

Advice of Local Pedestrian, Cycling and Traffic Calming Committee

17 April 2025

Item 29

Bicycle Parking - Zetland Avenue, Zetland.

2025/203915

Recommendation

It is recommended that the committee endorse the reallocation of parking on the southern side of Zetland Avenue, Zetland between the points 55 metres and 60 metres east of Paul Street as "P Bicycles Only".

Advice

The Committee unanimously supported the recommendation

Background

The City supports the use of share bikes as part of a safe, sustainable and efficient urban transport system. They provide a useful opportunity for people to try riding in our area and to incorporate riding into their daily travel.

In 2024 there were over 1,940,000 share bike trips in the city, averaging over 160,000 trips per month – or 5,339 trips a day.

With the popularity of share bikes, we have also seen a significant rise in the number of share bikes deployed, drastically increasing from 328 in January 2022 to 4,500 in May 2024.

The City has no control over the number of operators in our area, or the number of bikes they deploy. Recently we have received requests that share bike parking be placed on the road, to limit their impact on footpath amenity.

At present, share bikes are often parked on the footpath and in other areas with high levels of walking activity, and sometimes highly contested public domain. To maintain sufficient footpath space for walking, it is preferable to park share bikes on the carriageway - by reallocating road space needs to free up space for the parking of share bikes (and other shared or private micro-mobility).

Reallocation of road space for the parking of shared micromobility vehicles has been widely adopted in leading cities around the world. Most notably in London, UK where they have found that locating share bike parking in the road has led to less issues in regard to parking compliance and obstructions. Having parking on the footpath leads to more conflict and increases cycling on the footpath.

Share bike users will be directed to park appropriately through targeted share bike operator education. Share bike operators will be monitoring their bikes within the City of Sydney area. If bikes are in a dangerous place, the operators will make arrangements to move them.

Operators provide clear contact details on each share bike so that members of the public or motorists can contact them to move the bicycles out of the traffic lane or when their vehicles are damaged.

Share bike operators have 3rd party insurance and in the instance that a share bike causes damage to a parked car, the operators insurance covers these costs (on a case-by-case basis).
