<b>Recommended Conditions of Consent</b>
--

## CONDITIONS OF CONSENT

### SCHEDULE 1A

#### APPROVED DEVELOPMENT/DESIGN MODIFICATIONS/COVENANTS AND CONTRIBUTIONS/USE AND OPERATION

**Note:** Some conditions in Schedule 1A are to be satisfied prior to issue of a Construction Certificate and some are to be satisfied prior to issue of Occupation Certificate, where indicated.

#### (1) APPROVED DEVELOPMENT

- (a) Development must be in accordance with Development Application No. D/2020/959 dated 14 October 2020 and the following drawings prepared by Architectus:

Drawing Number	Drawing Name	Date
DA-1002 Issue 8	Margaret Street Tenancy Plan	10.09.2020
DA-1003 Issue 6	Margaret Street Retail Sections	10.09.2020
DA-1004 Issue 9	Pavilion – Level 9 Plan	16.12.2020
DA-1005 Issue 9	Pavilion – Level 10 Plan	16.12.2020
DA-1006 Issue 3	Pavilion – Roof Plan	16.12.2020
DA-1007 Issue 9	Pavilion – Sections	16.12.2020
DA-1008 Issue 7	Shell House Facades	16.12.2020
DA-1009 Issue 7	3D Images – Street Level	16.12.2020
DA-1020 Issue 3	Pavilion - Pergola Details	16.12.2020

and as amended by the conditions of this consent.

- (b) In the event of any inconsistency between the approved plans and supplementary documentation, the plans will prevail.

#### (2) STAGED OCCUPATION

The occupation of the development may be carried out in stages, with the relevant conditions being satisfied prior to the issue of an Occupation Certificate where specified in the conditions of consent for each stage as detailed below:

<b>(3)</b> <u>Stage</u>	<b>(4)</b> <u>Occupation Certificate Area</u>
<b>(5)</b> Stage 1	<b>(6)</b> Ground Floor
<b>(7)</b> Stage 2	<b>(8)</b> Levels 09 and 10

**(9) INDOOR HOURS OF OPERATION - SENSITIVE USES**

The indoor hours of operation are regulated as follows:

- (a) The indoor hours of operation must be restricted to between 6.00am and 12.00am midnight Monday to Sunday.
- (b) Notwithstanding (a) above, the use may operate (indoors) between 6.00am and 2.00am the following day for a trial period of 12 months from the date of issue of the first Occupation Certificate. Council's Health and Building Unit is to be informed in writing of the date of commencement of the trial hours. Email notification is to be sent to [liquor@cityofsydney.nsw.gov.au](mailto:liquor@cityofsydney.nsw.gov.au)
- (c) A further application may be lodged to continue the operating hours outlined in (b) above not less than 30 days before the end of the trial period. Council's consideration of a proposed continuation and/or extension of the hours permitted by the trial will be based on, among other things, the performance of the operator in relation to the compliance with development consent conditions, any substantiated complaints received and any views expressed by the Police.

**(10) OUTDOOR HOURS OF OPERATION - SENSITIVE USES**

The outdoor hours of operation are regulated as follows:

- (a) The outdoor hours of operation must be restricted to between 10.00am and 10.00pm Monday to Sunday.
- (b) Notwithstanding (a) above, the use may operate (outdoors) between 9.00am and 12.00am (midnight) for a trial period of 12 months from the date of issue of the first Occupation Certificate. Council's Health and Building Unit is to be informed in writing of the date of commencement of the trial hours. Email notification is to be sent to [liquor@cityofsydney.nsw.gov.au](mailto:liquor@cityofsydney.nsw.gov.au)
- (c) A further application may be lodged to continue the operating hours outlined in (b) above not less than 30 days before the end of the trial period. Council's consideration of a proposed continuation and/or extension of the hours permitted by the trial will be based on, among other

things, the performance of the operator in relation to the compliance with development consent conditions, any substantiated complaints received and any views expressed by the Police.

**(11) COMPLIANCE WITH BASE BUILDING CONSENT**

Unless otherwise approved, all fitout and construction works approved in this consent must be in accordance with all relevant approvals for the refurbishment of Shell House as approved by the NSW Department of Planning, Industry and Environment in application SSD MP11\_0076 and SSD 5824.

**(12) SECTION 61 CONTRIBUTIONS PAYABLE - REGISTERED QUANTITY SURVEYOR'S DETAILED COST REPORT - SUBMITTED AND VERIFIED PRIOR TO ISSUE OF CONSTRUCTION CERTIFICATE**

A cash contribution comprising 1% of the total cost of the development is payable to the City of Sydney pursuant to section 61 of the *City of Sydney Act 1988* and the *Central Sydney Development Contributions Plan 2013* in accordance with the following:

