

Attachment A

Recommended Conditions of Consent
--

SCHEDULE 1

CONDITIONS OF CONSENT

PART A - GENERAL

(1) APPROVED DEVELOPMENT

- (a) Development must be in accordance with Development Application No. D/2022/285 dated 28 April 2022 and the following drawings prepared by Nimbus Architecture + Heritage:

Drawing Number	Drawing Name	Date
DA-100 Rev E	Site Plan & Site Analysis	6/10/2022
DA-101 Rev E	Demolition Ground Floor Plan	6/10/2022
DA-102 Rev E	Demolition First Floor Plan	6/10/2022
DA-103 Rev E	Demolition Roof Plan	6/10/2022
DA-110 Rev E	Proposed Ground Floor Plan	6/10/2022
DA-111 Rev E	Proposed First Floor Plan	6/10/2022
DA-112 Rev E	Proposed Second Floor Plan	6/10/2022
DA-120 Rev E	Proposed Roof Plan	6/10/2022
DA-200 Rev E	Proposed South Elevation	6/10/2022
DA-201 Rev E	Proposed East Elevation	6/10/2022
DA-202 Rev E	Proposed North Elevation	6/10/2022
DA-203 Rev E	Proposed West Elevation	6/10/2022
DA-300 Rev E	Section – Cross Section A	6/10/2022
DA-301 Rev E	Section – Cross Section B	6/10/2022
DA-302 Rev E	Section – Long Section C	6/10/2022
DA-400 Rev D	Typical Details	6/10/2022
DA-401 Rev C	Details	6/10/2022
DA-700 Rev D	Proposed External Materials	6/10/2022

And the following landscape drawings prepared by 33 Parallel Landscape Architect/ Urban Designers:

Drawing Number	Drawing Name	Date
L_000 Rev D	Cover	28/07/2022
L_1001 Rev D	Landscape Planting Plan	28/07/2022
L_1002 Rev D	Landscape Planting Palette	28/07/2022
L_1003 Rev D	Landscape Levels and Finishes	28/07/2022
L_1004 Rev D	Elevations & Details	28/07/2022
L_1005 Rev A	Deep Soil/ Tree Canopy Plan	27/07/2022

and as amended by the conditions of this consent.

- (b) In the event of any inconsistency between the approved plans and supplementary documentation, the plans will prevail.

Reason

To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

(2) DESIGN MODIFICATIONS

The design of the building must be modified as follows:

- (a) Details of the screening around the ground level mechanical plant area are to be provided at a scale of 1:50 and must demonstrate that the plant and associated screen do not sit higher than the sill of the adjacent windows or the adjacent fence. Details of the screen design, along with materials, colours and finishes are required.
- (b) Window W2.18 on the eastern elevation to the side of the level 2 dormer window is to be deleted.
- (c) All external glazing is to be clear (not tinted), with a minimum VLT of 70% to ensure all glazing is consistent with the character of the contributory building
- (d) The ground floor southern communal outdoor area is to include two fixed seating benches with piered footings. These seats are to be sufficiently distanced from the mechanical plant and drying area.
- (e) All new windows and doors to the first floor as well as any windows / doors in the existing original walls on level 2 are to be timber framed
- (f) The building identification sign on the east elevation is to be externally illuminated from a concealed or discrete source.
- (g) The required bike spaces for the child care centre under D/2006/1792/B are to be re-located.
- (h) A workspace for the manager is to be provided either within the communal living area or in a separate space.

The modifications are to be submitted to and approved by Council's Area Planning Manager prior to the issue of a Construction Certificate.

Reason

To require amendments to the approved plans and supporting documentation following assessment of the development.

(3) SECTION 7.11 CONTRIBUTIONS PAYABLE - CONTRIBUTION TOWARDS PUBLIC AMENITIES – CITY OF SYDNEY DEVELOPMENT CONTRIBUTIONS PLAN 2015 – WEST PRECINCT

Council has identified the development will increase demand for public amenities and facilities. Pursuant to Section 7.11 of the Environmental Planning and Assessment Act, 1979 (as amended), and the City of Sydney Development Contributions Plan 2015 the following monetary contributions are required towards the cost of public amenities.

<u>Contribution Category</u>	<u>Amount</u>
Open Space	\$97,017.48
Community Facilities	\$32,136.17
Traffic and Transport	\$162.07
Stormwater Drainage	\$0.00
Total	\$129,315.72

The City of Sydney will index the above contribution for inflation at the time of payment using the following formula.

$$C_{\text{payment}} = C_{\text{consent}} \times (CPI_{\text{payment}} \div CPI_{\text{consent}})$$

Where:

C_{payment} = Is the contribution at time of payment;

C_{consent} = Is the contribution at the time of consent, as shown above;

CPI_{payment} = Is the Consumer Price Index (All Groups Index) for Sydney published by the Australian Bureau of Statistics that applies at the time of payment; and

CPI_{consent} = Is the Consumer Price Index (All Groups Index) for Sydney at the date the contribution amount above was calculated being – 125.7 for the June 2022 quarter.

The contribution must be paid prior to the issue of any Construction Certificate in relation to this development.

Please contact Council's Planning Administration staff at planningsystemsadmin@cityofsydney.nsw.gov.au to request a letter confirming the indexed contribution amount payable.

Once the letter confirming the indexed contribution is obtained, payment may be made at any of the City's Neighbourhood Service Centres or the One Stop Shop at Town Hall House. Acceptable payment methods are EFTPOS (debit card only), cash (up to 10K only), Credit Card (up to 50K only) or a bank cheque made payable to the City of Sydney. Personal or company cheques will not be accepted.

Reason

To ensure development contributions are paid to address the increased demand for public amenities and services resulting from the approved development.

(4) AFFORDABLE HOUSING CONTRIBUTION – RESIDUAL LAND OR CENTRAL SYDNEY – PAYMENT IN LIEU OF FLOOR SPACE CONTRIBUTION – PRIOR TO CONSTRUCTION CERTIFICATE

- (a) In accordance with the City of Sydney Affordable Housing Program and prior to the issue of a Construction Certificate, the applicant must provide

evidence that a monetary contribution towards the provision of affordable housing has been paid to the City of Sydney Council.

