

# ATTACHMENT A

- KEY**
- AL-1 Perforated aluminium fence and gate to screen
  - AL-2 Anodised aluminium
  - AL-3 Aluminium to open wallface
  - GL-1 Glass balustrade
  - GL-2 Glass brick wall, off white colour
  - GL-3 Glass brick screen, off white colour
  - CC-1 Pre-fabricated concrete panels, with steel support
  - CC-2 Concrete column clad with cladding panel support trills
  - EL-1 Floor to floor glazing with anodised aluminium framing, perforated and exposed aluminium anodised finish
  - EL-2 Semi-transparent glass cladding
  - EL-3 Floor to floor glazing with anodised aluminium framing and no perforated aluminium cladding
  - EL-4 Glass floor to ceiling panels
  - EL-5 Glass wind break
  - EL-6 Glass entry gate
  - EL-7 Translucent glass panel with back wall construction
  - EL-8 Pre-coloured fibre cement panel
  - MP-1 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-2 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-3 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-4 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-5 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-6 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-7 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-8 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-9 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-10 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-11 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-12 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-13 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-14 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-15 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-16 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-17 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-18 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-19 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-20 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-21 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-22 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-23 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-24 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-25 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-26 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-27 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-28 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-29 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-30 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-31 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-32 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-33 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-34 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-35 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-36 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-37 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-38 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-39 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-40 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-41 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-42 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-43 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-44 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-45 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-46 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-47 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-48 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-49 Perforated stainless steel to floor glazing with aluminium framing, right of panel
  - MP-50 Perforated stainless steel to floor glazing with aluminium framing, right of panel
