

Attachment A

Recommended Conditions of Consent

GENERAL CONDITIONS

(1) APPROVED DEVELOPMENT

- (a) Development must be in accordance with Development Application No. D/2022/1343 dated 22 December 2022 and the following drawings prepared by Hill Thalys Architecture & Urban Projects Pty Ltd:

Drawing Number	Drawing Name	Date
2.004 Rev C	Demolition Plan	13/09/2023
2.003 Rev B	Development Strategy	13/12/2022
2.100 Rev G	Basement Plan	11/09/2023
2.101 Rev G	Ground Floor Plan	11/09/2023
2.102 Rev F	Level 1 Floor Plan	11/09/2023
2.103 Rev D	Level 2 Floor Plan	11/09/2023
2.104 Rev D	Level 3 Floor Plan	11/09/2023
2.105 Rev D	Level 4 Floor Plan	11/09/2023
2.106 Rev D	Upper Floor Plan (L5)	11/09/2023
2.107 Rev D	Roof Plan	11/09/2023
2.201 Rev D	Mary St Elevation (East)	11/09/2023
2.202 Rev D	Hands Lane Elevation (West)	11/09/2023
2.301 Rev D	Section A – East West 17-19	11/09/2023
2.303 Rev D	Section B – East West 5-15	11/09/2023
2.303 Rev D	Section C – North South (Courtyard)	11/09/2023
5.002 Rev B	Proposed Signage	13/12/2022

and as amended by the conditions of this consent.

- (b) In the event of any inconsistency between the approved plans and supplementary documentation, the drawings will prevail.

Reason

To ensure all parties are aware of the approved plans and supporting documentation that applies to the development.

(2) CONSTRUCTION STAGING

- (a) The works may be carried out in stages with the relevant conditions being satisfied prior to the issue a of construction certificate for stage as outlined in the table below:

Stage:	Works:
1	Demolition works
2	Subdivision of site into 2 lots
3a	Construction of the new Foster House (new Lot created via Stage 2) otherwise known as 5-15 Mary Street
3b	Construction of the mixed-use development (new Lot created via Stage 2) otherwise known as 17-19 Mary Street

(3)

- (a) Various conditions in this consent make reference to the requirements of conditions and the stage in which they may be satisfied.
- (b) Stage 3a or 3b may occur in any sequence (ie. Stage 3b can proceed before 3a).

(4) DESIGN MODIFICATIONS

The design of the rooftop common open space at 17-19 Mary Street must be modified as follows:

- (a) Ballast along the edges of the common open space to be replaced with 1m deep planter beds that forms the balustrade to the terrace; and
- (b) The new planter bed is to incorporate a small tree planting with a mature canopy size of 4-6m.

The modifications are to be submitted to and approved by Council's Area Planning Manager Planning Assessments prior to the issue of Stage 3B Construction Certificate.

Reason

To require amendments to the approved plans and supporting documentation following assessment of the development.

(5) ADDITIONAL DETAILS REQUIRED – FACADE DETAILING AT GROUND

Additional 1:20 scale minimum details to demonstrate high-quality and facade integration and material quality equivalent with the facade, including:

- (a) Both garage doors fronting Hands Lane, which are recommended to be a high quality panel lift doors;
- (b) Cold water meter cabinet facing Hands Lane;
- (c) Fire hydrant booster valve cabinets x 2 facing Mary Street;
- (d) Fire egress doors facing Mary Street and Hands Lane;
- (e) Retail and lobbies glazing detailing to Hands Lane and Mary Street; and
- (f) Substation facing Hands Lane.

The required information must include detailed material, finishing, spacing, elemental sizing details. The information submitted should show a level of detail equivalent for Construction detailing. The information, relevant to the Construction Staging, is to be submitted to and approved by Council's Area Coordinator Planning Assessments / Area Planning Manager prior to the issue of both the Stage 3a and 3b Construction Certificates.

Reason

To demonstrate improved design outcomes adjacent the public domain.

(6) ADDITIONAL DETAILS REQUIRED – FOOTPATH AWNINGS

1:50 scale minimum plans, and section details to demonstrate the awnings' compliance with Section 3.2.4 (Footpath awnings) of Sydney DCP 2012, and be of high-quality design and facade integration and material quality including:

- (a) Structure;
- (b) Roofing, gutter and integrated downpipes;
- (c) Materials and finishes.

- (7) The information submitted should show a level of detail equivalent for Construction detailing. The information, relevant to the Construction Staging, is to be submitted to and approved by Council's Area Coordinator Planning Assessments / Area Planning Manager prior to the issue of both the Stage 3a and 3b Construction Certificates.

Reason

To demonstrate improved design outcomes adjacent the public domain.

(8) ADDITIONAL DETAILS REQUIRED – STORMWATER MANAGEMENT

The stormwater design is to be amended as follows:

- (a) Demonstrate that the emergency overflow discharge point is above the flood level;
- (b) The basement pump-out discharge shall be directed to the stormwater quality chamber for Site 1 (5-15 Mary Street) and the rainwater tank for Site 2 (17-19 Mary Street);

- (c) Illustrate connections from both sites to the new kerb inlet pit “1/1” in a longitudinal section. The connections shall be shown from the rainwater tank for Site 2 and separately from the stormwater quality chamber for Site 1;
- (d) Each connection to the new kerb inlet pit shall demonstrate gravity discharge and a minimum RCP-sized pipeline to accommodate maximum flow. Maximum discharge flow shall be limited to downstream conditions. The downstream capacity must not be increased by more than 10% for both/combined discharges;

The modifications are to be submitted to and approved by Council’s Area Planning Manager prior to the issue of Stage 1 Construction Certificate.

Reason

To ensure stormwater drainage design complies with Council’s requirements.