- (b) The contribution is \$93,435.92 (indexed at 14 November 2022). This is calculated by establishing the sum of the equivalent monetary contribution \$11,599.74 multiplied by 0.5% of the total floor area for non-residential development (0 sqm) and the equivalent monetary contribution \$11,599.74 multiplied by 1.5% of the total floor area for residential development (537 sqm).
- (c) If the contribution is paid after the indexation period in which the consent is granted, being March 2022 to February 2023, the above contribution will be adjusted according to the Sydney LGA median strata dwelling price ('MDP') using the following formula.
- (d) Contribution payable at Time of Payment = $C \times \text{MDP2} / \text{MDP1}$, where:
 - (i) C is the original total contribution amount payable to the City of Sydney as shown above;
 - (ii) MDP2 is the Median Strata Dwelling Price in Sydney LGA taken from the most recent NSW Government Rent and Sales Report at the time of indexation of the equivalent monetary contribution rate; and
 - (iii) MDP1 is the Median Strata Dwelling Price in Sydney LGA taken from the NSW Government Rent and Sales Report used to establish the current equivalent monetary contribution rate, being March 2022 to February 2023.

Contact Council's Planning Assessment Unit at planningsystemsadmin@cityofsydney.nsw.gov.au for written confirmation of the amount payable, with indexation as necessary, prior to payment.

Reason

To ensure development contributions are paid to contribute to the provision of essential affordable rental housing infrastructure.

(5) HERITAGE

- (a) Windows converted to doors are to be in keeping with the existing fenestration and are to be timber framed.
- (b) The vegetation growing on the brickwork is to be carefully removed using a biocide or similar treatment that does not damage the brickwork.
- (c) The brickwork is to be carefully cleaned in non-abrasive manner.
- (d) Any repointing of the mortar joints, repairs to the external façades, and making good the brickwork where new openings are proposed are to be carried out on a like for like basis by skilled tradespeople.

Reason

To ensure that the development does not result in adverse heritage impacts.

(6) ERECTION OF SIGN

The building identification sign is to be erected in a secure manner to ensure safety and the fixings are to be within the mortar joints and non-corrosive to ensure its installation does not involve measures that would cause irreversible damage to the building.

Reason

To ensure signage installed does not cause irreversible damage to the building.

(7) SIGNAGE GENERAL REQUIREMENTS

The design of the approved signage must comply with the following:

- (a) The signage is not to contain highly reflective materials, colours and finishes.
- (b) The signage is not to incorporate sound, vibration, odour and other emissions.

Reason

To ensure signage is designed in accordance with Council's DCP.

(8) STRUCTURAL CERTIFICATION FOR EXISTING BUILDING – ALTERATIONS AND ADDITIONS

A qualified practising registered structural engineer must provide structural certification to Council (where Council is the Accredited Certifier) verifying that the existing structure can adequately support the proposed new loads and the structural design complies with the Structural Provisions of Part B1 (Vol 1) and Part 2.1 (Vol 2) of the *Building Code of Australia* prior to a Construction Certificate being issued. The proposed additional loads and/or alterations must not cause a decrease in the existing structural performance of the building including its performance under earthquake actions (AS1170.4).

Reason

To ensure the existing structure can support the new loads.

(9) BCA COMPLIANCE - ALTERATIONS AND ADDITIONS - UPGRADE OF WHOLE BUILDING IS REQUIRED

- (a) Pursuant to Section 64 of the Environmental Planning and Assessment Regulation 2021 an assessment of the development proposal has been undertaken and:
 - (i) As more than 50 percent of the volume of the building is proposed to be altered or has been altered over the previous 3 year period; and/or
 - (ii) The measures contained in the building are inadequate to protect persons using the building and to facilitate their egress from the building in the event of fire, or to restrict the spread of fire from the building to other buildings nearby, it has been determined that the

whole building must be brought into total conformity with the *Building Code of Australia*.

- (b) If compliance with (a) above cannot be achieved through the deemed-to-satisfy pathway, a performance solution in accordance with Part A2 of the BCA must be prepared and submitted to the Registered Certifier illustrating how the relevant performance provisions are to be satisfied, and must form part of the approval prior to a Construction Certificate being issued.

Reason

To ensure the works comply with relevant regulations.

(10) CO-LIVING - USE AND OPERATION

The use and operation of the premises must comply with the requirements of Schedule 2 (Standards for Places of Shared Accommodation) of the Local Government (General) Regulation, 2005 under the Local Government Act 1993, the Public Health Act, 2010, the Boarding Houses Act 2012 and regulations thereunder and the *Sydney Development Control Plan 2012 – 4.4.1*.

Reason

To ensure the development operates as a boarding house use.

(11) RESTRICTION ON STRATA SUBDIVISION

In accordance with the provisions of Clause 52 of the *State Environmental Planning Policy (Affordable Rental Housing) 2009* and the *Sydney Development Control Plan 2012*, the co-living development cannot be strata subdivided.

Reason

To restrict subdivision of the site containing the co-living use.

(12) RESTRICTION ON CO-LIVING USE

The following restriction applies to the parts of the building approved for co-living use:

- (a) Level 1 & 2 must be used as co-living only.

Reason

To restrict the co-living use.

(13) WASTE AND RECYCLING MANAGEMENT - GENERAL

The proposal must comply with the relevant provisions of Council's *Guidelines for Waste Management in New Developments 2018* which requires facilities to promote the efficient storage, separation, collection and handling of waste to maximise resources recovery.

Reason

To ensure that waste and recycling is appropriately managed.

(14) ASSOCIATED ROADWAY COSTS

All costs associated with the construction of any new road works including kerb and gutter, road pavement, drainage system and footway shall be borne by the developer. The new road works must be designed and constructed in accordance with the City's "Sydney Streets Technical Specification" including amendments and "Sydney Streets Design Code".

Reason

To ensure all roadway works are designed and constructed in accordance with Council requirements.

(15) DILAPIDATION REPORT - PUBLIC DOMAIN

Prior to an approval for demolition and preparatory works being granted or the issue of any Construction Certificate, whichever is earlier, a photographic recording of the public domain site frontages is to be prepared as described in the Public Domain Manual and submitted for approval by Council's Public Domain Unit. The City's *Public Domain Manual* is available for download from the City's website at <https://www.cityofsydney.nsw.gov.au/>

The submission is to include written confirmation, issued with the authority of both the applicant and the photographer that the City of Sydney is granted a perpetual non-exclusive license to make use of the copyright in all images supplied, including the right to make copies available to third parties as though they were Council images. The signatures of both the applicant and the photographer must be included.

Reason

To establish and document the condition of the public domain for comparison as building work progresses and is completed.

