**Letter of Invitation to the Lord Mayor
Women4Climate Conference**

Tuesday 20th November 2018

Invitation to speak at the 3rd Annual Women4Climate Conference

Dear Lord Mayor Moore,

As Mayor of Paris and Chair of C40 Cities, it is my great pleasure to invite you to speak at the 2019 Women4Climate Conference, to be held at Paris City Hall on Thursday, 21st February.

By creating the Women4Climate Initiative, my objective was to support and empower future women leaders taking action to protect the climate. This initiative offers a never-before seen mentorship platform where young women and successful climate heroines from our C40 cities can develop and implement actions inspired by the “think local, act global” philosophy. Likewise, it highlights the key role of women in creating a healthier, greener and more economically prosperous future.

The 2019 Women4Climate Conference will bring together women mayors, members of the Mentorship Programme, business leaders, changemakers and future climate leaders from around the world. For the first time, the conference will also feature the innovators from the Women4Climate Tech Challenge. A global competition designed to spark innovation and accelerate climate solutions from women in the tech community to a wide range of urban sustainability issues, such as mobility, food, waste, water, buildings, urban farming and air quality. C40 Mayors attending the event will be invited to select the winners of the Women4Climate Tech Challenge based on a direct, live pitch opportunity offered to the finalist of the challenge.

I would be honored if you could join your voice to mine and consider speaking at our inspiring event. Together we will send an empowering message to young women around the world, inviting them to make our cities – and our planet – healthier, safer and more inclusive.

Looking forward to hearing from you,

Yours sincerely,