(9) AFFORDABLE HOUSING CONTRIBUTION – RESIDUAL LAND OR CENTRAL SYDNEY – PAYMENT IN LIEU OF FLOOR SPACE CONTRIBUTION – PRIOR TO CONSTRUCTION CERTIFICATE

- (a) In accordance with the City of Sydney Affordable Housing Program and prior to the issue of any Construction Certificate, the applicant must provide evidence that a monetary contribution towards the provision of affordable housing has been paid to the City of Sydney Council.
- (b) The contribution is \$381,292.9 (indexed in accordance with (c)). This is calculated by establishing the sum of the equivalent monetary contribution \$ 10,611.53 multiplied by 1% of the total floor area for non-residential development (696.7sqm) and the equivalent monetary contribution \$10,611.53 multiplied by 3% of the total floor area for residential development (965.5sqm).
- (c) If the contribution is paid after the indexation period in which the consent is granted, being March 2023 to February 2024, the above contribution will be adjusted according to the Sydney LGA median strata dwelling price (‘MDP’) using the following formula.
- (d) Contribution payable at Time of Payment = $C \times MDP2 / MDP1$, where:
 - (i) C is the original total contribution amount payable to the City of Sydney as shown above;
 - (ii) MDP2 is the Median Strata Dwelling Price in Sydney LGA taken from the most recent NSW Government Rent and Sales Report at the time of indexation of the equivalent monetary contribution rate; and
 - (iii) MDP1 is the Median Strata Dwelling Price in Sydney LGA taken from the NSW Government Rent and Sales Report used to establish the current equivalent monetary contribution rate, being 1 March 2023 to 29 February 2024.

Contact Council’s Planning Assessment Unit at planningsystemsadmin@cityofsydney.nsw.gov.au for written confirmation of the amount payable, with indexation as necessary, prior to payment.

Reason

To ensure development contributions are paid to contribute to the provision of essential affordable rental housing infrastructure.

(10) SECTION 7.12 CONTRIBUTIONS PAYABLE – SUBMITTED AND VERIFIED PRIOR TO ISSUE OF CONSTRUCTION CERTIFICATE

A monetary contribution is payable to the City of Sydney pursuant to Section 7.12 of the *Environmental Planning and Assessment Act 1979* and the *Central Sydney Development Contributions Plan 2020*.

The Section 7.12 levy is determined by the development cost, as per the following table:

Development cost *	Levy
* Refer to Section 2.3 of the <i>Central Sydney Development Contributions Plan 2020</i> for information on determining the development cost.	
Up to and including \$250,000	NIL
More than \$250,000, up to and including \$500,000	1%
More than \$500,000, up to and including \$1,000,000	2%
More than \$1,000,000	3%

The Section 7.12 levy is payable to the City of Sydney in accordance with the following:

- (a) Prior to any Construction Certificate being issued, evidence must be provided of Council's written verification of the amount of the contribution as required in (b) below, and that the levy has been paid to the Council in accordance with this condition. Payment may be by EFTPOS (debit card only), CASH or a BANK CHEQUE made payable to the City of Sydney. Direct debit, personal or company cheques will not be accepted.
- (b) The contribution must not be paid to the City of Sydney until it is accompanied by separate written verification by the City of Sydney of the specific amount payable. In order to obtain such verification, one of the following must be submitted:
 - (i) **For development between \$250,000 and \$3,000,000** – the City of Sydney *Cost Summary Report* must be completed by a suitably qualified person such as the Project Architect or Project Manager and submitted to the City of Sydney together with the copies of the plans

the subject of the application for the Construction Certificate. An electronic copy of the *Cost Summary Report* is available from the City's website at www.cityofsydney.nsw.gov.au; or

- (ii) **For development more than \$3,000,000** – The City of Sydney *Registered Quantity Surveyor's Detailed Cost Report* must be completed by a Quantity Surveyor registered with the Australian Institute of Quantity Surveyors or a person who can demonstrate an equivalent qualification and submitted to the City of Sydney together with the copies of the plans the subject of the application for the Construction Certificate. An electronic copy of the *Registered Quantity Surveyor's Detailed Cost Report* is available from the City's website at www.cityofsydney.nsw.gov.au.
- (c) The Council will consider the documentation submitted under subclause (b) and determine the cost of the proposed development having regard to the information submitted and to such other matters as it considers appropriate and will notify the Registered Certifier accordingly.
- (d) The development cost is to be determined in accordance with Section 2.3 of the Central Sydney Development Contributions Plan 2020, located in the version in force at the date of the grant of this consent.

Please contact Council's Planning Administration staff at Planningsystemsadmin@cityofsydney.nsw.gov.au to request a written Statement of Contributions Owing, prior to payment.

Reason

To ensure development contributions are paid to address the increased demand for public facilities, amenities, and services in Central Sydney by a growing residential and workforce population.

(11) BUILDING HEIGHT

- (a) The height of the building must not exceed RL 38.85 (AHD) to the top of the building (including roof plant and lift overrun).
- (b) Prior to the relevant Occupation Certificate being issued, a Registered Surveyor must provide certification that the height of the building accords with (a) above, to the satisfaction of the Principal Certifier.

Reason

To ensure the constructed development complies with the approved height.

(12) FLOOR SPACE RATIO - ALL OTHER AREAS

The following applies to Floor Space Ratio:

- (a) The Floor Space Ratio for 5-15 Mary Street must not exceed 2.9:1. For the purpose of the calculation of FSR, the Gross Floor Area is 3,029.4sqm.
- (b) The Floor Space Ratio for 17-19 Mary Street must not exceed 3.32:1. For the purpose of the calculation of FSR, the Gross Floor Area is 1,117.6sqm.

- (c) Prior to the relevant Occupation Certificate being issued, a Registered Surveyor must provide certification of the total and component Gross Floor Areas (by use) in the development, utilising the definition under Sydney Local Environmental Plan 2012, applicable at the time of development consent, to the satisfaction of the Principal Certifier.

Reason

To ensure the constructed development complies with the approved floor space ratio.

(13) USE - SEPARATE DA REQUIRED

No consent is granted or implied for the fitout or specific use of each individual commercial / retail tenancy.