- (a) Prior to a Construction Certificate being issued, evidence must be provided of Council's written verification of the amount of the contribution as required in (b) below, and then that the levy has been paid to the Council in accordance with this condition. Payment may be by EFTPOS (debit card only), CASH or a BANK CHEQUE made payable to the City of Sydney. Direct debit, personal or company cheques will not be accepted.
- (b) The contribution must not be paid to the City of Sydney until it is accompanied by separate written verification by the City of Sydney of the specific amount payable. In order to obtain such verification, the "City of Sydney Registered Quantity Surveyor's Detailed Cost Report" indicating the itemised cost of the development must be completed and submitted to Council by the Accredited Certifier, together with copies of the plans the subject of the application for the Construction Certificate. A copy of the required format for the "City of Sydney Registered Quantity Surveyor's Detailed Cost Report" may be obtained from the City of Sydney One Stop Shop, any of the Neighbourhood Service Centres and the City of Sydney's website ([www.cityofsydney.nsw.gov.au](http://www.cityofsydney.nsw.gov.au)).
- (c) The Council will consider the documentation submitted under subclause (b) and determine the cost of the proposed development having regard to the information submitted and to such other matters as it considers appropriate and will notify the Accredited Certifier accordingly.
- (d) The items to be included in the calculation of the cost of development are demolition works, site remediation including decontamination, excavation and site preparation, construction costs, fit out, professional fees as part of the design (including design competitions) documentation and implementation process, fixed building machinery, equipment and appliances, kitchens and bar areas, car parking, air conditioning plant and equipment, services (fire, mechanical ventilation, electrical, hydraulic), ceilings, fire protection devices, installation of services (power, water, sewer, telephone), lifts and other essential machinery, floor coverings, *Building Code of Australia* compliance works, replacement of existing

materials, fixtures and fittings, construction related insurance, assessment and construction related fees, charges and GST and any other matter not expressly excluded in (e) below. Any item for which an exemption has been granted is still to be included in the total cost of development, together with an itemised value to enable the City to calculate the value of the exemption.

- (e) The items to be excluded in the calculation of the cost of development are the cost of land, marketing expenses (excluding display suites etc), finance and interest, building insurance after practical completion, drapery, commercial stock inventory, loose furniture, loose equipment, loose electrical appliances, minor maintenance of existing retained fixtures (patching, repainting) and stamp duty.

Please contact Council's Planning Administration staff at [Planningsystemsadmin@cityofsydney.nsw.gov.au](mailto:Planningsystemsadmin@cityofsydney.nsw.gov.au) to confirm the amount payable, prior to payment.

### **(13) AWNING DESIGN**

- (a) The outer edges of the proposed retractable awnings must be set back from the inner face of the heritage parapet by no less than 2m;
- (b) The fixing of the proposed pleated shading to the heritage parapet must minimize its impact on the heritage fabric and structure. Any embedded fixings or anchors must use stainless steel to avoid corrosion.
- (c) Materials for making good to the parapet must match existing.

### **(14) MAXIMUM CAPACITY OF PERSONS**

- (a) The maximum number of persons (including staff, patrons and performers) permitted in the premises at any one time is 885, split into the following areas:
  - (i) Ground Floor = 275 persons;
  - (ii) Level 09 = 315 persons (maximum 156 outdoors)
  - (iii) Level 10 = 295 persons (maximum 74 outdoors)
- (b) The capacity for each area shall not exceed the maximum numbers at any given time.
- (c) The manager/licensee is responsible for ensuring the number of persons in the premises does not exceed that specified above.
- (d) A sign in letters not less than 25mm in height must be fixed at the main entry point to the premises alongside the Licensee's name stating the maximum number of persons, as specified in the development consent, that are permitted in the building. Details are to be provided to the satisfaction of the Principal Certifier prior to issue of a Construction Certificate.

Note: Clause 98D of the *Environmental Planning and Assessment Regulation 2000* requires a sign specifying maximum number of persons permitted in the building to be displayed in a prominent position for the following types of premises:

- (i) entertainment venue,
- (ii) function centre,
- (iii) pub,
- (iv) registered club,
- (v) restaurant.

#### **(15) COPIES OF CONSENTS AND MANAGEMENT PLANS**

A full and current copy of all current development consents for the operation of the licensed premises, and the Plan of Management and the Security Management Plan must be kept on-site and made available to Police or Council Officers, or Special Investigator upon request.

#### **(16) PLAN OF MANAGEMENT**

The use must always be operated / managed in accordance with the Plan of Management V02, prepared by Michael Rowe and dated December 2020 that has been approved by Council. In the event of any inconsistency, the conditions of this consent will prevail over the Plan of Management.

#### **(17) SECURITY AND QUEUING – CATEGORY A LICENSED PREMISES**

- (a) Security guards are to be provided at the premises on Fridays and Saturdays from 8pm at a minimum ratio of 1 security staff member to 100 patrons or part thereof.
- (b) Security personnel shall remain at the premises for at least 30 minutes after closing and shall assist in ensuring that patrons leave quietly.
- (c) All licensed security officers whilst employed at the premises are to wear clearly identifiable security attire at all times, with the word “SECURITY” clearly identifiable in bold print at least 100mm high, on the front and back.
- (d) Management staff at the venue shall ensure that a clear footway width of 1.5m is maintained at all times along all footpaths immediately adjoining the premises. Patrons waiting to enter the premises shall queue along the immediate frontage of the premises. The queue must not obstruct any fire exit of any building or entrance to any other premises.
- (e) When more than one security guard is on duty, security officers and management shall communicate by hand held radios at all times.

## **(18) INCIDENTS – RECORDING AND NOTIFICATION**

The manager/licensee must ensure that all incidents involving staff members (including security personnel) are recorded in the incident register maintained on site, including incidents involving physical contact between staff and patrons, physical restraint of patrons and/or the ejection of patrons from the premises.