(16) SURVEY INFRASTRUCTURE – IDENTIFICATION AND RECOVERY

Under Section 24 of the Surveying and Spatial Information Act 2002, it is an offence to remove, damage, destroy, displace, obliterate or deface any survey mark unless authorised to do so by the Surveyor-General. Accordingly, the applicant must, where possible, ensure the preservation of existing survey infrastructure undisturbed and in its original state or else provide evidence of the Surveyor-General's authorisation to remove or replace marks.

Prior to the issue of any Construction Certificate, documentary evidence must be prepared by a Registered Surveyor and submitted to and approved by Council's Area Planning Manager / Coordinator. This evidence must include either:

- (a) A copy of any Surveyor-General's Approval for Survey Mark Removal granted by NSW Spatial Services for the subject site, including all

documentation submitted as part of that application (for example the survey mark audit schedule, strategy plan and strategy report); or

- (b) A letter, signed by a current NSW Registered Land Surveyor and including his or her Board of Surveying and Spatial Information (BOSSI) identification number, stating that all investigations required under Surveyor-General's Direction No.11 have been made for the subject site and that no survey infrastructure will be affected by the proposal.

Council's Principal Surveyor may request further information and/or add conditions to any Surveyor-General's Approval at their discretion.

Reason

To ensure the preservation of existing survey infrastructure.

(17) PUBLIC DOMAIN LEVELS AND GRADIENTS - MAJOR

Prior to the issue of any Construction Certificate, a Public Domain Levels and Gradients submission for the building and site frontages must be submitted to and approved by the City's Public Domain Unit. The submission must be prepared in accordance with the City's *Public Domain Manual* and submitted with a completed Application for *Public Domain Levels and Gradients*. Information on how to complete the submission can be downloaded from the City's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>.

Any requirements to comply with Disability Discrimination Act at the entrance to a building or publicly accessible space must be resolved inside the site boundary.

Note: Public Domain Levels and Gradient plans are to be included with the Public Domain Plan – Detailed Documentation for Construction condition submission.

Reason

To ensure public domain levels and gradients comply with Council's requirements.

(18) STORMWATER AND DRAINAGE - MINOR DEVELOPMENT

The drainage system is to be constructed in accordance with the City's standard requirements as detailed in the City of Sydney's Stormwater Drainage Manual. The development is to be designed so that the flow of pollutants from the site due to stormwater is reduced.

The requirements of Sydney Water regarding the on-site detention (OSD) of stormwater must be ascertained and complied with. Evidence of the on-site detention (OSD) approval must be submitted to City's Public Domain Unit prior to issue of any Construction Certificate other than demolition.

Reason

To ensure the drainage system is constructed in accordance with Council's requirements.

(19) PUBLIC DOMAIN LIGHTING UPGRADE

Prior to issue of any Construction Certificate for excavation, civil construction, drainage or building work (whichever is earlier), a concept Public Domain Lighting Upgrade Plan for pedestrian and street lighting in the public domain must be submitted to and approved by City's Public Domain Unit. The Lighting Plan must be prepared in accordance with the *Sydney Streets Technical Specifications A5 and B8*, *Sydney Lights Design Code* and *Public Domain Manual*. This information is available for download from the City's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>.

The lighting upgrade plan must cover all adjacent street frontages, being Woolley St and St James Lane and shall be designed to include the following requirements luminaire upgrade works only.

Advice on site specific lighting requirements must be obtained from City's Public Domain Unit before proceeding with the preparation of any final lighting design proposals.

Reason

To ensure pedestrian and street lighting in the public domain complies with Council's requirements.

(20) PAVING MATERIALS

The surface of any material used or proposed to be used for the paving of colonnades, thoroughfares, plazas, arcades and the like which are used by the public must comply with AS/NZS 4586:2004 (including amendments) "Slip resistance classification of new pedestrian surface materials".

Reason

To ensure appropriate and safe paving materials are used.

(21) NO OBSTRUCTIONS

All public footways and paths of travel must be free from obstructions. If services are required to be relocated to clear paths of travel then this must be undertaken at the developer's expense. All obstructions are to be removed prior to the issue of any Occupation Certificate.

Reason

To ensure there are no obstructions on public footways and paths of travel.

(22) ARBORICULTURAL IMPACT ASSESSMENT

An Arboricultural Impact Assessment by a qualified Arborist with a minimum Australian Qualification Framework (AQF) of Level 5 and written in accordance with the Australian Standard AS 4970-2009 Protection of Trees on Development Sites (AS4970) must be provided that includes;

- (a) Identify and include correct botanical and common names of all trees within the proposed development site and also trees growing on the nature strip, road reserve, parks, gardens and neighbouring properties etc... outside the subject site (within a 5 metres radius) that are likely to be affected by the development
- (b) Tree numbers provided on a site plan. The plan must also include Structural Root Zone/s (SRZ) and Tree Protection Zone/s (TPZ) for any tree/s to be retained.
- (c) An assessment and discussion of the likely impacts the proposed development will have on the trees. This should include above and below ground constraints on trees that should be retained.
- (d) Recommendations of any design modifications, construction techniques and/or other protection methods required to minimise adverse impact on trees that should be retained during the demolition & construction works, and into the long term.
- (e) Information on the Arborist's involvement during the works is also required.
- (f) Details of the tree protection measures in accordance with AS4970-2009 Protection of trees on development site,
- (g) Details on the trunk protection (method / materials/ duration); and
- (h) Any other works that must be prohibited throughout construction and development on site.

Note - Important Information

- Removal must not be recommended for any tree that is located on adjoining properties (including Council land) unless written consent from the tree owner is obtained.
- Recommendations for tree removal must be based on arboricultural findings only. Removals where the reason given is to permit the proposed development will not be accepted.

Reason

To ensure that no existing trees are adversely impacted by the development.

PART B – BEFORE THE ISSUE OF A CONSTRUCTION CERTIFICATE

(23) SIGN DISPLAYING CONTACT DETAILS FOR THE CO-LIVING MANAGER

- (a) A sign must be placed in a clearly visible position at the co-living entrance displaying the name of the manager and mobile phone number. The signage text must be written in bold letters with a height of no less than 25mm on a contrasting background that can be read without entering the premises.
- (b) Details of the sign design, content and location within the site must be submitted to and approved by Council's Area Coordinator Planning Assessments or Area Planning Manager prior to the issue of a Construction Certificate.

Reason

To provide residents, staff, and Council with adequate contact details of the boarding house manager prior to operation.