A development consent or Complying Development Certificate (as appropriate) is required to be obtained for the fitout and use of each individual tenancy prior to that fitout or use commencing.

Reason

To require separate consent to be obtained for a use.

(14) APPROVED DESIGN ROOF - TOP PLANT

All roof-top plant and associated equipment must be located within the approved building envelope.

Reason

To ensure the constructed development complies with the approved height.

(15) ALLOCATION OF ACCESSIBLE CAR PARKING SPACES

For residential development, accessible car parking spaces for people with mobility impairment are only to be allocated as visitor parking or to adaptable units. Where allocated to adaptable units, the unit(s) and car spaces must be assigned to the unit in any future strata subdivision of the building.

Reason

To ensure accessible vehicle parking spaces are allocated to adaptable units.

(16) VEHICLE FOOTWAY CROSSING

A separate application is to be made to, and approved by, Council for the construction of any proposed vehicle footway crossing or for the removal of any existing crossing and replacement of the footpath formation where any such crossings are no longer required.

All disused or redundant vehicle crossings and laybacks must be removed and footway, kerb, gutter and road restoration reinstated in accordance with Council's standards, to suit the adjacent finished footway and edge treatment materials, levels and details, or as otherwise directed by Council officers. All construction and replacement works are to be completed in accordance with the approved plans prior to the issue of any Occupation Certificate.

Note: In all cases the construction materials should reinforce the priority of pedestrian movement over that of the crossing vehicle.

Reason

To ensure all relevant approvals for traffic and parking works are obtained and designed in accordance with Council requirements.

(17) SERVICE VEHICLE SIZE LIMIT

The size of vehicles servicing the property must be a maximum length of 5.2m.

Reason

To maintain the orderly operation of vehicle parking and loading areas.

(18) ASSOCIATED ROADWAY COSTS

All costs associated with the construction of any new road works including kerb and gutter, road pavement, drainage system and footway shall be borne by the developer. The new road works must be designed and constructed in accordance with the City's "Sydney Streets Technical Specification" including amendments and "Sydney Streets Design Code".

Reason

To ensure all roadway works are designed and constructed in accordance with Council requirements.

(19) COST OF SIGNPOSTING

All costs associated with signposting for any kerbside parking restrictions and traffic management measures associated with the development shall be borne by the developer.

Reason

To ensure all associated roadway works costs are borne by the developer.

(20) SWINGING DOORS OVER PUBLIC WAY

Any access doors to enclosures housing building services and facilities, such as hydrant and sprinkler booster assemblies or the like, must not open over the footway/roadway.

Reason

To ensure no element of the development obstructs the use of the public way.

(21) PUBLIC ART

Public art must be installed to the City's satisfaction prior to the issue of Stage 3a Occupation Certificate.

- (a) The public artwork must be in accordance with the *Sydney DCP 2012*, the *Public Art Policy*, and the *Interim Guidelines: Public art in private developments*.
- (b) A Detailed Public Art Plan with final details of the proposed public artwork must be submitted to and approved by Council's Area Planning Manager prior to issue of any Construction Certificate for above ground works.
- (c) Public artwork must be installed to the City's satisfaction, inspected and approved and the Final Public Art Report submitted and approved by Council's Area Planning Manager prior to the issue of Stage 3a Occupation Certificate.

Note: Public Art must be reviewed and endorsed by the City's Public Art Team and/or the Public Art Advisory Panel prior to submission for Council approval. Further information is available online at <http://www.cityofsydney.nsw.gov.au/explore/arts-and-culture/public-art> Please contact the Public Art Team at publicartreferrals@cityofsydney.nsw.gov.au for further information.

Reason

To ensure public art is installed to the City's satisfaction.

(22) ERECTION OF SIGN

The sign is to be erected in a secure manner to ensure safety and its installation is not to involve measures that would cause irreversible damage to the building.

Reason

To ensure signage installed does not cause irreversible damage to the building.

(23) SIGN ILLUMINATION

- (a) At no time is the intensity, period of intermittency and hours of illumination of the sign to cause objectionable glare or injury to the amenity of the neighbourhood and as such must be designed, installed and used in accordance with the latest edition of AS/NZS 4828.
- (b) The sign(s) must not flash. Signs with flashing, chasing, pulsating or flickering lights are not permitted.
- (c) The maximum night time luminance of any sign is not to exceed 300 cd/sqm.
- (d) Signage is only permitted to be illuminated while a premises is open.
- (e) Upward facing light sources onto the signage is not permitted.

Reason

To ensure signage illumination is designed in accordance with the Australian Standards and Council's DCP.

(24) SIGNAGE GENERAL REQUIREMENTS

The design of the approved signage must comply with the following:-

- (a) The signage is not to contain highly reflective materials, colours and finishes.
- (b) The signage is not to incorporate sound, vibration, odour and other emissions.

Reason

To ensure signage is designed in accordance with Council's DCP.

(25) SIGNS - SEPARATE DA REQUIRED

A separate development application for any proposed signs additional to those approved as part of this consent (other than exempt or complying signs) must be submitted to and approved by Council prior to the erection or display of any such signs.

Reason

To require separate consent to be obtained for any additional signs.

(26) SIGNS/GOODS IN THE PUBLIC WAY

No signs or goods are to be placed on the footway or roadway adjacent to the property.

Reason

To ensure the public domain is kept free from physical obstructions.

(27) TREES THAT MUST BE RETAINED

The existing trees detailed in Table 2 below be retained and protected in accordance with the conditions throughout construction and development.

Table 2 – Tree Retention:

Approval is NOT granted for the removal of the following trees, which Council has determined to be prominent landscape elements.

Tree No	Species:	Location
1-5	Celtis australis (European Hackberry)	Street trees on Mary St

Reason

To identify the trees that cannot be removed, must be retained and protected.

(28) WASTE AND RECYCLING MANAGEMENT - GENERAL

The proposal must comply with the relevant provisions of Council's *Guidelines for Waste Management in New Developments 2018* which requires facilities to promote the efficient storage, separation, collection and handling of waste to maximise resources recovery.