## **(19) SURVEILLANCE CAMERAS**

- (a) CCTV surveillance cameras shall be strategically installed, operated and maintained throughout the premises with particular coverage to:
  - (i) principal entrance/s and exits;
  - (ii) all areas within the premise occupied by the public (excluding toilets);
  - (iii) staircases in multilevel premises; and
  - (iv) the area within a 10m radius external to the public entrance(s) to the premise.
- (b) Suitable and clearly visible signage shall be displayed at the principal entrance(s) to the premise and in a prominent position on each floor accessible to the public, in lettering not less than 50mm in height with the words "Closed Circuit Television in use on these premises".
- (c) All CCTV recording equipment and cameras shall be of high grade digital quality capable of establishing the population and identification of patrons, offenders and incidents within the depth of field view of the cameras. In this respect each surveillance camera shall be capable of recording a minimum rate of 10 frames per second and at high resolution.
- (d) CCTV recording discs or hard drive recordings shall be retained for 28 days before being re-used, destroyed or deleted. Time and date shall be auto recorded on the disc or hard drive. The CCTV recording equipment shall be capable of reproducing a CD, DVD, USB or other appropriate digital copy of recorded footage on demand of Council or Police Officers either immediately or within 12 hours of the request being made. Copy discs must be handed to Council, Police Officer or Special Inspectors as required.
- (e) All CCTV recording devices and cameras shall be checked daily to ensure the equipment is operating correctly. The Licensee shall record this daily checking activity in the security/incident register book that meets the standards required by the Licensing Police and Council. If it is discovered at any time that the equipment is not in full operating order all reasonable steps must be taken to repair the system as soon as practicable. Where the system will not be functioning in full operating order for a period of longer than 24 hours the manager/licensee is to notify the relevant Local Area Commander of the NSW Police.
- (f) All CCTV recording devices and cameras shall be operated at all times when the premises are open to the public and, where premises do not operate 24 hours a day, continuously for at least 1 hour prior to opening and closing times of the premises.

- (g) The CCTV recording device shall be secured within the premises and only be accessible to senior management personnel so as to maintain the integrity of the recorded footage. When the premises is operating there must be at least one staff member present at the premises who is authorised to access the CCTV system and able to immediately review recordings and produce copies.
- (h) Camera views are not to be obstructed by temporary or permanent structures, signage or other impediments.

**(20) NO SPRUIKING NOISE**

No persons (such as those commonly known as spruikers) or recordings or other devices which have the effect of spruiking are to be located on Council owned property. Furthermore, the sound level of any spruiking generated within privately owned land must not be audible on any adjacent property with a shared boundary.

**(21) NOISE FROM GLASS REMOVAL**

Glass must not be emptied or transferred from one receptacle to another anywhere in a public place. All glass must be emptied / transferred inside of the building on the premises and removed in containers.

**(22) GLASS CRUSHER**

All glass bottles and other glass waste must be reduced to glass shards (by way of a glass crusher located inside the premises) prior to the removal of such waste from the premises.

**(23) REMOVAL OF GLASS**

Patrons must be prevented from removing glasses, opened cans, bottles or alcohol from the premises (except from any approved bottle shop area) or approved outdoor dining area included in the boundaries of the licensed premises.

**(24) NEIGHBOURHOOD AMENITY**

- (a) Signs must be placed in clearly visible positions within the licensed premises requesting patrons upon leaving the premises to do so quickly and quietly, having regard to maintaining the amenity of the area. The signage shall be in bold letters not less than 25mm in height on a contrasting background.
- (b) The management/licensee must ensure that the behaviour of patrons entering and leaving the premises does not detrimentally affect the amenity of the neighbourhood.

## (25) NSW POLICE REQUIREMENTS

In the interest of public safety the following NSW Police requirements must be adhered to:

- (a) **Crime Scene** - Immediately after the person in charge of the Licensed Premises become aware of an incident involving an act of violence causing an injury to a person on the premises, the person must: i. Take all practical steps to preserve and keep intact the area where the act of violence occurred ii. Retain all materials and implements associated with the act of violence in accordance with the crime scene preservation guidelines issued by NSW Police iii. Make direct and personal contact with the Police Area Commander or his/her delegate and advise the Commander or delegate of the incident and Comply with any directions given by the Commander or delegate to preserve or keep intact the area where the violence occurred.
- (b) **Security** - On Friday and Saturday nights, one (1) security person will be provided at the hotel from 8:00 pm until 30 minutes after close of restaurant / bar area's. Notwithstanding the above, whenever liquor is available at a function after 8:00pm on Friday or Saturday nights, security will be engaged at a ratio of 1:100 function patrons.

A Security guard will be provided on Level 9/10 after 8pm until 30 minutes after close on Friday and Saturday nights when liquor is served or supplied to that area by hotel staff.

