

## TRANSPORT MANAGEMENT CENTRE

### 2014 CBD Pre-Christmas Supplementary Transport Plans

#### Background

Similar to previous years, the Transport Management Centre (TMC) has developed an overall supplementary transport plan for the pre-Christmas period in the Sydney CBD. The plan ensures that public transport performs optimally in the CBD in the busier than normal weeks prior to 2014 Christmas.

Improved public transport performance will be achieved through implementation of the traffic measures specified below and will be supported by extra tow trucks, increased patrols by Transport for NSW Taxi Compliance Staff and NSW Police and its Mobile Response Team, monitoring of traffic signals and a communications campaign.

All Special Event Clearway (SEC), Bus Lane and Taxi Zone signage will be installed by the Roads & Maritime Services (RMS) service providers.

This report is provided for your information.