(24) COMPLIANCE WITH THE ACOUSTIC REPORT PRIOR TO CONSTRUCTION AND OR OCCUPATION CERTIFICATES

- (a) All relevant performance parameters (including but not limited to requirements, engineering assumptions and recommendations) in the DA Acoustic Report prepared by *White Noise acoustics dated 09/11/2020 reference 20220_201109_Noise Impact Assessment_BW_R0*, Council Ref *TRIM 2022/255120*, must be implemented in the development prior to the commencement of its use.
- (b) Prior to the issue of any relevant Construction Certificate, the final construction drawings and final construction methodology must be assessed and reported to be in accordance with the requirements of the DA Acoustic Report in (a) above, with reference to relevant documentation. This must be done by a Suitably Qualified Acoustic Consultant* (see definition below). This work will be to the satisfaction of the accredited certifier.
- (c) Prior to the issue of any Occupation Certificate, a Suitably Qualified Acoustic Consultant* is to provide a written Acoustic Verification Report to the satisfaction of the Principal Certifier that the development complies with the requirements set out in the Report and in (a) and (b) above.

Note: Suitably Qualified Acoustic Consultant means a consultant who possesses the qualifications to join the Australian Acoustical Society, Institution of Engineers Australia (grade of member) or the Association of Australasian Acoustical Consultants (grade of member firm).

- (d) All physical aspects of the building's structure installed in order to meet performance parameters in accordance with this condition must be maintained at all times.

Reason

To ensure all parties are aware of the supporting documentation that applies to the development.

(25) MECHANICAL VENTILATION

- (a) The premises must be ventilated in accordance with the *Building Code of Australia* and *AS1668.1 and AS1668.2 - The Use of Ventilation and Air-conditioning in Buildings - Mechanical Ventilation in Buildings*.
- (b) Details of any mechanical ventilation and/or air conditioning system complying with *AS1668.1 and AS1668.2 - The Use of Ventilation and Air-conditioning in Buildings - Mechanical Ventilation in Buildings*, the *Building Code of Australia* and relevant Australian Standards must be prepared and certified in accordance with Clause A5.2(1)(e) of the *Building Code of Australia*, to the satisfaction of the Accredited Certifier prior to the issue of a Construction Certificate.
- (c) Prior to issue of any Occupation Certificate and following the completion, installation, and testing of all the mechanical ventilation systems, a Mechanical Ventilation Certificate of Completion and Performance in accordance with Clause A5.2(1)(e) of the *Building Code of Australia*, must be submitted to the Principal Certifier.

Reason

To ensure the ventilation complies with relevant standards.

(26) WASTE AND RECYCLING MANAGEMENT - COMMERCIAL

- (a) The Waste and Recycling Management Plan accompanying this Development Application has not been approved by this consent.
- (b) All requirements of the approved Waste and Recycling Management Plan must be implemented during construction and operation of the development and include:
 - (i) Dedicated space to be provided within the development for the storage and recycling of bulky waste, problem waste, strip out and food waste.
 - (ii) Collection points for waste and recycling must be wholly located within the boundary of the development.
 - (iii) The nominated waste and recycling storage areas must be constructed to meet the relevant conditions required by the City's *Guidelines for Waste Management in New Developments 2018*.
 - (iv) Provision and storage within the boundary of the development of waste and recycling receptacles and any bulky waste at all times.
 - (v) Commercial tenancies must have a commercial waste contract(s) in place prior to commencement of business trading.
 - (vi) The path of travel between the bin storage areas/bulky waste storage areas and the designated waste/recycling collection point is to have a

minimum 1,200mm wall-to-wall clearance, be slip-proof, of a hard surface, be free of obstructions and at no point have a gradient exceeding 1:14. The use of a lift is permitted, but consideration should be given to the inclusion of a service lift in this instance.

Note: The building manager/strata title manager or body corporate is responsible for ensuring all tenants are kept informed regarding Council's policies, and best practice waste and recycling source separation.

UPON COMPLETION OF THE DEVELOPMENT

- (c) Prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, the Principal Certifier must ensure that waste handling works have been completed in accordance with: the Waste and Recycling Management Plan; other relevant development consent conditions; and Council's *Guidelines for Waste Management in New Developments 2018*.

Reason

To ensure that waste and recycling is appropriately managed.

(27) WASTE AND RECYCLING MANAGEMENT - RESIDENTIAL

- (a) The building must incorporate designated areas or separate garbage rooms constructed in accordance with *Council's Guidelines for Waste Management in New Developments 2018*, to facilitate the separation of commercial waste and recycling from residential waste and recycling.
- (b) All nominated waste and recycling storage areas must be constructed to meet the relevant conditions required by Council's *Guidelines for Waste Management in New Developments 2018*.

UPON COMPLETION OF THE DEVELOPMENT

- (c) Prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, the Principal Certifier must obtain Council's approval of the waste and recycling management facilities provided in the development and ensure arrangements are in place for domestic waste collection by Council.

Reason

To ensure that waste and recycling is appropriately managed.

(28) SITE SUPERVISION AND REPORTING

- (a) An Arborist with minimum qualifications in Arboriculture of Level 5 (under the Australian Qualification Framework) must oversee various stages of work within the Tree Protection Zone of any tree listed for retention. The Arborist must certify compliance with each key milestone detailed below:
 - (i) The installation of tree protection measures prior to the commencement of any construction works;

- (ii) During demolition of any ground surface materials (pavers, concrete, grass etc.) within the Tree Protection Zone (TPZ) of any tree to be retained;
 - (iii) During any excavation and trenching within the TPZ which has been approved by Council;
 - (iv) During any Landscape works within the TPZ which has been approved by Council.
- (b) An Arboricultural Compliance Report which includes photographic evidence and provides details on the health and structure of tree/s must be submitted to and acknowledged by Council's Area Planning Coordinator | Area Planning Manager at each hold point listed below:
- (i) Certification that tree protection measures have been installed in accordance with these consent conditions;
 - (ii) Certification of compliance with each key milestone listed above within 48 hours of completion;
 - (iii) Details of any other works undertaken on any tree to be retained or any works within the TPZ which has been approved by Council.
- (c) A final compliance report must be submitted to and approved by Council's Area Planning Coordinator | Area Planning Manager prior to the issue of any Occupation Certificate.

Reason

To ensure the protection and ongoing health of trees on the site.

