

Advice of Local Pedestrian, Cycling and Traffic Calming Committee

11 July 2024

Item 30

Parking - Electric Vehicle (EV) Parking - Wyndham Street, Alexandria

2024/247645

Recommendation

It is recommended that the Committee endorse the reallocation of parking on the western side of Wyndham Street, Alexandria between the points 15.8 metres and 26.6 metres (two car spaces) north of Power Avenue as "4P 8am-8pm Electric Vehicles Only While Charging" and "No Parking Electric Vehicles Excepted While Charging All Other Times".

Advice

The Committee unanimously supported the recommendation.

Background

The City's Electrification of Transport in the City Strategy and Action Plan outlines key actions to support the transition towards achieving net zero emissions in transport, including advocacy and actions within the City's control.

Action 20 of the Strategy and Action Plan outlines that the City will work with private sector providers to operate paid on-street electric vehicle charging in residential areas with constrained private charging opportunities. This should be cost neutral to the City and avoid negative impacts on the public domain and residential amenity.

In collaboration with Ausgrid and EVX who are the charging point operator, the City is undertaking a limited trial of dedicated on-street parking for electric vehicle charging using Ausgrid infrastructure in Wyndham Street, Alexandria.

The proposed location has existing electrical infrastructure for the charger installation, and lighting for its safe use. It will support residents without access to off-street parking or off-street public electric vehicle charging facilities, and minimises impacts to residents, footpath access, loading and mobility parking.