Reason

To ensure that waste and recycling is appropriately managed.

(29) TACTILE GROUND SURFACE INDICATORS AND HANDRAILS

All tactile ground surface indicators, handrails and other elements required to provide access into the building / property must be located entirely within the private property boundary.

Reason

To ensure ground surface indicators, handrails and other elements required to provide access into the building/property are appropriately located.

(30) NO OBSTRUCTIONS

All public footways and paths of travel must be free from obstructions. If services are required to be relocated to clear paths of travel then this must be undertaken at the developer's expense. All obstructions are to be removed prior to the issue of the relevant Occupation Certificate

Reason

To ensure there are no obstructions on public footways and paths of travel.

(31) SUBDIVISION PLAN – SOME COMPONENTS PRIOR TO CONSTRUCTION CERTIFICATE

a) Prior to the issue of any approval for demolition or Construction Certificate, the initial boundary definition survey work necessary for the preparation of a subdivision plan redefining the boundaries of the subject site shall be carried out by a surveyor registered under the Surveying and Spatial Information Act, 2002. The registered surveyor shall provide a letter to the Principal Certifier certifying that the initial survey work and calculations to define the subject boundaries has been completed, prior to the issue of the Construction Certificate.

b) A plan or CAD file showing the redefined boundaries shall be provided to the project architect, who shall certify in writing that the proposed development as designed will fit within the redefined boundaries, without causing any encroachment of the proposed development or any overhangs to adjoining properties. This written confirmation shall be provided to the PCA prior to the issue of the Stage 3a and 3b Construction Certificates.

Reason

To ensure the orderly development of land

(32) LAND SUBDIVISION – SUBDIVISION CERTIFICATE

A separate application must be made online through the Planning Portal, at www.planningportal.nsw.gov.au to obtain the approval of the plan of subdivision and issue of a Subdivision Certificate under Section 6.15 of the Environmental Planning and Assessment Act 1979. Go to the “Post Consent Certificates” section on the website for Subdivision Certificates. It is recommended that the PDF versions of the subdivision, Administration sheets and Section 88B Instrument that are uploaded are between 400 & 600 dpi as these may be digitally signed.

Reason

To ensure separate development consent is sought for the plan of subdivision and issue of a Subdivision Certificate.

(33) ENCROACHING AND/OR SHARED SERVICES

All pipes, service lines and the like servicing each lot shall be contained within their respective lots or, if any service lines encroach upon adjoining lots within or adjoining the subdivision, or are shared by more than one lot, appropriate easements must be created, pursuant to Section 88B of the *Conveyancing Act 1919*, over the service lines where any such encroachment or shared situation occurs.

In particular, the location of any water, sewerage or stormwater drainage lines must be determined and, if necessary, a suitable easement must be created where any such encroachment or shared situation occurs.

Prior to the issue of a subdivision certificate, the surveyor must provide a report (to be submitted with the final plan of subdivision) confirming all such service lines are either located within their respective allotments or will be addressed by an appropriate easement, which will also be shown on the final plan of subdivision.

Reason

To ensure the orderly development of land.

(34) RESTRICTION ON USE OF CAR SPACES AND STORAGE SPACES - RESIDENTIAL – 17-19 MARY STREET

The following conditions apply to car parking and storage:

- (a) The on-site car parking spaces and storage spaces allocated to the residential component of the building are not to be used other than by a resident of the subject building for parking of vehicles, or storage of items, related to the residential unit with which the space is associated. No storage should take place for commercial businesses in car parking spaces.

- (b) Prior to Stage 3b Occupation Certificate being issued or the use commencing, whichever is earlier, a documentary restrictive covenant is to be registered on the Title of the development site pursuant to Section 88E of the *Conveyancing Act 1919*, to the effect of (a), above. The covenant is to be created appurtenant to Council, at no cost to Council.

Reason

To ensure the on-site car parking spaces are not to be used other than by a resident of the building.

(35) RESTRICTION ON USE OF CAR SPACES – COMMERCIAL – 17-19 MARY STREET

The following conditions apply to car parking allocated to the commercial/retail component of the development:

- (a) The on-site car parking spaces allocated to the commercial/retail component of the development, exclusive of service car spaces, are not to be used other than by an occupant or tenant of the subject building.
- (b) Prior to Stage3b Occupation Certificate being issued or the use commencing, whichever is earlier, a documentary restrictive covenant, is to be registered on the Title of the development site pursuant to section 88E of the *Conveyancing Act 1919*, to the effect of (a) above. The covenant is to be created appurtenant to Council, at no cost to and to the satisfaction of Council.

Reason

To ensure the on-site car parking spaces are not to be used other than by an occupant of tenant of the building.

BUILDING WORK BEFORE ISSUE OF A CONSTRUCTION CERTIFICATE

(36) BASIX CERTIFICATE – DETAILS TO BE LODGED WITH A CC

A copy of the required completed BASIX certificate accepted as part of this Development Consent with respect to the proposed residential building works, must be lodged with an application for the relevant construction certificate and the items nominated as part of the subject BASIX certificate must be specified on the plans submitted with the construction certificate application. – See Note.

IMPORTANT NOTE:

Any requirement detailed in the accompanying BASIX Certificate, MUST be included as a specific notation or inclusion on any future Construction Certificate plans and specification in accordance with Part 3 of Schedule 1 of the EP&A Regulation, 2021.

Reason

To ensure BASIX commitments are fulfilled in accordance with the BASIX certificate (prescribed condition under clause 75 EP&A Regulation, 2021).

(37) EXTERNAL WALLS AND CLADDING FLAMMABILITY

The external walls of the building including attachments must comply with the relevant requirements of the *Building Code of Australia*. Prior to the issue of Stage 3a and 3b Construction Certificates and Occupation Certificates the Registered Certifier and the Principal Certifier must:

- (a) Be satisfied that suitable evidence is provided to demonstrate that the products and systems proposed for use or used in the construction of external walls including finishes and claddings such as synthetic or aluminium composite panels comply with the BCA; and
- (b) Ensure that the documentation relied upon in the approval processes include an appropriate level of detail to demonstrate compliance with the BCA as proposed and as built.

