

**ATTACHMENT B**

**PHOTOS OF THE UNAPPROVED  
ERSKINEVILLE COMMUNITY GARDEN**

Photo 1: Erskineville garden group starting November 2009

Photo 2: Erskineville garden in May 2013

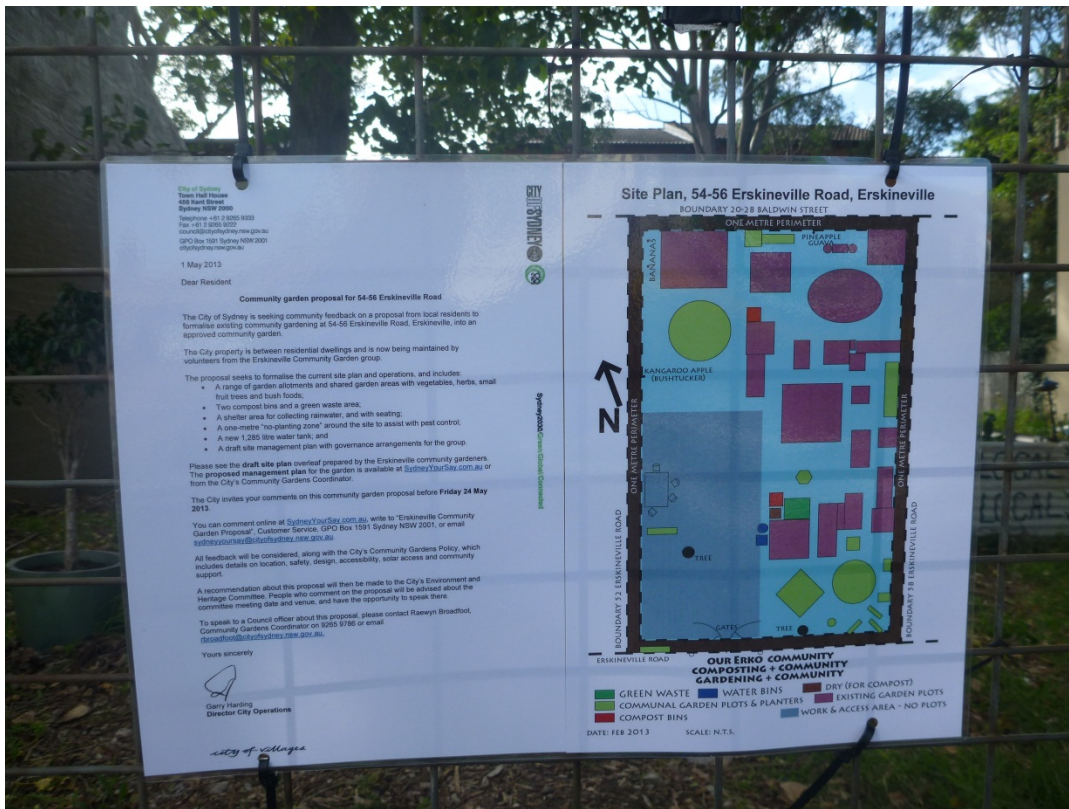

Photo 3: Displaying letter for Community Feedback and plan of the existing garden

Photo 4: The condition of the garden during the Community Consultation

Photo 5: The tested and removed Asbestos pot in February 2013

Photo 6: The group has placed tennis balls on bamboo stakes at eye level, July 2013

Photo 7: Garden beds are mainly used recycled timbers which can contain copper chromate arsenate May 2013

Photo 8: The 1m buffer zone for spraying of cockroaches has been completed in May 2012

Photo 9: The 1m buffer zone for spraying of cockroaches has not been maintained by group, since November 2012. Produce crops are growing within sprayed target area.

Photo 10: Site has not been maintained to reduce weeds since November 2012. This overgrowth can encourage cockroaches and vermin.

# ATTACHMENT B

## Safety and Risks onsite
