**Advice**

Advice will be updated after the meeting

**Background**

The City's Inclusion (Disability) Action Plan 2021-2025 (IDAP) includes a series of actions designed to actively address barriers faced by people with disability.

One of the actions identified in the IDAP is to "continue to explore and implement strategies to increase access to on-street and off-street accessible parking and drop off points in the City of Sydney area".

Therefore, the City is proposing to install "4P Mobility Parking Only 8am-10pm" in Beaconsfield Street, Beaconsfield.

## Comments

Beaconsfield Street, Beaconsfield west of Botany Road is designated for two-way traffic flow with an approximate width of 14 metres, with parking on both side of Beaconsfield Street. The road and footway grades are generally flat adjacent to the proposed parking space.

The southern side of Beaconsfield Street, where the changes are proposed, is currently unrestricted parking.

In line with the actions recommended in the IDAP, it is proposed to introduce "4P Mobility Parking Only 8am-10pm".

The proposed parking changes would limit any vehicle with a NSW Mobility Parking Scheme permit to four hours of parking between 8am-10pm seven days a week where the signs are installed.

Under existing conditions, the trafficable lane for two-way traffic flow to an approximate width of 9.8 metres. The remaining width is allocated for on-street parking.

Footpaths (approximately 3.7 metres wide) are provided on both sides of the street.

The Australian Standard for on-street mobility parking (AS 2890.5 – 2020) requires spaces to be 7.8 metres long and 3.2 metres wide.

A 7.8 metre long bay is proposed however with consideration for the constrained width of Beaconsfield Street, the 3.2 metre bay width cannot be accommodated either within the carriageway or the adjacent footpath. However as Beaconsfield Street is designated for two-way traffic flow and has very low traffic volumes, low vehicle speed and only provides local access then the requested mobility space can be provided with reduced dimensions.

The City's Inclusive and Accessible Public Domain Guidelines notes that not every designated on street mobility parking space provided for residential use needs to comply with the requirements of the Australian Standard.

The City will investigate installing ramps at this site should the proposal be endorsed.

## Consultation

The City consulted local residents and businesses in the area. There were 379 letters sent out with no responses supporting or opposing the proposal.

## Financial

Funds are available in the current budget.
