

Pedestrian Movement Plan

NOTE:

1. Traffic Controllers to be positioned on footpaths in appropriate positions throughout work area to assist with pedestrian movements.
2. Pedestrian Barriers and/or Tiger Tails to be utilised where appropriate to provide separation to pedestrians and work areas.
3. Work areas not to obstruct footpaths unless appropriate controls are in place in accordance with AS1742.3 and TCAMS.
4. Pedestrians shall not be directed onto roadway unless appropriate controls are in place in accordance with AS1742.3 and TCAMS Manual.
5. Ensure that the requirements of Traffic Control at Work Sites, Section 9.3 are met for pedestrians.

This Traffic Guidance Scheme has been designed by a PWZTMP qualified person & is drawn to TMSW TCAMS Manual V6.0 & AS1742.3.

Modifications to this TGS must be approved by a qualified person holding a PWZTMP and details recorded on Page 1.

An ITCP qualified person may vary the positioning of signage & devices provided the requirements of TCAMS V6.0 - Section 7.10.3 Tolerances on positioning of signs & devices' are met.
