In relation to applications on the Panel agenda, Mr Carter disclosed a less than significant, non-pecuniary interest regarding Item 4 – Development Application: 34 Charles Street, Forest Lodge, as his wife went to school with the applicant, Mr McKeown. He has never personally had a social get together with Mr McKeown without the company of many others.

No other members have disclosed any pecuniary or non-pecuniary interests in any matter on the agenda for this meeting of the Local Planning Panel.

In accordance with section 4.9 of the Code of Conduct for Local Planning Panels, all panel members have signed a declaration of interest in relation to each matter on the agenda.

- (B) pursuant to Section 4.16(3) of the Environmental Planning and Assessment Act 1979, grant deferred commencement consent to Development Application No. D/2018/340, subject to the conditions set out in [Attachment A](#) to the subject report, subject to the following amendments (additions shown in ***bold italics*** and deleted text shown in ~~strikethrough~~) which allows Room 6 to be used as single occupancy room, moves Condition 3 from Part A (Deferred Commencement Condition) to Part B (Conditions of Consent) and recalculate the Section 7.11 contributions payable to reflect the use of Room 6 as a single occupancy room, and to require payment of the Section 7.11 contribution prior to the issue of any occupation certificate or two years from the date of the development consent becoming operational, whichever occurs first. D/2018/340

Reasons for Decision

The application was approved for the following reasons:

- (A) The proposed development is consistent with the objectives of the B4 Mixed Use zone.
- (B) The proposed development is consistent with the relevant objectives and controls outlined in State Environmental Planning Policy (Affordable Rental Housing) 2009, Sydney Local Environmental Plan 2012 and Sydney Development Control Plan 2012.
- (C) The exception to Clause 30(1)(h) regarding the minimum motorbike parking standard in State Environmental Planning Policy (Affordable Rental Housing) 2009 is approved as the Panel is satisfied that the matters required to be demonstrated by Clause 4.6 of the Plan have been adequately addressed, and the request to vary the standard would be in the public interest as it is consistent with the objectives of that particular standard with regard to the site's proximity to public transport, services, employment, education, and leisure facilities.
- (D) The proposed development provides affordable housing on the site without adversely impacting the character of the Bourke Street North Conservation Area (C59).
- (E) The use of Room 6 as a single occupancy room will not result in unacceptable amenity impacts to future occupants as the room has access to natural ventilation and solar access, access to the courtyard and amenities, and the panel were of the opinion that the deletion of this room was unreasonable.
- (F) The Panel also required deferred commencement conditions to be satisfied within 6 months rather than 24 months as the conditions require important fire safety assessment to be completed and the building is currently being used as a boarding house.
- (G) The Panel also allowed Section 7.11 contributions to remain payable within 24 months rather than 6 months to ensure there is no impediment to any necessary fire upgrade works being completed.

D/2018/0734

Reasons for Decision

The application was approved for the following reasons:

- (A) The proposal is consistent with the development standard and zone objectives of the Sydney Local Environmental Plan 2012 in that it presents a compliant building height, bulk and scale of development; and
- (B) The proposal is acceptable with respect to the objectives and controls contained within the Sydney Development Control Plan 2012 in that it presents a development that does not detract from the contributory nature of the original building within the heritage conservation area and the rear addition does not present unreasonable residential amenity impacts on surrounding land uses.
- (C) The amendments made by the Panel to conditions of consent are to improve the quality of the development, ensure that stormwater is appropriately dealt with and to ensure there is no ambiguity regarding the status of the project designer.
