

Attachment A

Recommended Conditions of Consent
--

CONDITIONS OF CONSENT

SCHEDULE 1A

APPROVED DEVELOPMENT/DESIGN MODIFICATIONS/COVENANTS AND CONTRIBUTIONS/USE AND OPERATION

Note: Some conditions in Schedule 1A are to be satisfied prior to issue of a Construction Certificate and some are to be satisfied prior to issue of Occupation Certificate, where indicated.

(1) APPROVED DEVELOPMENT

- (a) Development must be in accordance with Development Application No. D/2020/614 dated 10 July 2020 and the following drawings prepared by Steel + Stitch:

Drawing Number	Drawing Name	Date
PLN002 Issue C	Front Elevation and Rear Elevation	25 September 2020
PLN003 Issue C	Existing Floor Plan Showing Proposed Demolition	25 September 2020
PLN004 Issue C	Proposed Floor Plan Showing Proposed Works	25 September 2020
PLN005 Issue C	Proposed Section One Showing Proposed Works	25 September 2020
PLN006 Issue C	Proposed Section Two Showing Proposed Works	25 September 2020
PLN007 Issue C	DDA WC Detail 1:50 Ambulant WC Detail 1:50	25 September 2020

and as amended by the conditions of this consent.

- (b) In the event of any inconsistency between the approved plans and supplementary documentation, the plans will prevail.

(2) DESIGN AMENDMENTS - HERITAGE

- (a) The internal brick wall and sandstone wall are original heritage fabric. The brick wall and sandstone wall must not be rendered, coated or painted.
- (b) The raised floor area, including the performance stage, must be not be constructed from poured concrete. The raised floor area and performance stage must be constructed from a timber or metal frame so that its installation is reversible.
- (c) Timber floors must be retained.

(3) GENERAL HERITAGE

- (a) The proposed works are to be carried out in a manner that minimises demolition, alterations and new penetrations/fixings to the significant fabric of the existing building which is listed as a Heritage Item.

- (b) The fabric and features to be retained by the proposal must be properly protected during the process of demolition and construction.

(4) ENTRANCE/EXIT

All patrons must enter/exit the premises via Bridge Street, unless in the case of an emergency. Staff may enter/exit the premises via Bridge Street or via the rear access point from Dalley Street.

(5) HOURS OF OPERATION

The hours of operation are restricted to between 12.00pm midday and 2.00am (following day) Mondays to Sundays inclusive.

(6) MAXIMUM CAPACITY OF PERSONS

- (a) The maximum number of patrons permitted in the premises at any one time is 120 persons.
- (b) The maximum number of staff (including performers) permitted in the premises at any one time is 30 persons.
- (b) The capacity for each area shall not exceed the maximum numbers at any given time.
- (c) The manager/licensee is responsible for ensuring the number of persons in the premises does not exceed that specified above.
- (d) A sign in letters not less than 25mm in height must be fixed on the internal entrance door to the premises alongside the Licensee's name stating the maximum number of persons, as specified in the development consent, that are permitted in the building. Details are to be provided to the satisfaction of the Accredited Certifier prior to issue of a Construction Certificate and the Principal Certifier is to confirm compliance prior to the issue of an Occupation Certificate.

Note: Clause 98D of the *Environmental Planning and Assessment Regulation 2000* requires a sign specifying maximum number of persons permitted in the building to be displayed in a prominent position for the following types of premises:

- (i) entertainment venue;
- (ii) function centre;
- (iii) pub;
- (iv) registered club; and
- (v) restaurant.

(7) PLAN OF MANAGEMENT

The use must always be operated / managed in accordance with the Plan of Management, prepared and signed by Lachlan Peach, received by the City on 28th September 2020, that has been approved by Council. In the event of any inconsistency, the conditions of this consent will prevail over the Plan of Management.

(8) COPIES OF CONSENTS AND MANAGEMENT PLANS

A full and current copy of all current development consents for the operation of the licensed premises, and the Plan of Management must be kept on-site and made available to Police or Council Officers, or Special Investigator upon request.

(9) SECURITY AND QUEUING – CATEGORY B LICENSED PREMISES

Security is to be provided at any time and in any manner specified in the Plan of Management prepared and signed by Lachlan Peach that has been approved by Council.