(29) BICYCLE PARKING AND END OF TRIP FACILITIES

- (a) The minimum number of bicycle parking spaces and end of trip facilities to be provided for the development must comply with the table below.

Bicycle Parking Type	Number	Requirements
Residential	13	Spaces must be a class 1 bicycle locker
Residential visitor	2	Spaces must be Class 3 bicycle rails

Notes:

- (i) If a basement storage area on title that is large enough to store a bike and is no smaller than a class 1 bike locker this can be counted as a space.
- (b) The layout, design and security of bicycle facilities must comply with the minimum requirements of Australian Standard AS 2890.3 Parking Facilities Part 3: Bicycle Parking Facilities. The details must be submitted to and approved by the Accredited Certifier confirming prior to and form part of the Construction Certificate being issued.

Reason

To ensure the allocation of bicycle parking is in accordance with Australian Standards and the Council's DCP.

PART C – BEFORE THE COMMENCEMENT OF BUILDING WORK

(30) PUBLIC DOMAIN WORK – CONSTRUCTION APPROVAL UNDER SECTION 138 ROADS ACT 1993

Prior to the construction of any public domain works, approval under Section 138 / 139 of the Roads Act 1993 must be issued by the City's Public Domain Unit.

Reason

To ensure relevant approvals for public domain work are obtained.

PART D – WHILE BUILDING WORK IS BEING CARRIED OUT

(31) HOURS OF WORK AND NOISE – OUTSIDE CBD

The hours of construction and work on the development must be as follows:

- (a) All work, including building/demolition and excavation work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg. Loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.30am and 5.30pm on Mondays to Fridays, inclusive, and 7.30am and 3.30pm on Saturdays, with safety inspections being permitted at 7.00am on work days, and no work must be carried out on Sundays or public holidays.
- (b) All work, including demolition, excavation and building work must comply with the City of Sydney Code of Practice for Construction Hours/Noise 1992 and Australian Standard 2436 – 2010 Guide to Noise Control on Construction, Maintenance and Demolition Sites.
- (c) Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on-site tower cranes which warrant the on-street use of mobile cranes outside of above hours can occur, subject to a separate application being submitted to and approved by Council under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Team, prior to works proceeding

The *City of Sydney Code of Practice for Construction Hours/Noise 1992* allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the *Environmental Planning and Assessment Act 1979*.

Reason

To protect the amenity of the surrounding area.

(32) CLASSIFICATION OF WASTE

Prior to the exportation of waste (including fill or soil) from the site, the waste materials must be classified in accordance with the provisions of the Protection of the *Environment Operations Act 1997* and the *NSW DECC Waste Classification Guidelines, Part1: Classifying Waste (July 2009)*. The classification of the material is essential to determine where the waste may be legally taken. The *Protection of the Environment Operations Act 1997* provides for the commission of an offence for both the waste owner and the transporters if the waste is taken to a place that cannot lawfully be used as a waste facility for the particular class of waste. For the transport and disposal of industrial, hazardous or Group A liquid waste advice should be sought from the EPA.

Reason

To ensure that waste from site is classified and disposed of appropriately.

(33) NOTIFICATION – NEW CONTAMINATION EVIDENCE

Council's Area Planning Manager and the Principal Certifier must be notified of any new information which comes to light during remediation, demolition or construction works which has the potential to alter previous conclusions about site contamination.

Reason

To ensure that the site is appropriately remediated.

(34) HAZARDOUS AND INDUSTRIAL WASTE

Hazardous and/or industrial waste arising from the demolition/operational activities must be removed and/or transported in accordance with the requirements of the NSW Work Cover Authority pursuant to the provisions of the following:

- (a) *Protection of the Environment Operations Act 1997*
- (b) *Protection of the Environment Operations (Waste) Regulation 2005*
- (c) *Waste Avoidance and Resource Recovery Act 2001*
- (d) *Work Health and Safety Act 2011*
- (e) *Work Health and Safety Regulation 2017.*

Reason

To ensure hazardous/ industrial waste is managed appropriately.

(35) PUBLIC DOMAIN PLAN DETAILED DOCUMENTATION FOR CONSTRUCTION

A detailed public domain plan and all relevant documentation must be submitted to and approved by City's Public Domain Unit prior to the construction of any public domain works. This Plan must document all works required to ensure that the public domain complies with the City of Sydney's *Public Domain Manual, Sydney Streets Code, Sydney Street Tree Masterplan, Sydney Lights Design Code and Sydney Streets Technical Specification*. The documentation must be *checked, accurate, and comply with specified requirements*. Plans must be based on an accurate survey, to scale and fully coordinated across all disciplines and submissions. The supplied documentation must be for Construction issue and will be approved under Section 138 of the Roads Act.

The Public Domain Manual and all other relevant documents are available for download from Council's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>.

The Public Domain Plan documentation must be submitted with an Application for Public Domain Plan Assessment and include the approved Public Domain Levels and Gradients documentation. If the proposed detailed design of the public domain requires changes to any previously approved levels an Application for Public Domain Levels and Gradients must be submitted to and approved by the City's Public Domain Unit to reflect these changes prior to an approval being issued for the construction of public domain work.

Reason

To ensure the public domain complies with Council's requirements.

(36) HOLD POINTS

Prior to an approval being issued for the construction of public domain and / or planning agreement works, including civil, drainage and subsurface works, a set of hold points will be provided by the City's Public Domain Unit in accordance with the City's Public Domain Manual and Sydney Streets Technical Specification. The list of hold point inspections will be included in the Public Domain works approval letter.

These hold point inspections must be adhered to during construction works. Prior to the issue of any Occupation Certificate, confirmation from the City's Public Domain Unit, that hold point inspections have been completed and works have been accepted by the City must be provided to the Principal Certifier.

Reason

To ensure hold points are adhered to during construction works.

(37) PUBLIC DOMAIN WORKS SECURITY BOND

A Public Domain Works Security Bond will be required for the public domain works and for repairing damage that may be caused to the public domain in the vicinity of the site, in accordance with the City of Sydney's adopted fees and charges and the Public Domain Manual.

The City's Public Domain Unit must be contacted to determine the bond amount prior to lodgement. The bond must be lodged with the City prior to an approval being issued for the approval of the Public Domain Plan.

The bond will be retained in full until all public domain works, including rectification of damage to the public domain, are completed to City's standards and approval and the required works-as-executed documentation are approved. On satisfying the above requirements, and the issue of the Public Domain Works Letter of Completion Operational Acceptance by the City, 90% of the bond will be released. The remaining 10% will be retained for the duration of the specified Defects Liability Period.