Reason

To ensure the external walls and cladding comply with relevant requirements.

(38) ALLOCATION OF PARKING

The number of car parking spaces to be provided for the development must comply with the table below. Details confirming the parking numbers must be submitted to the satisfaction of the Registered Certifier prior to the issue of the relevant Construction Certificate.

Car Parking Type	Number
Residential spaces	1 (for 17-19 Mary Street) 4 (for 5-15 Mary Street)
Accessible residential spaces	1 (for 17-19 Mary Street) 6 (for 5-15 Mary Street)
Retail/Office and business parking	1 (for 17-19 Mary Street) 2 (for 5-15 Mary Street)
Subtotal	15 including: 3 spaces for 17-19 Mary Street 12 spaces for 5-15 Mary Street
Service vehicle spaces	1 (for 17-19 Mary Street) 1 (for 5-15 Mary Street)
Total	17 including: 4 spaces for 17-19 Mary Street 13 spaces for 5-15 Mary Street

Reason

To ensure the allocation of parking is in accordance with the Council's DCP.

(39) PARKING DESIGN

The design, layout, signage, line marking, lighting and physical controls of all off-street parking facilities must comply with the minimum requirements of Australian Standard AS/NZS 2890.1 Parking facilities Part 1: Off-street car parking, AS/NZS 2890.2 Parking facilities Part 2: Off-commercial vehicle facilities and AS/NZS 2890.6 Parking facilities Part 6: Off-street parking for people with disabilities. The details must be submitted to and approved by the Registered Certifier prior to Stage 3a and 3b Construction Certificates being issued.

Reason

To ensure parking facilities are designed in accordance with the Australian Standards.

(40) BICYCLE PARKING AND END OF TRIP FACILITIES

- (a) The minimum number of bicycle parking spaces and end of trip facilities to be provided within the site boundary for the development must comply with the table below.

Bicycle Parking Type	Number	Requirements
Residential	50 for 5-15 Mary Street 10 for 17-19 Mary Street	Spaces must be a class 1 bicycle locker
Residential visitor	1 for 17-19 Mary Street	Spaces must be Class 3 bicycle rails
Retail / Commercial staff	3 for 5-15 Mary Street 4 for 17-19 Mary Street	Spaces must be Class 2 bicycle facilities
Non-residential visitor	1 for 5-15 Mary Street 1 for 17-19 Mary Street	Spaces must be Class 3 bicycle rails
End of Trip Facility Type	Number	
Showers with change area	1 for 5-15 Mary Street 1 for 17-19 Mary Street	
Personal lockers	3 for 5-15 Mary Street 5 for 17-19 Mary Street	

- (b) The layout, design and security of bicycle facilities must comply with the minimum requirements of Australian Standard AS 2890.3 Parking Facilities Part 3: Bicycle Parking Facilities. The details must be submitted to and approved by the Registered Certifier confirming prior to and form part of the relevant Construction Certificate being issued.

Reason

To ensure the allocation of bicycle parking onsite that is in accordance with Australian Standards and the Council's DCP.

(41) CONSTRUCTION TRAFFIC MANAGEMENT PLAN

- (b) A Construction Traffic Management Plan must be submitted to and approved by Council prior to the Stage 1 Construction Certificate being issued.
- (c) The approved plan must be complied with during any demolition and/or construction work.

Reason

To ensure that the impacts of construction traffic is appropriately managed.

(42) MATERIALS AND SAMPLES BOARD – MAJOR DEVELOPMENT

A physical material sample board which specifies all proposed materials, finishes and colours, (including visible rainwater goods and services) keyed to each building elevation must be submitted to and approved by Council's Area Coordinator Planning Assessments/Area Planning Manager to the Stage 3a and 3b Construction Certificates being issued. The materials and samples board must not include generic material or colour descriptions or use terminology such as 'or similar'.

Reason

To require the submission of a materials and samples board following assessment of the development.

(43) LANDSCAPING OF THE SITE

- (a) A detailed landscape design including plans and details drawn to scale, and technical specification, by a registered landscape architect, must be submitted to and approved by Council's Area Coordinator Planning Assessments / Area Planning Manager prior to the issue of the Stage 3a and 3b Construction Certificates. These documents must include:
- (i) Location of existing and proposed planting on the site including existing and proposed trees, planting in natural ground, and planting on structure.
 - (ii) Location and details of existing and proposed structures on the site including, but not limited to, paving, walls, services, furniture, shade structures, lighting and other features.
 - (iii) Details of earthworks and soil depths including finished levels and any mounding. The minimum soil depths for planting on structure must be 1000mm for trees, 450mm for shrubs and 200mm for groundcovers, excluding mulch and drainage layers.
 - (iv) Planting details, and location, numbers, type and supply size of plant species, with reference to Australian Standards and preference for drought resistant species that contribute to habitat creation and biodiversity.
 - (v) Details of drainage, waterproofing and watering systems.
 - (vi) Landscape maintenance plan. This plan is to be complied with during occupation of the property.
- (v) All landscaping in the approved plan is to be complete prior to relevant Occupation Certificate being issued.

Reason

To ensure the development is supported by a good quality, buildable landscape scheme that meets the City's controls.

(44) FUTURE FOOD USE - MECHANICAL VENTILATION PROVISION

Prior to the issue of the relevant Construction Certificate, the mechanical exhaust systems and/or shafts must be designed to allow for the discharge of effluent air above roof level and must be designed with capacity to accommodate exhaust ducts and mechanical ventilation systems for all commercial tenancies proposed with the potential to become a food premises in future. Systems must be designed in accordance with *AS1668.2 – The Use of Ventilation and Air-conditioning in Buildings – Mechanical Ventilation in Buildings*, and *AS1668.1 – The Use of Ventilation and Air-conditioning in Buildings – Fire and Smoke Control in Buildings*.

