Item 33

Traffic Treatment - Continuous Footpath Treatment - Brennan, Loveridge Streets and Power Avenue, Alexandria

2019/486115

Recommendations

It is recommended that the Committee endorse the installation of continuous footpath treatments and footpath widening at the following locations in Alexandria:

- (A) Brennan and Loveridge Streets, just south of Power Avenue; and
- (B) Power Avenue, just west of Wyndham Street.

Advice

The Committee unanimously supported the recommendation.

Background

In April 2018, the City developed a Local Area Traffic Management (LATM) plan for Alexandria, Erskineville and St Peters to mitigate the flow of increased traffic from the WestConnex St Peters interchange. The LATM plan proposed a suite of treatment options including road closures and streetscape improvements to protect local amenity.

The City is now progressing on the approval of several of these treatments, including the introduction of continuous footpath treatments (CFT) across Brennan and Loveridge Streets, just south of Power Avenue, and Power Avenue, just west of Wyndham Street.