Reason

To ensure public domain works are completed and any damage to the public domain is rectified.

(38) PUBLIC DOMAIN DAMAGE SECURITY BOND

- (a) A Public Domain Damage Security Bond calculated on the [basis of 140 square metres of asphalt site frontage](#) must be lodged with the City in accordance with the City of Sydney's adopted fees and charges. The bond must be provided as security for repairing any damage to the public domain in the vicinity of the site.
- (b) The City's Public Domain Unit must be contacted to determine the bond amount prior to lodgement. The Bond must be lodged with the City prior to an approval for demolition being granted or any Construction Certificate being issued, whichever is earlier.
- (c) The bond in this condition will be released in full when the Final Occupation Certificate has been issued and any rectification works to the footway and Public Domain are completed to City's satisfaction. If rectification works are required the City will release 90% of the total Bond, with the remaining 10% balance to be held for the duration of a 6 months Defect Liability Period

(39) PROTECTION OF STONE KERBS

- (a) The existing stone kerbs on the [Woolley Street and St James Street \(western side\) frontages](#) of the site are to be retained and properly protected during demolition, excavation and construction works.
- (b) To avoid damage to stone kerbs during excavation and construction works for the development, temporary removal and storage of the stone kerbs may be approved by Council. Removed, serviceable stone kerbs (i.e. those that are in good condition as agreed by Council officers) must be re-installed in accordance with the City of Sydney's standard details and specifications after the construction works have been completed. A temporary concrete kerb will need to be constructed to retain the footpath until the stone kerbs can be reinstalled.
- (c) Note the following:
 - (i) all costs associated with the works are to be borne by the developer.
 - (ii) Damaged kerbs are to be replaced to match existing to Council's satisfaction or as otherwise advised by Council officers.
 - (iii) Where new vehicle crossings or temporary crossings are to be constructed to access the property, the affected kerb stones should be salvaged and reused wherever possible.
 - (iv) All new driveway laybacks and kerbs are to be constructed with stone kerbs to match existing stones or as specified by City officers.
 - (v) Council approval is required before kerbs are removed.
 - (vi) Council approval is required prior to the cutting of existing stone kerbs for stormwater kerb outlets.

- (vii) A bond may be required for stone kerbs and gutters in accordance with the City of Sydney's adopted Schedule of Fees and Charges. If so, this will be included with the Public Domain Damage Bond.

(40) DRAINAGE AND SERVICE PIT LIDS

All existing or proposed drainage and utility service pit lids throughout the public domain shall be to City of Sydney specifications and heel / bicycle safe, slip resistant, infill with material to match surrounding surface, finished flush with the adjacent pavement to avoid trip hazards and be clear of obstructions for easy opening and cleaning. Infill pit lids are to be detailed where specified by the Council's Public Domain Officer. Private pits are not permitted within the public domain. All details of pit lids must be shown on the public domain plan and must be approved by the City's Public Domain Unit prior to the issue of an approval for public domain works.

(41) TACTILE GROUND SURFACE INDICATORS AND HANDRAILS

All tactile ground surface indicators, handrails and other elements required to provide access into the building / property must be located entirely within the private property boundary.

(42) SURVEY

All footings, walls and floor slabs adjacent to a boundary must be set out by a registered surveyor. On commencement of brickwork or wall construction a survey and report, prepared by a Registered Surveyor, must be submitted to the Principal Certifier indicating the position of external walls in relation to the boundaries of the allotment. Any encroachments by the subject building over adjoining boundaries or roads must be removed prior to continuation of building construction work.

Reason

To ensure the development does not encroach onto neighbouring properties.

(43) TEMPORARY STRUCTURES (HOARDINGS, SCAFFOLDING AND OTHER STRUCTURES) INSTALLED ON PUBLIC ROADS THAT REQUIRE DEVELOPMENT CONSENT

The following forms of temporary structures (hoardings, scaffolding and other structures) proposed for installation on or above public roads and in connection with the construction of the approved development require Council approval (development consent):

- (a) Type B hoardings that span over roads such as laneways;
- (b) Type B hoardings that propose more than a single storey of site sheds installed on a hoarding deck;
- (c) Type A and Type B hoardings with or without scaffolding that project beyond the side boundaries of adjoining properties;
- (d) fenced work compounds at roadway/footway level;

- (e) hoardings/scaffolding associated with works on heritage-listed buildings; or
- (f) any other large and/or potentially high environmental impact temporary structures, as determined by Council.

A separate development application must be submitted and approved by Council prior to the installation of any temporary structure listed above.

Reason

To ensure approval is sought for installation of temporary structures on public roads.

(44) COMPLIANCE WITH ARBORIST'S REPORT

- (a) All recommendations Tree Protection Plans and Methodology Statements contained in the approved Arboricultural Impact Assessment Report required under condition 22 must be implemented during the demolition, construction and use of the development.

Reason

To ensure that works affecting trees are carried out in an appropriate manner and in accordance with the approved arborist's report.

(45) TREE PROTECTION PLANS

All detailed architectural, building, engineering (structural, stormwater and drainage services) and landscape documentation submitted for the Construction Certificate shall clearly show on all drawings the retention of trees as required by these conditions of consent, the position of their trunks, full diameter of their canopies, Structural Root Zones (SRZs) and Tree Protection Zones (TPZs).

Reason

To ensure the protection and ongoing health of trees.

(46) TREE PRUNING SPECIFICATION

- (a) A 'Pruning Specification Report' prepared by a qualified Arborist (minimum AQF Level 5) must be submitted to and approved by Council's Area Planning Manager prior to the issuing of the Construction Certificate. The report must include:
 - (i) Number of branches and orientation, branch diameter, percentage of canopy to be pruned/removed.
 - (ii) Photos with individual branches which are recommended for pruning/removal to be clearly marked. (Please note reports which include photos with a single vertical line as the area recommended for pruning will not be accepted).
 - (iii) A maximum of 10% canopy removal and maximum of 100mm diameter branches will be permitted by Council.