The manager/licensee shall ensure that a clear footway width is maintained at all times along all footpaths immediately adjoining the premises. Patrons waiting to enter the premises shall queue along the immediate frontage of the premises. The queue must not obstruct any fire exit of any building or entrance to any other premises.

No persons are to be permitted to drink outside the premises at any time. Security officers are to take all reasonable steps to ensure compliance with this condition.

(10) INCIDENTS – RECORDING AND NOTIFICATION

The manager/licensee must ensure that all incidents involving staff members (including security personnel) are recorded in the incident register maintained on site, including incidents involving physical contact between staff and patrons, physical restraint of patrons and/or the ejection of patrons from the premises.

(11) SURVEILLANCE CAMERAS

- (a) CCTV surveillance cameras shall be strategically installed, operated and maintained throughout the premises with particular coverage to:
 - (i) principal entrance/s and exits;
 - (ii) all areas within the premise occupied by the public (excluding toilets);
 - (iii) staircases in multilevel premises; and
 - (iv) the area within a 10m radius external to the public entrance(s) to the premise.

- (b) Suitable and clearly visible signage shall be displayed at the principal entrance(s) to the premise and in a prominent position on each floor accessible to the public, in lettering not less than 50mm in height with the words "Closed Circuit Television in use on these premises".
- (c) All CCTV recording equipment and cameras shall be of high-grade digital quality capable of establishing the population and identification of patrons, offenders and incidents within the depth of field view of the cameras. In this respect each surveillance camera shall be capable of recording a minimum rate of 10 frames per second and at high resolution.
- (d) CCTV recording discs or hard drive recordings shall be retained for 28 days before being re-used, destroyed or deleted. Time and date shall be auto recorded on the disc or hard drive. The CCTV recording equipment shall be capable of reproducing a CD, DVD, USB or other appropriate digital copy of recorded footage on demand of Council or Police Officers either immediately or within 12 hours of the request being made. Copy discs must be handed to Council, Police Officer or Special Inspectors as required.
- (e) All CCTV recording devices and cameras shall be checked daily to ensure the equipment is operating correctly. The Licensee shall record this daily checking activity in the security/incident register book that meets the standards required by the Licensing Police and Council. If it is discovered at any time that the equipment is not in full operating order all reasonable steps must be taken to repair the system as soon as practicable. Where the system will not be functioning in full operating order for a period of longer than 24 hours the manager/licensee is to notify the relevant Local Area Commander of the NSW Police.
- (f) All CCTV recording devices and cameras shall be operated at all times when the premises are open to the public and, where premises do not operate 24 hours a day, continuously for at least 1 hour prior to opening and closing times of the premises.
- (g) The CCTV recording device shall be secured within the premises and only be accessible to senior management personnel so as to maintain the integrity of the recorded footage. When the premises is operating there must be at least one staff member present at the premises who is authorised to access the CCTV system and able to immediately review recordings and produce copies.
- (h) Camera views are not to be obstructed by temporary or permanent structures, signage or other impediments.

(12) NO SPEAKERS OR MUSIC OUTSIDE

Speakers and/or noise amplification equipment must not be installed and music must not be played in any of the outdoor areas associated with the premises including the public domain. Speakers located within the premises must not be placed so as to direct the playing of music towards the outdoor areas associated with the premises.

(13) NO SPRUICKING NOISE

No persons (such as those commonly known as spruikers) or recordings or other devices which have the effect of spruicking are to be located on Council owned property. Furthermore, the sound level of any spruicking generated within privately owned land must not be audible on any adjacent property with a shared boundary.

(14) NOISE FROM GLASS REMOVAL

Glass must not be emptied or transferred from one receptacle to another anywhere in a public place. All glass must be emptied / transferred inside of the building on the premises and removed in containers.

(15) GLASS CRUSHER

All glass bottles and other glass waste must be reduced to glass shards (by way of a glass crusher located inside the premises) prior to the removal of such waste from the premises.

(16) REMOVAL OF GLASS

Patrons must be prevented from removing glasses, opened cans, bottles or alcohol from the premises (except from any approved bottle shop area) or approved outdoor dining area included in the boundaries of the licensed premises.

(17) NEIGHBOURHOOD AMENITY

- (a) Signs must be placed in clearly visible positions within the licensed premises requesting patrons upon leaving the premises to do so quickly and quietly, having regard to maintaining the amenity of the area. The signage shall be in bold letters not less than 25mm in height on a contrasting background.
- (b) The management/licensee must ensure that the behaviour of patrons entering and leaving the premises does not detrimentally affect the amenity of the neighbourhood.