- (c) **Development Consent** - A copy of the relevant development consent is to be kept on the premises and made available for inspection on the request of a police officer, council officer, Liquor & Gaming inspector, or any other person authorised by the Independent Liquor & Gaming Authority.
- (d) **Incident Register** - The licensee must ensure that an incident register is kept on the premises and; any incident involving any staff member and/or security personnel; the physical contact and/or physical restraint; the ejection of a member of the public from the premises; or when a patron, staff member or security personnel is injured as a result of an assault; is recorded in this register. The licensee must ensure the incident register recorded the full names of the staff involved in the incident and produce the register immediately upon request by members of the NSW Police Force, or authorised officers of Liquor and Gaming NSW.
- (e) **Neighbourhood Amenity** - The management of the premises:
  - (i) shall ensure patrons do not crowd or loiter in the vicinity of the premises in such manner that pedestrian movement is obstructed or hindered;
  - (ii) shall ensure that the manner in which the business of the premises is conducted and/or the behaviour of persons entering and leaving the premises does not cause undue disturbance to the amenity of the neighbourhood. In this regard, the management shall be responsible for the control of noise and litter generated by persons and/or premises operations. If so directed by Council, the Management is to

employ private security staff to ensure that this condition is complied with;

- (iii) shall record in an Incident Register full details of any disturbance complaints made by a person to management or staff in respect to the manner in which the business of the premises is conducted and/or the behaviour of persons entering or leaving the premises. Such recording will include time, date, nature of the complaints and any complainant details if provided; and
- (iv) shall respond to any disturbance complaints in a timely and effective manner. All actions undertaken by management / staff to resolve such complaints shall be recorded in the Register.

(f) **Lighting**

- (i) Adequate lighting must be provided to all entrances and exits of the premises, to ensure the safety of all staff and visitors as they arrive, use and leave the premises.

**(26) NOISE - ENTERTAINMENT**

- (a) The  $L_{A10, 15 \text{ minute}}$  noise level emitted from the use must not exceed the background noise level ( $L_{A90, 15 \text{ minute}}$ ) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) by more than 5dB between the hours of 7.00am and 12.00 midnight when assessed at the boundary of any affected residence.
- (b) The  $L_{A10, 15 \text{ minute}}$  noise level emitted from the use must not exceed the background noise level ( $L_{A90, 15 \text{ minute}}$ ) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) between the hours of 12.00 midnight and 7.00am when assessed at the boundary of any affected residence.
- (c) Notwithstanding compliance with (a) and (b) above, noise from the use when assessed as an  $L_{A10, 15 \text{ minute}}$  enters any residential use through an internal to internal transmission path is not to exceed the existing internal  $L_{A90, 15 \text{ minute}}$  (from external sources excluding the use) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) when assessed within a habitable room at any affected residential use between the hours of 7am and 12midnight. Where the  $L_{A10, 15 \text{ minute}}$  noise level is below the threshold of hearing,  $T_f$  at any Octave Band Centre Frequency as defined in Table 1 of International Standard ISO 226 : 2003- Normal Equal-Loudness-Level Contours then the value of  $T_f$  corresponding to that Octave Band Centre Frequency shall be used instead.
- (d) Notwithstanding compliance with (a), (b) and (c) above, the noise from the use must not be audible within any habitable room in any residential use between the hours of 12.00 midnight and 7.00am.
- (e) The  $L_{A10, 15 \text{ minute}}$  noise level emitted from the use must not exceed the background noise level ( $L_{A90, 15 \text{ minute}}$ ) in any Octave Band Centre Frequency (31.5 Hz to 8 kHz inclusive) by more than 3dB when assessed indoors at any affected commercial premises.

Note: The  $L_{A10, 15 \text{ minute}}$  noise level emitted from the use is as per the definition in the Australian Standard AS1055-1997 Acoustics – Description and measurement of environmental noise. The background noise level  $L_{A90, 15 \text{ minute}}$  is to be determined in the absence of noise emitted by the use and be representative of the noise sensitive receiver. Background noise monitoring must be carried out in accordance with the long-term methodology in Fact Sheet B of the NPfI unless otherwise agreed by the City's Area Planning Manager.

**(27) COMPLIANCE WITH THE ACOUSTIC REPORT PRIOR TO CONSTRUCTION AND OR OCCUPATION CERTIFICATES**

- (a) All relevant performance parameters (including but not limited to requirements, engineering assumptions and recommendations) in the DA Acoustic Report prepared by Acoustic Logic ref 20191184.1 titled 'Environmental Noise Impact Assessment - Council Ref 2020/528193 must be implemented in the development prior to the commencement of its use.
- (b) Prior to the issue of any relevant Construction Certificate, the final construction drawings and final construction methodology must be submitted to Councils Area Planning Manager for approval, assessed and reported to be in accordance with the requirements of the DA Acoustic Report in (a) above, with reference to relevant documentation. This must be carried out by a Suitably Qualified Acoustic Consultant\* (see definition below).
- (c) Prior to the issue of any Occupation Certificate, a Suitably Qualified Acoustic Consultant\* is to provide a written Acoustic Verification Report to the satisfaction of the Principal Certifier that the development complies with the requirements set out in the Report and in (a) and (b) above.

Note: *Suitably Qualified Acoustic Consultant* means a consultant who possesses the qualifications to render them eligible for membership of the Australian Acoustics Society, Institution of Engineers Australia or the Association of Australian Acoustic Consultants at the grade of member.

- (d) All physical aspects of the building's structure installed in order to meet performance parameters in accordance with this condition must be maintained at all times.

