33. The Panel Chair may suggest that, if a satisfactory resolution to the matter on the agenda is being considered, there may be no need for members of the public to address the Panel.
34. Speakers are requested to give their full name and suburb in which they reside and declare membership of organisations or other interests relevant to consideration of the item that they wish to speak to.
35. If there are a large number of people interested in the same item, the Chair may request that three representatives be nominated to speak on behalf of a group and to indicate how many people they are representing.

Order at Meetings

Appendix A

Conflicts of interest - guideline for dealing with conflict of interest declarations relating to relationships with other professional service providers

This guideline is intended to provide guidance about how the Chair(s) of the City of Sydney Local Planning Panel deal with conflict of interest declarations involving a declaration by a member of a relationship with a planning consultancy, architectural practice or other professional service provider involved in the preparation of a development application coming before the Panel.

While the guideline provides broad guidance to ensure consistency in the consideration of declarations, each matter will be considered on merit and the view of the presiding Chair will be final.

1. If a member or a member's practice has had any involvement in preparation of or input to a development application coming before the panel, including providing advice to another professional service provider, there is a clear conflict of interest and the member will be ineligible to consider or determine the matter.
2. If a member or a member's practice directly engages, has a business relationship with or is a member of a joint consultancy team with a professional service provider on a frequent or regular basis, there is highly likely to be a conflict of interest sufficient to require the member to stand down from determination of the relevant matter.
3. If a member or member's practice declare an association with a professional service provider that relates to a former relationship some time in the past, this may not be a conflict sufficient to require the member to stand down from determination of the relevant matter. The recency and extent of any such past relationship will be considered in this regard.
4. If a member or a member's practice declare an association that relates to occasional, sporadic or one-off instances of being on a joint consultancy team, there may not be a conflict sufficient to require the member to stand down from determination of the relevant matter. The detailed nature of the association will be considered in this regard.