SCHEDULE 1B

PRIOR TO CONSTRUCTION CERTIFICATE/COMMENCEMENT OF WORK/HEALTH AND BUILDING

(18) NO APPROVAL FOR SEX SERVICES

Sex services as defined in the *Sydney Development Control Plan 2012 4.4.6* are not to be provided on the premises.

(19) ADULT ENTERTAINMENT CLEANING

All performance areas must be cleaned on a daily basis and should also be assessed for cleaning after every performance with spot cleaning occurring as necessary and as frequently as possible.

(20) ADULT ENTERTAINMENT CONSTRUCTION

All performance areas of the premises must be constructed of durable, non-slip, impervious materials that are easy to keep clean.

(21) ADULT ENTERTAINMENT STAFF FACILITIES

Dressing room facilities, in an area not accessible by clients, must be provided within the premises adjacent to and accessible from performance areas and with adequate preparation facilities including dressing tables and mirrors.

(22) ACCESS AND FACILITIES FOR PERSONS WITH DISABILITIES

The internal alterations to the subject tenancy must be designed and constructed to provide access and facilities for people with a disability in accordance with the *Building Code of Australia*.

If, in complying with this condition, amendments to the development are required, the design changes must be submitted to and approved by Council prior to a Construction Certificate being issued.

(23) COMPLIANCE WITH BUILDING CODE OF AUSTRALIA

All proposed work must comply with the *Building Code of Australia* (BCA).

(24) CONSTRUCTION AND FITOUT OF FOOD PREMISES

The construction, fitout and finishes of the food premises must comply with Standard 3.2.3 of the Australian and New Zealand Food Standards Code under the *Food Act 2003* and AS 4674 – 2004 Design, Construction and Fitout of Food Premises.

Note: Copies of AS 4674-2004 may be obtained from the Standards Australia Customer Service on telephone 1300 65 46 46 or by visiting the website www.standards.com.au.

Copies of the Food Standards Code (Australia) may be obtained by contacting the Food Standards Australia and New Zealand Authority on telephone (02) 6271 2222, email info@foodstandards.gov.au or by visiting the website www.foodstandards.gov.au.

(25) COOLROOMS

Coolrooms, refrigerated chambers and strong-rooms must be constructed in accordance with G 1.2 of the *Building Code of Australia*, and:

- (a) The floor of the coolroom must be graded to the door and a floor trapped waste outlet must be located outside the coolroom as near as possible to the door opening.
- (b) All proposed shelving in the coolroom must be free-standing, constructed of galvanised steel angle section or other approved material with the lowest shelf at least 150mm clear of the floor.
- (c) The floor of the coolroom must be constructed of impermeable concrete or coated, topped or otherwise finished with an impervious material to a smooth even surface and coved at the intersections with the walls to a minimum radius of 25mm.
- (d) The coolroom must be fitted with a door that can be opened at all times from inside without a key.
- (e) An approved audible alarm device must be located outside the coolroom(s) but controllable only from within the coolroom(s) and must be able to achieve a sound pressure level outside the chamber or coolroom(s) of 90 dB(A) when measured 3 metres from a sounding device.

(26) HOT WATER SERVICE

The capacity of the hot water service must ensure that a constant supply of hot water is provided to the premises at all times for all sinks and basins including hand wash basin/s. The temperature of the hot water provided to the sinks must be in accordance with *AS4674 – Design, Construction and Fit-out of Food Premises* and the *Australia New Zealand Food Standards Code 3.2.2 - Food Safety Practices* and general requirements.

(27) NOTIFICATION OF CONDUCT OF FOOD BUSINESS

- (a) The use shall not commence until the food business has notified Council with their food business details in accordance with the *Food Act 2003* and *The Australia New Zealand Food Standards Code – 3.2.2 – Food Safety Practices and General Requirements, Clause 4*.
- (b) An Occupation Certificate must not be issued until such notification has been received by Council in accordance with Clause (a) of this condition.

Note: Registration forms are available on Council's website www.cityofsydney.nsw.gov.au.

(28) PERSONAL LOCKERS

Clothing lockers or change rooms for male and female staff must be provided in the premises or a dedicated, separate and isolated space for personal items must be provided in a separate location to the food handling and storage areas, in accordance with *AS4674 - Design, Construction and Fit out of Food Premises*.

