Background

At the meeting of the Transport, Heritage, Environment and Planning Committee on 17 October 2022, further information was sought on how the City North Public Domain Plan (the Plan) can rebalance the historical context/recognition of first contact. It was also requested that consideration be given to developing a layer or a clear principle/objective in the Plan that addresses this.

Prior to the Plan going on public exhibition additional information will be included as follows:

- An acknowledgement of Country in the introduction
- A section on Connecting with Country referencing the NSW Government Architects' draft principles and discussion papers.
- Further images and description of the City's Sustainable Sydney 2030- 2050 Continuing the Vision - vision for Circular Quay outlined in the Project Idea - 3 Linked Squares. This will also reference the Eora Journey - Yananurala project.

As future projects are developed, layers of the historical context will be further addressed.
