Advice

Advice will be updated after the meeting.

Background

The City is committed to providing dedicated parking for car sharing across the Local Government Area as part of a Council approved Car Share Policy. A submission has been received from GoGet for a car share space in Foundry Street, Erskineville, south of Ashmore Street.

Comments

The kerb space on the eastern side of Foundry Street, Erskineville south of Ashmore Street, is currently signposted as "2P 8am-10pm".

The car share space will be installed and managed in accordance with the Transport for NSW Technical Direction 2018/001 and the provisions of the Council-approved Car Share Policy.

Car sharing is popular in more than 600 cities worldwide, and research has shown substantial environmental benefits. Car sharing reduces total urban driving, reduces household vehicle holdings, and increases walking, cycling and public transport use.

Car sharing can provide numerous environmental and transportation benefits. It is an alternative to owning a car where public transport, walking, and cycling can be used most of the time and a car is only necessary for long distance trips, moving large items, or special occasions. Car share members typically take fewer trips by car after becoming an active car share member. This means their total mileage driven and use of fuel decreases which also means fewer carbon emissions and less traffic congestion.

On average, each car share vehicle in the City can replace up to 12 private vehicles that would otherwise compete for parking.

Consultation

The City consulted local residents and businesses in the area. There were 450 letters sent out with one response supporting the proposal and no responses opposing the proposal.

Financial

All costs associated with the Car Share space installation will be borne by the Applicant.

HASSAN CHOUDHRY, SENIOR TRAFFIC ENGINEER