(29) SANITARY FACILITIES – FOOD PREMISES

The sanitary facilities must be separated from all food handling areas via an airlock, self-closing door or mechanical ventilation in accordance with the provisions of the *Building Code of Australia*, Part F 3.1, 4.8 and 4.9.

(30) TOILETS FOR FOOD HANDLERS

- (a) Adequate toilet facilities must be available for food handlers working for the food business. Toilets and associated facilities must be provided in accordance with *AS4674 – Design, Construction and Fit-out of Food Premises* and the *Australia New Zealand Food Standards Code, 3.2.3 - Food Premises and Equipment*.
- (b) Details of the location of toilets which are provided exclusively for the use of food handlers and staff working at the business must be submitted for the approval of the Accredited Certifier prior to the issue of a Construction Certificate.
- (c) The toilet(s) must be provided with a hand wash basin, with hot and cold running water mixed through a common spout, hand wash soap, hygienic hand drying facilities and hands-free taps.

(31) WASTE AND RECYCLING MANAGEMENT - MINOR

The proposal must comply with the relevant provisions of Council's *Guidelines for Waste Management in New Developments 2018* which requires facilities to minimise and manage waste and recycling generated by the proposal.

(32) WASTE STORAGE AREA

- (a) To ensure the adequate storage and collection of waste from the food premises, all garbage and recyclable materials emanating from the premises must be stored in a designated waste storage area. The waste storage area must be designed and constructed in accordance with *AS 4674 – Design, Construction and Fit-out of Food Premises, Australia New Zealand Food Standards Code 3.2.3 – Food Premises and Equipment* and comply with the *Council Policy for Waste Minimisation in New Developments*, and must be:
 - (i) Provided with a hose tap connected to the water supply.
 - (ii) Paved with impervious floor materials.
 - (iii) Coved at the intersection of the floor and walls.

- (iv) Graded and drained to a waste disposal system in accordance with the requirements of the relevant regulatory authority (Sydney Water).
 - (v) Adequately ventilated (mechanically or naturally) so that odour emissions do not cause offensive odour or air pollution as defined by the *Protection of the Environment Operations Act 1997* or a nuisance.
 - (vi) Fitted with appropriate interventions to meet fire safety standards in accordance with the *Building Code of Australia*.
 - (vii) Provided with the appropriate number and size of bins adequate for the storage of waste generated by the business, including recycling.
 - (viii) Appropriately managed so that it does not attract pests or create litter.
- (b) Detailed plans and specifications for the construction of the waste storage area must be submitted to and approved by the Accredited Certifier prior to the issue of the Construction Certificate and must be constructed in accordance with such plans and specifications prior to the issuance of any Occupation Certificate.

(33) NO MECHANICAL VENTILATION – APPROVED EQUIPMENT LIST

Prior to the issue of an Occupation Certificate, the food business must submit to and seek written approval of Council's Health and Building Unit, a list detailing each item of cooking and food heating equipment to be used within the premises together with the corresponding units of energy for each piece of equipment in accordance with *AS1668.2 - The Use of Ventilation and Air-conditioning in Buildings – Mechanical Ventilation in Buildings* (To be known as the Approved List). The following must also be complied with:

- (a) The Approved List must be kept on the premises and be made available to any authorised officer of Council upon request.
- (b) The use of any cooking or heating appliance not present on the Approved List is prohibited.
- (c) Amendments to the Approved List can be made subject to a written request to and approval from Council's Health and Building Unit.

(34) NOISE - ENTERTAINMENT

- (a) The $L_{A10, 15 \text{ minute}}$ noise level emitted from the use must not exceed the background noise level ($L_{A90, 15 \text{ minute}}$) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) by more than 5dB between the hours of 7.00am and 12.00 midnight when assessed at the boundary of any affected residence.
- (b) The $L_{A10, 15 \text{ minute}}$ noise level emitted from the use must not exceed the background noise level ($L_{A90, 15 \text{ minute}}$) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) between the hours of 12.00

midnight and 7.00am when assessed at the boundary of any affected residence.

