Draft Street Tree Master Plan

Link to online draft Street Tree Master Plan

<https://www.cityofsydney.nsw.gov.au/strategies-action-plans/street-tree-master-plan>

Supporting information has been provided in Attachment B, which outlines why we need the Plan, how we select species, the different planting arrangements, and the key outcomes of the Plan.

Accessible versions of the online Plan will also be made available through the precinct plan summaries, with tables outlining the species proposed in the different street locations (i.e. footpaths, constrained, traffic islands and median strips) available for download.

The City recommends the use of the online version where possible.