- (iv) Pruning work must be specified in accordance with *Australian Standard 4373–2007, Pruning of Amenity Trees*.
- (v) Tree removal must not be recommended in this report.
- (b) All approved tree pruning works must be carried out by a qualified Arborist, with a minimum Level 3 AQF in arboriculture and in accordance with WorkCover's Code of Practice – Amenity Tree Industry.
- (c) Any pruning works carried out under this consent must not result in the death of the tree, the creation of a hazard or in excessive or inappropriate amounts of pruning, which result in the overall shape of the tree becoming unbalanced and/or unstable.
- (d) This consent does not authorise the applicant, or the contractor engaged to do the tree works to enter a neighbouring property.
- (e) All tree works must be undertaken from within the subject property unless consent from the neighbour is obtained to enter their property.
- (f) The consent from Council's Tree Management Officer must be obtained prior to the undertaking of any additional tree pruning works or pruning of any tree roots greater than 40mm in diameter.

Reason

To ensure that pruning works to trees are carried out in an appropriate manner.

PART E – BEFORE THE ISSUE OF AN OCCUPATION CERTIFICATE

(47) HEALTH DATABASE REGISTRATION

The business is to be registered with Council's Health and Building Unit prior to the issue of any Occupation Certificate. Registration forms are available on Council's website www.cityofsydney.nsw.gov.au or by calling Council's Health Unit on 02 9265 9333.

Reason

To provide Council with adequate details of the boarding house use prior to operation.

(48) ACCOMMODATION - REGISTRATION AND CARETAKER

Prior to the issuing of any Occupation Certificate, Council's Health and Building Unit must be advised in writing of the business name, address, owner or company name, 24 hour contact details for the site manager, and the number of occupants approved for the premises. A caretaker/manager must be contactable 24 hours a day.

Reason

To provide Council with adequate details of the boarding house use prior to operation.

(49) ASBESTOS REMOVAL WORKS

- (a) All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with Safework NSW, holding either a Friable (Class A) or a Non-Friable (Class B) Asbestos Removal Licence which ever applies.

A copy of the relevant licence must be made available to any authorised Council officer on request within 24 hours.

- (b) Five days prior to the commencement of licensed asbestos removal, Safework NSW must be formally notified of the works. All adjoining properties and those opposite the development must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification must identify the licensed asbestos removal contractor and include a contact person for the site together with telephone number and email address.
- (c) All work must be carried out in accordance with the *Work Health and Safety Regulation 2017* and the NSW Government and SafeWork NSW document entitled *How to manage and control asbestos in the work place: Code of Practice (Safework NSW) December 2011* and the *City of Sydney Managing Asbestos Policy dated 21 October 2013 and associated guidelines*.
- (d) The asbestos removalist must use signs and barricades to clearly indicate the area where the asbestos removal work is being performed. Signs must

be placed in positions so that people are aware of where the asbestos removal work area is and should remain in place until removal is completed and clearance to reoccupy has been granted. Responsibilities for the security and safety of the asbestos removal site and removal must be specified in the asbestos removal control plan (where required). This includes inaccessible areas that are likely to contain asbestos.

- (e) Warning signs must be placed so they inform all people nearby that asbestos removal work is taking place in the area. Signs must be placed at all of the main entry points to the asbestos removal work area where asbestos is present. These signs must be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs must be in accordance with AS 1319 -1994 *Safety Signs for the Occupational Environment* for size, illumination, location and maintenance.
- (f) Asbestos waste must only be transported and disposed of at an EPA licensed waste facility.
- (g) No asbestos products are to be reused on the site (i.e. packing pieces, spacers, formwork or fill etc).
- (h) No asbestos laden skips or bins are to be left in any public place without the written approval of Council.
- (i) A site notice board must be located at the main entrance to the site in a prominent position and must have minimum dimensions of 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size.

The site notice board must include the following:

- (i) contact person for the site;
- (ii) telephone and facsimile numbers and email address; and
- (iii) site activities and time frames.

Reason

To ensure that the handling and removal of asbestos from the site is appropriately managed.

(50) WASTE AND RECYCLING COLLECTION CONTRACT

Prior to any Occupation Certificate being issued, the building owner must ensure that there is a contract with a licensed contractor for the removal of **all waste**. Waste is to be stored and collected from within the curtilage of the site at all times.

Reason

To ensure that waste and recycling is appropriately managed.

(51) PUBLIC DOMAIN WORKS COMPLETION

The Public Domain works are to be constructed in accordance with the Public Domain Works Approval letter, stamped plans for Public Domain Levels and Gradients, Stormwater, Public Domain Lighting, the City's *Public Domain Manual*, *Stormwater Drainage Manual*, *Sydney Lights Design Code* and *Sydney Streets Technical Specification*.

The public domain work must be inspected and a Public Domain Work Letter of Completion Operational Acceptance must be issued by Council's Public Domain Officer prior to the issue of any Occupation Certificate or before the commencement of use, whichever is earlier.

Reason

To ensure the public domain works are completed in accordance with the approved documents and Council's requirements.

(52) PUBLIC DOMAIN COMPLETION – WORK AS EXECUTED DOCUMENTATION

Prior to a Public Domain Works Letter of Completion Operational Acceptance being issued for public domain works, works-as-executed (As-Built) plans and documentation, must be submitted to and accepted by the City of Sydney for all public domain works, including where required Stormwater, Public Domain Lighting and road construction. These works must be certified by a suitably qualified, independent professional. Details of the documentation required for approval will be advised by the City's Public Domain Unit.

Reason

To ensure Council receives works-as-executed documentation for public domain works.

(53) SURVEY INFRASTRUCTURE – RESTORATION

- (a) Prior to any Occupation Certificate being issued for the development, documentary evidence of restoration must be prepared by a Registered Surveyor and submitted to and approved by Council's Area Planning Manager / Coordinator. This evidence must include:
 - (i) Certification that all requirements requested under the Surveyor-General's Approval for Survey Mark Removal or by the City's Principal Surveyor under condition "Survey Infrastructure – Identification and Recovery" have been complied with;
 - (ii) Certification that all requirements requested under any Surveyor-General's Approval for Deferment of Survey Marks from condition "Survey Infrastructure – Pre Subdivision Certificate works" have been complied with and;
 - (iii) Time-stamped photographic records of all new survey infrastructure relating to the site clearly showing the mark itself and sufficient context to aid in identifying the mark on site.

Reason

To ensure all requirements for survey mark removal are complied with.

(54) ENCROACHMENTS – NEIGHBOURING PROPERTIES

No portion of the proposed structure shall encroach onto the adjoining properties.

Reason

To protect neighbouring properties.

(55) ENCROACHMENTS – PUBLIC WAY

No portion of the proposed structure, including gates and doors during opening and closing operations, shall encroach upon Council's footpath area.

Reason

To protect the public way.