- (c) Notwithstanding compliance with (a) and (b) above, noise from the use when assessed as an $L_{A10, 15 \text{ minute}}$ enters any residential use through an internal to internal transmission path is not to exceed the existing internal $L_{A90, 15 \text{ minute}}$ (from external sources excluding the use) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) when assessed within a habitable room at any affected residential use between the hours of 7am and 12midnight. Where the $L_{A10, 15 \text{ minute}}$ noise level is below the threshold of hearing, T_f at any Octave Band Centre Frequency as defined in Table 1 of International Standard ISO 226 : 2003- Normal Equal-Loudness-Level Contours then the value of T_f corresponding to that Octave Band Centre Frequency shall be used instead.
- (d) Notwithstanding compliance with (a), (b) and (c) above, the noise from the use must not be audible within any habitable room in any residential use between the hours of 12.00 midnight and 7.00am.
- (e) The $L_{A10, 15 \text{ minute}}$ noise level emitted from the use must not exceed the background noise level ($L_{A90, 15 \text{ minute}}$) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) by more than 3dB when assessed indoors at any affected commercial premises.

Note: The $L_{A10, 15 \text{ minute}}$ noise level emitted from the use is as per the definition in the Australian Standard AS1055-1997 Acoustics – Description and measurement of environmental noise. The background noise level $L_{A90, 15 \text{ minute}}$ is to be determined in the absence of noise emitted by the use and be representative of the noise sensitive receiver. Background noise monitoring must be carried out in accordance with the long-term methodology in Fact Sheet B of the NPfI unless otherwise agreed by the City's Area Planning Manager.

(35) COMPLIANCE WITH THE ACOUSTIC REPORT PRIOR TO CONSTRUCTION AND OR OCCUPATION CERTIFICATES

- (a) All relevant performance parameters (including but not limited to requirements, engineering assumptions and recommendations) in the DA Acoustic Report prepared by Acoustic Logic ref 20200550.1/0107A/R0/TH addressed to Complete Trade Pty Ltd, 6 Bridge Street, Sydney - Council Ref 2020/301614 must be implemented in the development prior to the commencement of its use.
- (b) Prior to the issue of any relevant Construction Certificate, the final construction drawings and final construction methodology must be submitted to Councils Area Planning Manager for approval, assessed and reported to be in accordance with the requirements of the DA Acoustic Report in (a) above, with reference to relevant documentation. This must be carried out by a Suitably Qualified Acoustic Consultant* (see definition below).
- (c) Prior to the issue of any Occupation Certificate, a Suitably Qualified Acoustic Consultant* is to provide a written Acoustic Verification Report to the satisfaction of the Principal Certifier that the development complies with the requirements set out in the Report and in (a) and (b) above.

Note: *Suitably Qualified Acoustic Consultant* means a consultant who possesses the qualifications to render them eligible for membership of the Australian Acoustics Society, Institution of Engineers Australia or the Association of Australian Acoustic Consultants at the grade of member.

- (d) All physical aspects of the building's structure installed in order to meet performance parameters in accordance with this condition must be maintained at all times.

(36) NOISE – COMMERCIAL PLANT / INDUSTRIAL DEVELOPMENT

- (a) Noise from commercial plant and industrial development must not exceed a project amenity/intrusiveness noise level or maximum noise level in accordance with relevant requirements of the NSW EPA [*Noise Policy for Industry 2017 \(NPfI\)*](#) unless agreed to by the City's Area Planning Manager. Further:
 - (i) Background noise monitoring must be carried out in accordance with the long-term methodology in [*Fact Sheet B*](#) of the NPfI unless otherwise agreed by the City's Area Planning Manager.
 - (ii) Commercial plant is limited to heating, ventilation, air conditioning, refrigeration and energy generation equipment.
- (b) An $L_{Aeq,15 \text{ minute}}$ (noise level) emitted from the development must not exceed the $L_{A90, 15 \text{ minute}}$ (background noise level) by more than 3dB when assessed inside any habitable room of any affected residence or noise sensitive commercial premises at any time. Further:
 - (i) The noise level and the background noise level shall both be measured with all external doors and windows of the affected residence closed.
 - (ii) Background noise measurements must not include noise from the development but may include noise from necessary ventilation at the affected premise.
- (c) Corrections in [*Fact Sheet C*](#) of the NPfI are applicable to relevant noise from the development measured in accordance with this condition, however duration corrections are excluded from commercial noise.