**(28) NOISE – COMMERCIAL PLANT / INDUSTRIAL DEVELOPMENT**

- (a) Noise from commercial plant and industrial development must not exceed a project amenity/intrusiveness noise level or maximum noise level in accordance with relevant requirements of the NSW EPA [Noise Policy for Industry 2017 \(NPfI\)](#) unless agreed to by the City's Area Planning Manager. Further:
  - (i) Background noise monitoring must be carried out in accordance with the long-term methodology in [Fact Sheet B](#) of the NPfI unless otherwise agreed by the City's Area Planning Manager.
  - (ii) Commercial plant is limited to heating, ventilation, air conditioning, refrigeration and energy generation equipment.

- (b) An  $L_{Aeq,15 \text{ minute}}$  (noise level) emitted from the development must not exceed the  $L_{A90, 15 \text{ minute}}$  (background noise level) by more than 3dB when assessed inside any habitable room of any affected residence or noise sensitive commercial premises at any time. Further:
  - (i) The noise level and the background noise level shall both be measured with all external doors and windows of the affected residence closed.
  - (ii) Background noise measurements must not include noise from the development but may include noise from necessary ventilation at the affected premise.
- (c) Corrections in [Fact Sheet C](#) of the NPfI are applicable to relevant noise from the development measured in accordance with this condition, however duration corrections are excluded from commercial noise.

## SCHEDULE 1B

### PRIOR TO CONSTRUCTION CERTIFICATE/COMMENCEMENT OF WORK/HEALTH AND BUILDING

#### (29) LANDSCAPING OF THE SITE

- (a) A detailed landscape plan of the roof terraces, drawn to scale, by a qualified landscape architect or landscape designer, must be submitted to and approved by Council's Area Coordinator Planning Assessments prior to the issue of a Construction Certificate for above ground building works. The plan must include:
- (i) location of existing and proposed structures on the site, including any existing landscaping if already installed under SSD Consents;
  - (ii) details of earthworks and soil depths including mounding and retaining walls and planter boxes (if applicable). The minimum soil depths for planting on slab must be 1000mm for trees, 450mm for shrubs and 200mm for groundcovers;
  - (iii) location, numbers, type and supply of plant species, with reference to NATSPEC (if applicable);
  - (iv) details of planting procedure and maintenance; and
  - (v) details of drainage, waterproofing and watering systems.

The amount of soft landscaping (trees, mass planting, planters) provided to the terraces must be generally the same as that within SSD 5824 approved plan L09/10 Terraces Rev G dated 23.09.2016 to the satisfaction of the City of Sydney.

- (b) Prior to the issue of a Construction Certificate, a maintenance plan is to be submitted to and approved by the Accredited Certifier. The maintenance plan is to be complied with during occupation of the property.
- (c) All landscaping in the approved plan is to be completed prior to any Occupation Certificate being issued.

#### (30) CONSTRUCTION AND FITOUT OF FOOD PREMISES

The construction, fitout and finishes of the food premises must comply with Standard 3.2.3 of the Australian and New Zealand Food Standards Code under the *Food Act 2003* and AS 4674 – 2004 Design, Construction and Fitout of Food Premises.

Note: Copies of AS 4674-2004 may be obtained from the Standards Australia Customer Service on telephone 1300 65 46 46 or by visiting the website [www.standards.com.au](http://www.standards.com.au).

Copies of the Food Standards Code (Australia) may be obtained by contacting the Food Standards Australia and New Zealand Authority on telephone (02)

6271 2222, email [info@foodstandards.gov.au](mailto:info@foodstandards.gov.au) or by visiting the website [www.foodstandards.gov.au](http://www.foodstandards.gov.au).

### **(31) COOLROOMS**

Coolrooms, refrigerated chambers and strong-rooms must be constructed in accordance with G 1.2 of the *Building Code of Australia*, and:

- (a) The floor of the coolroom must be graded to the door and a floor trapped waste outlet must be located outside the coolroom as near as possible to the door opening.
- (b) All proposed shelving in the coolroom must be free-standing, constructed of galvanised steel angle section or other approved material with the lowest shelf at least 150mm clear of the floor.
- (c) The floor of the coolroom must be constructed of impermeable concrete or coated, topped or otherwise finished with an impervious material to a smooth even surface and coved at the intersections with the walls to a minimum radius of 25mm.
- (d) Must be fitted with a door that can be opened at all times from inside without a key.
- (e) An approved audible alarm device must be located outside the coolroom(s) but controllable only from within the coolroom(s) and must be able to achieve a sound pressure level outside the chamber or coolroom(s) of 90 dB(A) when measured 3 metres from a sounding device.

### **(32) FOOD PREMISES – DETAILED PLANS**

- (a) Detailed and scaled plans of all kitchen, bar, food preparation, waste and storage areas, food handler toilets and all areas associated with the food business must be prepared in accordance with the *Australia New Zealand Food Standards Code – 3.2.3 – Food Premises and Equipment* under the *Food Act 2003* and *AS 4674 - Design, Construction and Fit-out of Food Premises*.
- (b) Prior to the issue of a Construction Certificate the plans required by (a) of this condition must be submitted to and approved in writing by the Accredited Certifier.