(56) SURVEY CERTIFICATE AT COMPLETION

A Survey Certificate prepared by a Registered Surveyor must be submitted to the Principal Certifier at the completion of the building work certifying the location of the building in relation to the boundaries of the allotment.

Reason

To ensure the development does not encroach onto neighbouring properties.

(57) ADVANCE TREE PLANTING

Tree planting within the property must be undertaken in accordance with the following conditions, and to Council's satisfaction, prior to the issuing any Occupation Certificate.

- (a) New trees shall be planted in accordance with the approved Landscape Plans
- (b) The tree must be grown to Australian Standard 2303:2015 'Tree stock for landscape use'
- (c) At the time of planting, the container size is to be a minimum of 100 litres and a minimum height of 3.5 metres.
- (d) New trees must be planted in natural ground with adequate soil volumes to allow maturity to be achieved. Planter boxes will not be accepted for tree planting;
- (e) New trees must be appropriately located away from existing buildings and structures to allow maturity to be achieved without restriction;

- (f) The tree must be planted by a qualified Horticulturalist or Arborist of Level 2 under the Australian Qualifications Framework (AQF).
- (g) The replacement planting/s must be planted in such a manner as to promote good health during the establishment period, and must be maintained, as far as practicable to ensure tree growth into maturity.
- (h) Written confirmation is to be obtained from Council's Area Planning Manager that all tree planting/s have been completed to Council's satisfaction (excluding tree maintenance) prior to the issue of an Occupation Certificate.
- (i) Any newly planted tree that fails to establish within 2 years of the initial planting date must be replaced with a tree of comparable qualities.

Reason

To ensure the provision and maintenance of adequate tree planting on site.

PART F – OCCUPATION AND ONGOING USE

(58) OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

Reason

To ensure the site is authorised for occupation.

(59) USE OF COMMUNAL OPEN AREAS

The use of the communal open areas are restricted to between 7am to 8pm.

Reason

To ensure use of the communal open areas does not result in adverse amenity impacts.

(60) PLAN OF MANAGEMENT

The use must always be operated / managed in accordance with the Plan of Management, titled “St James Catholic Church Parish Hall – Co-Living Housing Project” that has been approved by Council. In the event of any inconsistency, the conditions of this consent will prevail over the Plan of Management.

Reason

To ensure all parties are aware of the approved supporting documentation that applies to the development.

(61) ANNUAL FIRE SAFETY STATEMENT FORM

An annual Fire Safety Statement must be given to Council and Rescue NSW commencing within 12 months after the date on which the initial Interim/Final Fire Safety Certificate is issued or the use commencing, whichever is earlier.

Reason

To ensure annual checks on fire safety measures.

(62) NOISE – COMMERCIAL PLANT / INDUSTRIAL DEVELOPMENT

- (a) Noise from commercial plant and industrial development must not exceed a project amenity/intrusiveness noise level or maximum noise level in accordance with relevant requirements of the NSW EPA [Noise Policy for Industry 2017 \(NPfI\)](#) unless agreed to by the City’s Area Planning Manager. Further:

- (i) Background noise monitoring must be carried out in accordance with the long-term methodology in [Fact Sheet B](#) of the NPfI unless otherwise agreed by the City's Area Planning Manager.
 - (ii) Commercial plant is limited to heating, ventilation, air conditioning, refrigeration and energy generation equipment.
- (b) An $L_{Aeq,15 \text{ minute}}$ (noise level) emitted from the development must not exceed the $L_{A90, 15 \text{ minute}}$ (background noise level) by more than 3dB when assessed inside any habitable room of any affected residence or noise sensitive commercial premises at any time. Further:
- (i) The noise level and the background noise level must both be measured with all external doors and windows of the affected residence closed.
 - (ii) Background noise measurements must not include noise from the development but may include noise from necessary ventilation at the affected premise.
- (c) Corrections in [Fact Sheet C](#) of the NPfI are applicable to relevant noise from the development measured in accordance with this condition, however duration corrections are excluded from commercial noise.

Reason

To protect the acoustic amenity of surrounding properties.

(63) NO SPEAKERS OR MUSIC OUTSIDE

Speakers and/or noise amplification equipment must not be installed and music must not be played in any of the outdoor areas associated with the premises including the public domain. Speakers located within the premises must not be placed so as to direct the playing of music towards the outdoor areas associated with the premises.

Reason

To safeguard the amenity of the surrounding neighbourhood.

(64) NO SPRUIKING NOISE

No persons (such as those commonly known as spruikers) or recordings or other devices which have the effect of spruiking are to be located on Council owned property. Furthermore, the sound level of any spruiking generated within privately owned land must not be audible on any adjacent property with a shared boundary.

Reason

To safeguard the amenity of the surrounding neighbourhood.

(65) WASTE/RECYCLING COLLECTION

- (a) Waste storage and the collection of waste and recycling must only occur during the designated zone collection times as outlined in the City's Waste Policy – Local Approvals Policy for Managing Waste in Public Places 2017.
- (b) Waste and recycling bins must not be placed on the street for collection. Services must be conducted within the property boundary or as a wheel-out/wheel-back service.
- (c) Unimpeded access must be provided for collection vehicles to set down within 10 metres of waste storage areas during zone collection times on collection days.

Reason

To ensure that waste and recycling is appropriately managed.

(66) DEFECTS LIABILITY PERIOD – PUBLIC DOMAIN WORKS

All works to the City's public domain, including rectification of identified defects, are subject to a 6 month defects liability period from the date of Completion. The date of Completion will be nominated by Council on the Public Domain Works – Letter of Completion Operational Acceptance.

Reason

To ensure all works to the City's public domain are protected under a liability period.

SCHEDULE 2

PRESCRIBED CONDITIONS

The prescribed conditions in accordance with Division 8A of the *Environmental Planning and Assessment Regulation 2021* apply:

- Clause 69 Compliance with *National Construction Code* (previously known as *Building Code of Australia*) and insurance requirements under the *Home Building Act 1989*
- Clause 70 Erection of signs
- Clause 71 Notification of *Home Building Act 1989* requirements
- Clause 72 Conditions relating to entertainment venues
- Clause 73 Conditions relating to maximum capacity signage
- Clause 74 Conditions relating to shoring and adequacy of adjoining property

Refer to the NSW State legislation for full text of the clauses under Division 2 conditions of the *Environmental Planning and Assessment Regulation 2021*. This can be accessed at: <http://www.legislation.nsw.gov.au>
