DECISION

BACKGROUND

A business operator on Collins Street, Alexandria has requested consideration of period parking in front of his property to provide greater turnover of parking spaces and to create increased parking opportunities for short term visitors and business customers in the area.

COMMENTS

The kerb space on the northern side of Collins Street, Alexandria east of Bourke Road is currently unrestricted for parking.

On-site inspection shows there is a need to provide two hour period parking to increase parking turnover and availability for visitors and business customers to the area. City’s Neighbourhood Parking Policy recommends 2P parking in mixed use streets. Two hour parking controls are preferred because they allow reasonable access for short visits.

CONSULTATION

The City consulted local residents and businesses in the area. There were 76 letters sent out with two responses supporting the proposal and no responses opposing the proposal.

The responses supporting the proposal welcomed the opportunity for greater turnover of parking spaces in the area.

FINANCIAL

Funds are available in the current budget