### **(33) GREASE AND LIQUID WASTE TRAPS**

- (a) A grease trap if required by Sydney Water must be installed in accordance with Sydney Water requirements and:
  - (i) must be installed by a suitably qualified and licensed plumber in accordance with the *Plumbing Code of Australia*;
  - (ii) the grease trap must not be located in any kitchen, food preparation or food storage area;

- (iii) be suitably constructed and installed in a location which allows it to be easily and effectively cleaned and emptied; and
  - (iv) be suitably constructed and located as not to encourage the harbourage of pests and be effectively pest proofed.
- (b) In-sink and in-floor waste bucket traps must be installed in all sinks and floor wastes in all commercial kitchens and food preparation areas and must be carried out by a suitably qualified and licensed plumber in accordance with the *Plumbing Code of Australia*.

**(34) HOT WATER SERVICE**

The capacity of the hot water service must ensure that a constant supply of hot water is provided to the premises at all times for all sinks and basins including hand wash basin/s. The temperature of the hot water provided to the sinks must be in accordance with *AS4674 – Design, Construction and Fit-out of Food Premises* and the *Australia New Zealand Food Standards Code 3.2.2 - Food Safety Practices* and general requirements.

**(35) NOTIFICATION OF CONDUCT OF FOOD BUSINESS**

- (a) The use shall not commence until the food business has notified Council with their food business details in accordance with the *Food Act 2003* and *The Australia New Zealand Food Standards Code – 3.2.2 – Food Safety Practices and General Requirements, Clause 4*.
- (b) An Occupation Certificate must not be issued until such notification has been received by Council in accordance with Clause (a) of this condition.

Note: Registration forms are available on Council's website [www.cityofsydney.nsw.gov.au](http://www.cityofsydney.nsw.gov.au).

**(36) PERSONAL LOCKERS**

Clothing lockers or change rooms for male and female staff must be provided in the premises or a dedicated, separate and isolated space for personal items must be provided in a separate location to the food handling and storage areas, in accordance with *AS4674 - Design, Construction and Fit out of Food Premises*.

**(37) SANITARY FACILITIES – FOOD PREMISES**

The sanitary facilities must be separated from all food handling areas via an airlock, self-closing door or mechanical ventilation in accordance with the provisions of the *Building Code of Australia*, Part F 3.1, 4.8 and 4.9.

**(38) TOILETS FOR FOOD HANDLERS**

- (a) Adequate toilet facilities must be available for food handlers working for the food business. Toilets and associated facilities must be provided in accordance with *AS4674 – Design, Construction and Fit-out of Food*

*Premises and the Australia New Zealand Food Standards Code, 3.2.3 - Food Premises and Equipment.*

- (b) Details of the location of toilets which are provided exclusively for the use of food handlers and staff working at the business must be submitted for the approval of the Accredited Certifier prior to the issue of a Construction Certificate.
- (c) The toilet(s) must be provided with a hand wash basin, with hot and cold running water mixed through a common spout, hand wash soap, hygienic hand drying facilities and hands-free taps.

### **(39) WASTE STORAGE AREA**

- (a) To ensure the adequate storage and collection of waste from the food premises, all garbage and recyclable materials emanating from the premises must be stored in a designated waste storage area. The waste storage area must be designed and constructed in accordance with *AS 4674 – Design, Construction and Fit-out of Food Premises, Australia New Zealand Food Standards Code 3.2.3 – Food Premises and Equipment* and comply with the *Council Policy for Waste Minimisation in New Developments*, and must be:
  - (i) provided with a hose tap connected to the water supply;
  - (ii) paved with impervious floor materials;
  - (iii) coved at the intersection of the floor and walls;
  - (iv) graded and drained to a waste disposal system in accordance with the requirements of the relevant regulatory authority (Sydney Water);
  - (v) adequately ventilated (mechanically or naturally) so that odour emissions do not cause offensive odour or air pollution as defined by the *Protection of the Environment Operations Act 1997* or a nuisance;
  - (vi) fitted with appropriate interventions to meet fire safety standards in accordance with the *Building Code of Australia*;
  - (vii) provided with the appropriate number and size of bins adequate for the storage of waste generated by the business, including recycling; and
  - (viii) appropriately managed so that it does not attract pests or create litter.
- (b) Detailed plans and specifications for the construction of the waste storage area must be submitted to and approved by the Accredited Certifier prior to the issue of the Construction Certificate and must be constructed in accordance with such plans and specifications prior to the issuance of any Occupation Certificate.

**(40) MECHANICAL VENTILATION**

- (a) The premises must be ventilated in accordance with the *Building Code of Australia* and *AS1668.1 and AS1668.2 - The Use of Ventilation and Air-conditioning in Buildings - Mechanical Ventilation in Buildings*.
- (b) Details of any mechanical ventilation and/or air conditioning system complying with *AS1668.1 and AS1668.2 - The Use of Ventilation and Air-conditioning in Buildings - Mechanical Ventilation in Buildings*, the *Building Code of Australia* and relevant Australian Standards must be prepared and certified in accordance with Clause A5.2(1)(e) of the *Building Code of Australia*, to the satisfaction of the Accredited Certifier prior to the issue of a Construction Certificate.
- (c) Prior to issue of any Occupation Certificate and following the completion, installation, and testing of all the mechanical ventilation systems, a Mechanical Ventilation Certificate of Completion and Performance in accordance with Clause A5.2(1)(e) of the *Building Code of Australia*, must be submitted to the Principal Certifier.

