

**Item 23.****Parking - No Stopping - Cooper Street, Waterloo**

TRIM Container No.: 2022/493607

**Recommendations**

It is recommended that the Committee endorse the allocation of parking on the eastern side of Cooper Street, Waterloo between the points 38.7 metres and 50.7 metres (two car spaces) north of Wellington Street as "No Stopping".

**Advice**

Advice will be updated after the meeting.

**Background**

A resident of Cooper Street, Waterloo has requested consideration of "No Stopping" restriction in Cooper Street to improve traffic flow and access for service vehicles.

**Comments**

The kerb space on the eastern side of Cooper Street, Waterloo between Raglan and Wellington Streets, where the changes are proposed, is currently unrestricted for parking.

However, parking also exists on some parts of the western side of Cooper Street especially on the approach to Wellington Street, so that it narrows access for traffic where parking the parking occurs on both sides of the street. The installation of 'No Stopping', in the location proposed, will prevent the parked cars from blocking access along the street.

On-site inspection shows there is a need to provide a "No Stopping" restriction to improve traffic flow and accessibility for service vehicles.

### **Consultation**

The City consulted local residents and businesses in the area. There were 234 letters sent out with no responses supporting or opposing the proposal.

### **Financial**

Funds are available in the current budget.