Reason

To ensure the mechanical ventilation complies with relevant standards.

(45) COMPLIANCE WITH THE ACOUSTIC REPORT PRIOR TO CONSTRUCTION AND OR OCCUPATION CERTIFICATES

- (a) All relevant performance parameters (including but not limited to requirements, engineering assumptions and recommendations) in the DA Acoustic Report prepared by Stantec, dated 15/12/2022 ref 301350935, titled Acoustics Report for Development Application – 5-19 Mary Street, must be implemented in the development prior to the commencement of its use.
- (b) Prior to the issue of any relevant Construction Certificate, the final construction drawings and final construction methodology must be assessed and reported to be in accordance with the requirements of the DA Acoustic Report in (a) above, with reference to relevant documentation. This must be done by a Suitably Qualified Acoustic Consultant* (see definition below). This work will be to the satisfaction of the Registered Certifier.
- (c) Prior to the issue of the relevant Occupation Certificate, a Suitably Qualified Acoustic Consultant* is to provide a written Acoustic Verification Report to the satisfaction of the Principal Certifier that the development complies with the requirements set out in the Report and in (a) and (b) above.

Note: Suitably Qualified Acoustic Consultant means a consultant who possesses the qualifications to join the Australian Acoustical Society, Institution of Engineers Australia (grade of member) or the Association of Australasian Acoustical Consultants (grade of member firm).

- (d) All physical aspects of the building's structure installed in order to meet performance parameters in accordance with this condition must be maintained at all times.

Reason

To ensure all parties are aware of the supporting documentation that applies to the development.

(46) DEMOLITION, EXCAVATION AND CONSTRUCTION NOISE AND VIBRATION MANAGEMENT PLAN

A site-specific noise management plan must be submitted to the Council for comment and approval prior to issue of the Stage 1 Construction Certificate. The Plan must be prepared by a suitably qualified acoustic consultant who is a person who possesses the qualifications to join the Australian Acoustic Society, Institution of Engineers Australia (grade of member) or the Association of Australasian Acoustic Consultants (grade of member firm). The plan must include but not be limited to the following:-

- (a) identification of noise sensitive receivers near to the site.
- (b) A prediction as to the level of noise impact likely to affect the nearest noise sensitive receivers from the use and proposed number of high noise intrusive appliances intended to be operated onsite. A statement should also be submitted outlining whether or not predicted noise levels will comply with the noise criteria stated within the *City of Sydney Construction Hours /Noise Code of Practice 1992* for the typical construction hours of 07.00am to 7.00pm. Where resultant site noise levels are likely to be in exceedance of this noise criteria then a suitable proposal must be given as to the duration and frequency of respite periods that will be afforded to the occupiers of neighbouring property.
- (c) A representative background noise measurement ($L_{A90, 15 \text{ minute}}$) should be submitted, assessed in the vicinity of any potentially affected receiver locations and measured in accordance with AS 1055:1.2.1997.
- (d) Confirmation of the level of community consultation that has/is and will be undertaken with Building Managers/ occupiers of the main adjoining noise sensitive properties likely to be most affected by site works and the operation of plant/machinery particularly during the demolition and excavation phases.
- (e) Confirmation of noise monitoring methodology that is to be undertaken during the main stages of work at neighbouring noise sensitive properties in order to keep complaints to a minimum and to ensure that noise from site works complies with the noise criteria contained within City's Construction Noise Code.
- (f) What course of action will be undertaken following receipt of a complaint concerning offensive noise.
- (g) Details of any noise mitigation measures that have been outlined by an acoustic consultant or otherwise that will be deployed on site to reduce noise impacts on the occupiers of neighbouring noise sensitive property to a minimum.
- (h) What plant and equipment is to be used on site, the level of sound mitigation measures to be undertaken in each case and the criteria adopted in their selection taking into account the likely noise impacts on the occupiers of neighbouring property and other less intrusive technologies available.

Reason

To ensure an adequate construction noise and vibration management plan is prepared.

(47) PUBLIC DOMAIN DAMAGE BOND

- (a) A Public Domain Damage Deposit calculated on the basis of 215 square metres of asphalt and concrete site frontage must be lodged with Council in accordance with the City of Sydney's adopted Schedule of Fees and Charges. The bond must be provided as security for repairing any damage to the public domain in the vicinity of the site.
- (b) The City's Public Domain Unit must be contacted to determine the bond amount prior to lodgement. The Bond must be lodged with the City prior to the Stage 1 Construction Certificate being issued.
- (c) The bond in this condition will be released in full when the Public Domain Works Security Bond is lodged with the City.

Reason

To allow for the appropriate management and rectification of damage to the public domain.

(48) SURVEY INFRASTRUCTURE – IDENTIFICATION AND RECOVERY

Under Section 24 of the Surveying and Spatial Information Act 2002, it is an offence to remove, damage, destroy, displace, obliterate or deface any survey mark unless authorised to do so by the Surveyor-General. Accordingly, the applicant must, where possible, ensure the preservation of existing survey infrastructure undisturbed and in its original state or else provide evidence of the Surveyor-General's authorisation to remove or replace marks.

Prior to the issue of any Construction Certificate, documentary evidence must be prepared by a Registered Surveyor and submitted to and approved by Council's Area Planning Manager / Coordinator. This evidence must include either:

- (a) A copy of any Surveyor-General's Approval for Survey Mark Removal granted by NSW Spatial Services for the subject site, including all documentation submitted as part of that application (for example the survey mark audit schedule, strategy plan and strategy report); or
- (b) A letter, signed by a current NSW Registered Land Surveyor and including his or her Board of Surveying and Spatial Information (BOSSI) identification number, stating that all investigations required under Surveyor-General's Direction No.11 have been made for the subject site and that no survey infrastructure will be affected by the proposal.

Council's Principal Surveyor may request further information and/or add conditions to any Surveyor-General's Approval at their discretion.

