Licence No: 0051906031

ROAD CLOSURE CLOSURE & PEDESTRIAN MANAGEMENT

This traffic control plan is drawn to AS1742.3. It is to be implemented as such. This traffic plan is a GUIDE ONLY and can be altered on site but must be approved by the relevant authority. Approach speeds up to 50km/h are assumed. All signs should be placed to the left of the work area unless otherwise stated. The use of traffic cones and other traffic control devices is at the discretion of the traffic controller. If a contractor's traffic controller is to be employed, they must be trained and certified to AS1742.3.
