The Balance Sheet reports Net Assets of \$7.6B, an increase of \$0.2B over the year.

The City's external auditor, PricewaterhouseCoopers, addressed the Corporate, Finance, Tenders and Properties Committee on 19 October 2015 and confirmed the City's strong and stable financial position, as previously reviewed and endorsed by the City's Audit, Risk and Compliance Committee.

## **BACKGROUND**

### **Annual Financial Reports**

1. The 2014/15 Annual Financial Statements and the auditor's reports were presented to Council on 26 October 2015.
2. The City's external auditor, PricewaterhouseCoopers, issued an unmodified opinion on the City's Annual Financial Statements for 2014/15.
3. Public notice, via advertisement in The Sydney Morning Herald on 12 November 2015, was given to advise that the Annual Financial Statements and auditor's reports would be presented to the public at the Council meeting of 14 December 2015 (Corporate, Finance, Properties and Tenders Committee meeting on Monday 7 December 2015).
4. A copy of the Annual Financial Statements and the auditors' reports are provided as Attachment A.
5. The Local Government Act 1993 states that any person may make submissions to the Council in respect to the Annual Financial Statements or auditor's reports. Submissions must be made in writing and submitted to Council within seven days after the date on which the reports are presented to the public. Council must ensure that any submissions are forwarded to the auditor.
6. The City's Audit, Risk and Compliance Committee reviewed the Annual Financial Statements at their meeting on 30 September 2015, and endorsed the audited statements as presented to Council on 26 October 2015.
7. The financial statements, in compliance with the Code, contain specific financial performance indicators. While the City is supportive of the objectives of most of the indicators, it has concerns about the methodologies adopted by the Code in determining these ratios. These inadequacies result in certain performance indicators being misleading in their presentation.
8. The City has, to present a more balanced view, provided alternative indicators that eliminate some or all of the inherent inadequacies where possible. The indicators as mandated by the Code have also been presented alongside the restated indicators.
9. The City has, over the last three years, made submissions to both the Office of Local Government and NSW Treasury, and more recently as part of its *Fit For The Future* submission, containing feedback on the inadequacies of the performance indicators. No changes have been secured to date, despite widespread criticism across the Local Government sector. The City is continuing to lobby for changes to the methodology for the indicators.