Reason

To ensure the preservation of existing survey infrastructure.

(49) PUBLIC DOMAIN CONCEPT PLAN

A public domain concept plan, showing all the site frontages and extending a minimum of 5m past the boundary and to the road centreline, must be prepared in accordance with the City's *Public Domain Manual* and *Sydney Streets Code*. It must be submitted to and approved by the City's Public Domain Unit prior to the issue of the Stage 3a and 3b Construction Certificate for the development

Note: A detailed Public Domain Plan will be required prior the issue of the Stage 3a and 3b Construction Certificate. (refer to Public Domain Plan Detailed Documentation for Construction condition).

Reason

To ensure public domain works comply with Council's requirements.

(50) PUBLIC DOMAIN LEVELS AND GRADIENTS - MAJOR

Prior to the issue of the Stage 3a and 3b Construction Certificate, a Public Domain Levels and Gradients submission for the building and site frontages must be submitted to and approved by the City's Public Domain Unit. The submission must be prepared in accordance with the City's *Public Domain Manual*, Flood Report (prepared by Northrop/Rev B, dated 5 September 2023) and submitted with a completed Application for *Public Domain Levels and Gradients*. Information on how to complete the submission can be downloaded from the City's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>.

Any requirements to comply with Disability Discrimination Act at the entrance to a building or publicly accessible space must be resolved inside the site boundary.

Note: Public Domain Levels and Gradient plans are to be included with the Public Domain Plan – Detailed Documentation for Construction condition submission.

Reason

To ensure public domain levels and gradients comply with Council's requirements.

(51) STORMWATER DRAINAGE DESIGN

Prior to issue of the Stage 3a and 3b construction certificate a detailed stormwater management plan prepared by suitable qualified and experienced professional must be submitted to and approved by the City's Public Domain Unit and must include:

- (i) Council's Sydney Streets Technical Specifications, Part A4 Drainage Design;
- (ii) Council's Sydney Streets Technical Specifications, Standard Drawings;
- (iii) Council's Sydney Streets Technical Specifications, Part B10: Stormwater Drainage Construction;
- (iv) Council's Stormwater Drainage Manual; and

- (v) All relevant Australian Standards.

This information is available for download from the City's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>.

Note: A Deed of Agreement (Stormwater Deed) for all proposed connections to the City's drainage system, and a Positive Covenant for all OSD systems will be required prior to issue of any Occupation Certificate.

Reason

To ensure stormwater drainage design complies with Council's requirements.

(52) STORMWATER ON-SITE DETENTION

The requirements of Sydney Water with regard to the on-site detention (OSD) of stormwater must be ascertained and complied with. Evidence of the approval must be submitted to Council prior to issue of the Stage 3a and 3b Construction Certificate, subject to stormwater concept design acceptance by the City prior to issue of the Stage 3a and 3b Construction Certificate.

Where an OSD is not required by Sydney Water one may still be required by the City.

Reason

To ensure the requirements of Sydney Water are complied with.

(53) STORMWATER QUALITY ASSESSMENT

The development must comply with MUSIC Link report dated 25 August 2023, prepared by Northrop Bowral, accepted with this development application.

Prior to issue of the Stage 3a and 3b Construction Certificate a design certification report prepared by a suitably qualified practitioner engineer (NPER) demonstrating compliance with approved music link targets and parameters must be submitted to and approved by the City's Public Domain Unit.

The report must include a response to all stormwater quality improvement devices structural integrity, treatment train and their treatment properties demonstrating compliance with the approved MUSIC link reports.

Reason

To ensure appropriate stormwater quality on the site.

(54) FLOOD PLANNING LEVELS

The development must be constructed to comply with the recommended flood planning levels indicated in Table 1 and 2 (Flood, Floor and Freeboard Levels Ground level and Basement Level) of the report titled Performance Criteria Flood Assessment / Rev B prepared by Northrop, dated 5 September 2023.

Details must be submitted to the Registered Certifier prior to the issue of Stage 3a and 3b Construction Certificate demonstrating that the development will comply with the recommended flood planning levels.

Reason

To ensure the development complies with the recommended flood planning levels.

(55) PUBLIC DOMAIN LIGHTING UPGRADE

Prior to issue of the Stage 3a and 3b Construction Certificate, a concept Public Domain Lighting Upgrade Plan for pedestrian and street lighting in the public domain must be submitted to and approved by City's Public Domain Unit. The Lighting Plan must be prepared in accordance with the *Sydney Streets Technical Specifications A5 and B8*, *Sydney Lights Design Code* and *Public Domain Manual*. This information is available for download from the City's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/d-a-associated-works>.

The lighting upgrade plan must cover all adjacent street frontages, being Mary Street and Hands Lane and shall be designed to include the following requirements:

Mary Street (in front of development site to Reservoir Street)

1. Provide lighting design complying with requirements of AS1158 under Category PR3 on the roadway and footways.
2. Supply and install City standard steel poles and LED luminaires.
3. Propose glare shields to prevent glare in residential properties.

Hands Lane (along development site)

1. Provide lighting design complying with requirements of AS1158 Category PR 3.
2. Decommission existing City wall mount lights on the property.
3. Supply and install new City standard LED wall mount lights. Installation must be accessible for maintenance and upgrade by City-authorized technicians and contractors along the entire length. All cabling must be installed on the building surface within galvanised steel conduits, MMS cabling or similar approved method. Establish an access easement in favour of the City for ongoing maintenance and upgrade of wall mounted City lighting, if applicable.
4. Supply and install a new 3Phase City MSB.
5. Propose glare shields to prevent glare in residential properties.
6. Decommission Ausgrid's redundant PUMS supplies that currently feed the wall mount lights on Blackburn Street and Hands Lane.
7. New City wall mount lights along Hands Lane and existing wall mount lights in Blackburn Street (across Foster Street) must be fed from the new City MSB.

8. Provide temporary lighting complying with City public domain lighting specifications prior to removal of existing public lights.