**(41) FOOD PREMISES – ADDITIONAL MECHANICAL VENTILATION REQUIREMENTS**

- (a) The cooking appliances require an approved air handling system designed in accordance with *AS1668.1 - The Use of Ventilation and Air-conditioning in Buildings – Fire and Smoke Control in Buildings* and *AS1668.2 - The Use of Ventilation and Air-conditioning in Buildings – Mechanical Ventilation in Buildings*, and must incorporate the following:
  - (i) The discharge exhaust air must be directed in a vertical, or near vertical direction above the roof, and
  - (ii) The cooking appliances must not burn any charcoal, wood or other solid fuel.
- (b) Details of the proposed system must be submitted to and approved by Council's Health and Building Unit in writing prior to the issue of a Construction Certificate.

**(42) ACCESS AND FACILITIES FOR PERSONS WITH DISABILITIES**

The building must be designed and constructed to provide access and facilities for people with a disability in accordance with the *Building Code of Australia*.

If, in complying with this condition, amendments to the development are required, the design changes must be submitted to and approved by Council prior to a Construction Certificate being issued.

**(43) BUILDING WORKS TO COMPLY WITH BCA – HERITAGE BUILDINGS OR BUILDINGS WITHIN CONSERVATION AREA**

Any building works required to ensure compliance with the BCA or new building standards not specified in the submitted/approved plan must not damage existing fabric and building features. If such upgrading works have impact or

potentially have impact on existing fabric and features, details of the works must be submitted and approved by Council's Area Coordinator Planning Assessments / Area Planning Manager prior to issue of any Construction Certificate.

**(44) WORKS REQUIRING USE OF A PUBLIC PLACE**

Where construction/building works require the use of a public place including a road or footpath, a separate application under Sections 138/139 of the *Roads Act 1993* must be submitted to and approved by Council prior to the commencement of work. Details of any barricade construction, area of enclosure and period of work are required to be submitted to the satisfaction of Council.

**(45) APPLICATION FOR HOARDINGS AND SCAFFOLDING INSTALLED ON OR ABOVE A PUBLIC ROAD AND OPERATING HOISTING DEVICES INCLUDING BUILDING MAINTENANCE UNITS OVER A PUBLIC ROAD**

- (a) Where a hoarding and/or scaffolding (temporary structures) are proposed to be installed on or above a road reservation (footway and/or roadway), a separate application under Section 68 of the *Local Government Act 1993* and Sections 138/139 of the *Roads Act 1993* must be submitted to and approved by Council for such structures.
- (b) Where an approval (Permit) is granted allowing the placement of temporary structures on or above a public road the structures must comply fully with Council's *Hoarding and Scaffolding Policy; Guidelines for Hoardings and Scaffolding*; and the conditions of approval (Permit) granted including:
  - (i) maintaining a current and valid approval for the full duration that the temporary structure/s is in place;
  - (ii) maintaining temporary structure/s in a structurally sound and stable condition for the full duration of installation (Clause 2.11.1);
  - (iii) bill posters and graffiti being removed within 24 hours of their placement (Clause 2.11.2);
  - (iv) maintaining temporary structures and the public place adjoining the work site in a clean and tidy condition including repainting and/or repair of graphics (Clauses 2.11.1, 2.11.4, 2.14.1 and 3.9.3);
  - (v) maintaining a watertight deck (Type B hoardings) to prevent liquids including rainwater, falling onto the footway/roadway surfaces (Clauses 3.9.1 and 3.9.4);
  - (vi) approved site sheds on the decks of a Type B hoarding being fully screened from the public place (Clause 3.9.5);
  - (vii) material and equipment not being placed or stored on the deck of Type B hoardings, unless specifically approved by Council (Clause 3.9.4);

- (viii) providing and maintaining operational artificial lighting systems under Type B hoardings including at high-bay truck entry points (Clause 3.9.9); and
- (ix) ensuring all required signage, artwork or historic images are provided and fully maintained to the City's requirements (Clauses 3.4, 3.9.3, 3.9.6, 3.9.8, 3.10.1 and 4.2).

If it is proposed to operate a hoisting device including a building maintenance unit above a public road which swings, hoists material/equipment and/or slews/wind vanes any part of the device over the public road, a separate application under Section 68 of the *Local Government Act 1993* and Sections 138/139 of the *Roads Act 1993* must be made to Council to obtain approval.

**Note:** 'Building maintenance unit' means a power-operated suspended platform and associated equipment on a building specifically designed to provide permanent access to the faces of the building for maintenance (*Work Health and Safety Regulation 2017*).

**(46) WASTE AND RECYCLING MANAGEMENT - MINOR**

The proposal must comply with the relevant provisions of Council's *Guidelines for Waste Management in New Developments 2018* which requires facilities to minimise and manage waste and recycling generated by the proposal.

