(b) and as amended by the conditions of this consent.

In the event of any inconsistency between the approved concept development plans and other supplementary documentation, the approved concept development plans will prevail.

(3) MATTERS NOT APPROVED IN CONCEPT DEVELOPMENT CONSENT

The following matters are not approved and do not form part of this concept development consent:

- (a) The use for any part of the building envelopes for residential accommodation. The buildings may only be used for residential accommodation and identified as such in a detailed design development application on demonstration that acoustic amenity and natural ventilation are achieved simultaneously in accordance with Objectives 4B-1 and 4J of the Apartment Design Guide (ADG). Should suitable design resolution not be achieved, the use of some of all of the buildings are to revert to non-residential use or non-permanent use in a future detailed design development application.
- (c) The pedestrian connection to the Wentworth Park Light Rail Station (and any associated tree removal). In principle approval is required from Sydney Trains for any future pedestrian connection to the Wentworth Park Light Rail Station (and any associated tree removal) prior to the commencement of the competitive design process.
- ~~(d) The location and design of the pedestrian access zone as illustrated on the concept plan drawings DA2-1006 Rev 9, DA2-1007 Rev 8, DA2-1012 Rev 10 and DA2-8000 Rev 8 on the Jones Street frontage of the site.~~

Reasons for Decision

The modification application is approved by the independent external planning consultant for the following reasons:

- (A) The development as modified is substantially the same as the development originally approved and is consistent with the requirements of section 4.56(1)(a) of the EPA Act.
- (B) The development has been considered against the reasons given by the Land and Environment Court for the grant of the consent that is to be modified, and the proposal is consistent and acceptable, as per section 4.56(1A) of the EPA Act.
- (C) The proposed modifications ensure that the detailed design development application will be consistent with the concept consent to satisfy section 4.24 of the EPA Act.
- (D) Subject to conditions, the increased height and bulk of the building envelopes generally reflects the architectural design competition winning scheme and will not adversely impact the amenity of the surrounding area. These modifications are reasonable and justified with regard to the detailed design development application.
- (E) The proposed building envelopes are capable of accommodating a future building design which is capable of exhibiting design excellence in accordance with clause 6.21D of the Sydney LEP 2012.

Carried unanimously.