SCHEDULE 1C

DURING CONSTRUCTION/PRIOR TO OCCUPATION/COMPLETION

(37) OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

(38) HOURS OF WORK AND NOISE – CBD

The hours of construction and work on the development must be as follows:

- (a) All work, including demolition, excavation and building work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.00am and 7.00pm on Mondays to Fridays, inclusive, and 7.00am and 5.00pm on Saturdays, and no work must be carried out on Sundays or public holidays.
- (b) All work, including demolition, excavation and building work must comply with the *City of Sydney Code of Practice for Construction Hours/Noise 1992* and Australian Standard 2436-2010 *Guide to Noise Control on Construction, Maintenance and Demolition Sites*.
- (c) Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on-site tower cranes which warrant the on-street use of mobile cranes outside of above hours can occur, subject to a permit being issued by Council under Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Unit, prior to works proceeding.

The *City of Sydney Code of Practice for Construction Hours/Noise 1992* allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the *Environmental Planning and Assessment Act 1979*.

(39) LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

- (a) All loading and unloading associated with construction activity must be accommodated on site, where possible.
- (b) If it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

- (c) A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the particular need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.
- (d) Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate approval under Section 68 of the Local Government Act 1993 and Section 138 of the Roads Act 1993 must be obtained.

(40) NO OBSTRUCTION OF PUBLIC WAY

The public way must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by Council to stop all work on site.

SCHEDULE 2

PRESCRIBED CONDITIONS

The prescribed conditions in accordance with Division 8A of the *Environmental Planning and Assessment Regulation 2000* apply:

- Clause 98 Compliance with *Building Code of Australia* and insurance requirements under the *Home Building Act 1989*
- Clause 98A Erection of signs
- Clause 98B Notification of *Home Building Act 1989* requirements
- Clause 98C Conditions relating to entertainment venues
- Clause 98D Conditions relating to maximum capacity signage
- Clause 98E Conditions relating to shoring and adequacy of adjoining property

Refer to the NSW State legislation for full text of the clauses under Division 8A of the *Environmental Planning and Assessment Regulation 2000*. This can be accessed at: <http://www.legislation.nsw.gov.au>

SCHEDULE 3

TRANSPORT FOR NSW CONDITION

The Condition as advised by Transport for New South Wales (TfNSW) is as follows:

(41) CONSTRUCTION PEDESTRIAN AND TRAFFIC MANAGEMENT PLAN

The applicant shall prepare a Construction Pedestrian and Traffic Management Plan (CPTMP) in consultation with the Sydney Coordination Office within TfNSW. The CPTMP needs to specify, but not be limited to, the following:

- a description of the development;
- location of any proposed work zone(s), noting Bridge Street is restricted and Dalley Street is not suitable;
- details of crane arrangements including location of any crane(s);
- haulage routes;
- proposed construction hours;
- predicted number of construction vehicle movements and detail of vehicle types, noting that vehicle movements are to be minimised during peak periods;
- details of specific measures to ensure the arrival of construction vehicles to the site do not cause additional queuing on George Street;
- details of the monitoring regime for maintaining the simultaneous operation of buses and construction vehicles on roads surrounding the site;
- pedestrian and traffic management measures;
- construction program and construction methodology;
- a detailed plan of any proposed hoarding and/or scaffolding;
- measures to avoid construction worker vehicle movements within the CBD;
- consultation strategy for liaison with surrounding stakeholders, including other developments under construction;
- any potential impacts to general traffic, cyclists, pedestrians and light rail and bus services within the vicinity of the site from construction vehicles during the construction of the proposed works;
- cumulative construction impacts of the development, Sydney Metro City and Southwest and other development. Existing CPTMPs for developments within or around the development site should be referenced in the CPTMP to ensure that coordination of work activities are managed to minimise impacts on the CBD road network; and
- proposed mitigation measures. Should any impacts be identified, the duration of the impacts and measures proposed to mitigate any associated general traffic, public transport, pedestrian and cyclist impacts should be clearly identified and included in the CPTMP.

The applicant shall submit a copy of the final plan to the Coordinator General, Transport Coordination for endorsement, prior to any construction certificate or any preparatory, demolition or excavation works, whichever is the earlier.

The applicant shall provide the builder's direct contact number to small businesses adjoining or impacted by the construction work and the Transport Management Centre and Sydney Coordination Office within TfNSW to resolve issues relating to traffic, freight, servicing and pedestrian access during construction in real time. The applicant is responsible for ensuring the builder's direct contact number is current during any stage of construction.