**(47) WASTE AND RECYCLING MANAGEMENT - COMMERCIAL**

- (a) The Waste and Recycling Management Plan accompanying this Development Application has not been approved by this consent.
- (b) A Waste and Recycling Management Plan is to be approved by the Accredited Certifier prior to a Construction Certificate being issued. The plan must comply with the Council's *Guidelines for Waste Management in New Developments 2018*. All requirements of the approved Building Waste and Recycling Management Plan must be implemented during construction of the development.
- (c) Dedicated space to be provided within the development for the storage and recycling of bulky waste, problem waste, strip out and food waste.

**UPON COMPLETION OF THE DEVELOPMENT**

- (d) Prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, the Principal Certifier must ensure that waste handling works have been completed in accordance with: the Waste and Recycling Management Plan; other relevant development consent conditions; and Council's *Guidelines for Waste Management in New Developments 2018*.

**(48) WASTE AND RECYCLING COLLECTION CONTRACT**

Prior to any Occupation Certificate being issued and/or commencement of the use, whichever is earlier, the building owner must ensure that there is a contract

with a licensed contractor for the removal of **all waste**. No garbage is to be placed on the public way, e.g. footpaths, roadways, plazas, reserves, at any time.

**(49) SYDNEY WATER CERTIFICATE (TAP-IN)**

- (a) The approved plans must be submitted to Sydney Water's "Tap-in" online service to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if further requirements need to be met. Sydney Water's "Tap-in" online service is available at [www.sydneywater.com.au](http://www.sydneywater.com.au), (see Plumbing, Building & Development and then Sydney Water "Tap-in").
- (b) The Consent Authority or a Principal Certifier must ensure that Sydney Water has appropriately stamped the plans before the commencement of work.

## **SCHEDULE 1C**

### **DURING CONSTRUCTION/PRIOR TO OCCUPATION/COMPLETION**

#### **(50) OCCUPATION CERTIFICATE TO BE SUBMITTED**

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

#### **(51) HOURS OF WORK AND NOISE – CBD**

The hours of construction and work on the development must be as follows:

- (a) All work, including demolition, excavation and building work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.00am and 7.00pm on Mondays to Fridays, inclusive, and 7.00am and 5.00pm on Saturdays, and no work must be carried out on Sundays or public holidays.
- (b) All work, including demolition, excavation and building work must comply with the *City of Sydney Code of Practice for Construction Hours/Noise 1992* and Australian Standard 2436-2010 *Guide to Noise Control on Construction, Maintenance and Demolition Sites*.
- (c) Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of above hours can occur, subject to a permit being issued by Council under Section 68 of the Local Government Act 1993 and/or Section 138 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Unit, prior to works proceeding.

The *City of Sydney Code of Practice for Construction Hours/Noise 1992* allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the *Environmental Planning and Assessment Act 1979*.

#### **(52) LOADING AND UNLOADING DURING CONSTRUCTION**

The following requirements apply:

- (a) All loading and unloading associated with construction activity must be accommodated on site, where possible.
- (b) If, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

- (c) A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the particular need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.
- (d) Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate application under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993 must be submitted to and approved by Council.

**(53) NO OBSTRUCTION OF PUBLIC WAY**

The public way must not be obstructed by any materials, vehicles, refuse, skips or the like, under any circumstances. Non-compliance with this requirement will result in the issue of a notice by Council to stop all work on site.

**(54) USE OF MOBILE CRANES**

The following requirements apply:

- (a) Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.
- (b) For special operations including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic disruptions.
- (c) The use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of approved hours of construction can occur, subject to a separate application being submitted to and approved by Council under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993.

**(55) USE OF HIGH NOISE EMISSION APPLIANCES / PLANT**

- (a) The operation of high noise emission appliances, plant and/or machinery such as pile – drivers, rock breakers and hydraulic hammers and those which are not listed in Groups B, C, D, E or F of Schedule 1 of the *City of Sydney Code of Practice for Construction Hours/Noise 1992* and Australian Standard 2436-2010 *Guide to Noise Control on Construction, Maintenance and Demolition Sites* is restricted to the hours of (EHO to specify hours)

- (b) All reasonable and feasible steps must be undertaken to ensure that the work, including demolition, excavation and building complies with the *City of Sydney Code of Practice for Construction Hours/Noise 1992* and Australian Standard 2436- 2010 *Guide to Noise Control on Construction, Maintenance and Demolition Sites*.

**(56) ENCROACHMENTS – NEIGHBOURING PROPERTIES**

No portion of the proposed structure shall encroach onto the adjoining properties.

**(57) ENCROACHMENTS – PUBLIC WAY**

No portion of the proposed structure, including gates and doors during opening and closing operations, shall encroach upon Council's footpath area.

## SCHEDULE 2

### PRESCRIBED CONDITIONS

The prescribed conditions in accordance with Division 8A of the *Environmental Planning and Assessment Regulation 2000* apply:

- Clause 98 Compliance with *Building Code of Australia* and insurance requirements under the *Home Building Act 1989*
- Clause 98A Erection of signs
- Clause 98B Notification of *Home Building Act 1989* requirements
- Clause 98C Conditions relating to entertainment venues
- Clause 98D Conditions relating to maximum capacity signage
- Clause 98E Conditions relating to shoring and adequacy of adjoining property

Refer to the NSW State legislation for full text of the clauses under Division 8A of the *Environmental Planning and Assessment Regulation 2000*. This can be accessed at: <http://www.legislation.nsw.gov.au>
