 2012 - 60 Martin Place; and

- (ii) note the recommendation to Council's Planning and Development Committee on 9 September 2014 that Council authorise the Chief Executive Officer to make any minor variations to Sydney Development Control Plan 2012 – 60 Martin Place

following receipt of the Gateway determination to prepare for public exhibition; and

- (G) the Central Sydney Planning Committee note the recommendation to Council's Planning and Development Committee on 9 September 2014 that Council authorise the Chief Executive Officer to enter into a Deed of Consent, consistent with the intent outlined in the letter from Investa at Attachment D to the subject report.

Carried unanimously.

ITEM 6 POST EXHIBITION - PLANNING PROPOSAL FOR VARIOUS SITES IN WATERLOO AND AMENDMENTS TO SYDNEY DEVELOPMENT CONTROL PLAN 2012 IN ALEXANDRIA AND WATERLOO (S107972)

Moved by Councillor Mant, seconded by Mr Webster-

It is resolved that:

- (A) the Central Sydney Planning Committee note the matters raised in response to the public exhibition of Planning Proposal: Various Sites in the Waterloo Park Precinct, Green Square dated August 2014 and Draft Sydney Development Control Plan 2012 – Amendment X dated August 2014, as shown at Attachment C to the subject report;
- (B) the Central Sydney Planning Committee approve Planning Proposal: Various Sites in the Waterloo Park Precinct, Green Square dated August 2014, as shown at Attachment A to the subject report, to be made by Council under delegation, as a local environmental plan under section 59(2) of the Environmental Planning and Assessment Act 1979;
- (C) the Central Sydney Planning Committee note the Draft Sydney Development Control Plan 2012 – Amendment X dated August 2014, as shown at Attachment B to the subject report, noting that the approved development control plan will come into effect on the date of publication of the subject local environmental plan insofar as it applies to the Waterloo Park Precinct, and that it will come into effect on the date of the public notice given in accordance with clause 21 of the Environmental Planning and Assessment Regulation 2000 insofar as it applies to 18 Huntley Street, Alexandria; and
- (D) authority be delegated to the Chief Executive Officer to make any minor amendments to the Planning Proposal, to correct any minor drafting errors.

Carried unanimously.

**ITEM 7 301-303 BOTANY ROAD, ZETLAND (GREEN SQUARE TOWN CENTRE)
– SITE UN-DEFERRAL (S100173)**

Moved by the Chair (the Lord Mayor), seconded by Councillor Mant-

It is resolved that:

- (A) the Central Sydney Planning Committee note that on 25 August 2014 Council delegated authority to the Chief Executive Officer to:
 - (i) prepare and publicly exhibit a draft planning agreement for the site at 301-303 Botany Road, Zetland; and
 - (ii) make any minor changes to the draft planning agreement to finalise matters raised during public exhibition and execute the draft planning agreement;
- (B) the Central Sydney Planning Committee note that the report to the Planning and Development Committee on 9 September 2014 recommends that Council request the Minister for Planning un-defer land at 301 – 303 Botany Road, Zetland in accordance with Section 59 of the Environmental Planning and Assessment Act 1979, subject to execution of the planning agreement by the Chief Executive Officer and the landowner; and
- (C) subject to execution of the planning agreement by the Chief Executive Officer and the landowner, approve the un-deferral of the land at 301 – 303 Botany Road, Zetland from Sydney Local Environmental Plan (Green Square Town Centre - Stage 2) 2013 to give effect to Planning Proposal: Sydney Local Environmental Plan 2010 (Green Square Town Centre) – Sites 301 Botany Road, 501 Botany Road, 509 Botany Road, 3 Joynton Avenue, 511-515 Botany Road, 97-115 Portman Street, 811 Elizabeth Street, Zetland; 312-318 Botany Road, 320-322 Botany Road, 324 Botany Road, 318A Botany Road, 6-12 O’Riordan Street and 2A Bourke Road, Alexandria, to the extent that it applies to the subject land.

Carried unanimously.

The meeting of the Central Sydney Planning Committee concluded at 5.38pm.