Advice on site specific lighting requirements must be obtained from City's Public Domain Unit before proceeding with the preparation of any final lighting design proposals.

Reason

To ensure pedestrian and street lighting in the public domain complies with Council's requirements.

(56) DILAPIDATION REPORT - PUBLIC DOMAIN

Prior to an approval for preparatory works being granted or the issue of the Stage 1 Construction Certificate, whichever is earlier, a photographic recording of the public domain site frontages is to be prepared as described in the Public Domain Manual and submitted for approval by Council's Public Domain Unit. The City's *Public Domain Manual* is available for download from the City's website at <https://www.cityofsydney.nsw.gov.au/>

The submission is to include written confirmation, issued with the authority of both the applicant and the photographer that the City of Sydney is granted a perpetual non-exclusive license to make use of the copyright in all images supplied, including the right to make copies available to third parties as though they were Council images. The signatures of both the applicant and the photographer must be included.

Reason

To establish and document the condition of the public domain for comparison as building work progresses and is completed.

(57) TEMPORARY DEWATERING DURING CONSTRUCTION

Prior to discharging any water collected during excavation and construction into the City's stormwater drainage system, approval must be sought from the City's Public Domain Unit. A dewatering management plan must be submitted with an *Application for Temporary Dewatering* available to download on the City's website.

Other options for dewatering include disposal to sewer with prior approval from Sydney Water, or off-site disposal by a liquid waste transporter for treatment/disposal to an appropriate waste treatment/processing facility.

Reason

To ensure dewatering is managed appropriately.

(58) SITE SUPERVISION AND REPORTING

- (a) An Arborist with minimum qualifications in Arboriculture of Level 5 (under the Australian Qualification Framework) must oversee various stages of work within the Tree Protection Zone of any tree listed for retention. The Arborist must certify compliance with each key milestone detailed below:

- (i) The installation of tree protection measures prior to the commencement of any construction works;
 - (ii) During demolition of any ground surface materials (pavers, concrete, grass etc.) within the Tree Protection Zone (TPZ) of any tree to be retained;
 - (iii) During construction of the specify structure/deck/concrete slab etc);
 - (iv) During any excavation and trenching within the TPZ which has been approved by Council;
 - (v) During any Landscape works within the TPZ which has been approved by Council.
- (b) An Arboricultural Compliance Report which includes photographic evidence and provides details on the health and structure of tree/s must be submitted to and acknowledged by Council's Area Planning Coordinator | Area Planning Manager at each hold point listed below:
- (i) Certification that tree protection measures have been installed in accordance with these consent conditions;
 - (ii) Certification of compliance with each key milestone listed above within 48 hours of completion;
 - (iv) Details of any other works undertaken on any tree to be retained or any works within the TPZ which has been approved by Council.
- (c) A final compliance report must be submitted to and approved by Council's Area Planning Coordinator | Area Planning Manager prior to the issue of any Occupation Certificate.

Reason

To ensure the protection and ongoing health of trees on the site.

(59) TELECOMMUNICATIONS IN NEW DEVELOPMENTS

Prior to the issue of the Subdivision or Stage 3a and 3b Construction Certificates in connection with a development, the developer (whether or not a constitutional corporation) is to provide evidence satisfactory to the Registered Certifier that arrangements have been made for:

- (a) the installation of fibre-ready facilities to all individual lots and/or premises in a real estate development project so as to enable fibre to be readily connected to any premises that is being or may be constructed on those lots. Demonstrate that the carrier has confirmed in writing that they are satisfied that the fibre ready facilities are fit for purpose; and
- (b) the provision of fixed-line telecommunications infrastructure in the fibre-ready facilities to all individual lots and/or premises in a real estate development project demonstrated through an agreement with a carrier.

Note: real estate development project has the meanings given in section 372Q of the Telecommunications Act.

Reason

To ensure the development adequately provides for telecommunications.

(60) WASTE AND RECYCLING MANAGEMENT - COMMERCIAL

- (a) A Waste and Recycling Management Plan, which meets the requirements as set out in Council's *Guidelines for Waste Management in New Developments 2018*, is to be approved by the Principal Certifying Authority prior to a Construction Certificate being issued.
- (b) All requirements of the approved Waste and Recycling Management Plan must be implemented during construction and operation of the development and include:
 - (i) Dedicated space to be provided within the development for the storage and recycling of bulky waste, problem waste, strip out and food waste.
 - (ii) Collection points for waste and recycling must be wholly located within the boundary of the development.
 - (iii) The nominated waste and recycling storage areas must be constructed to meet the relevant conditions required by the City's *Guidelines for Waste Management in New Developments 2018*.
 - (iv) Provision and storage within the boundary of the development of waste and recycling receptacles and any bulky waste at all times.
 - (v) Commercial tenancies must have a commercial waste contract(s) in place prior to commencement of business trading.
 - (vi) The path of travel between the bin storage areas/bulky waste storage areas and the designated waste/recycling collection point is to have a minimum 1,200mm wall-to-wall clearance, be slip-proof, of a hard surface, be free of obstructions and at no point have a gradient exceeding 1:14. The use of a lift is permitted, but consideration should be given to the inclusion of a service lift in this instance.

Note: The building manager/strata title manager or body corporate is responsible for ensuring all tenants are kept informed regarding Council's policies, and best practice waste and recycling source separation.

UPON COMPLETION OF THE DEVELOPMENT

- (c) Prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, the Principal Certifier must ensure that waste handling works have been completed in accordance with: the Waste and Recycling Management Plan; other relevant development consent conditions; and Council's *Guidelines for Waste Management in New Developments 2018*.

Reason

To ensure that waste and recycling is appropriately managed.

(61) WASTE AND RECYCLING MANAGEMENT - RESIDENTIAL

- (a) A Waste and Recycling Management Plan including demolition and construction waste and recycling details, is to be submitted to and approved by Council's Area Coordinator Planning Assessments / Area Planning Manager prior to a Construction Certificate being issued. The plan must comply with the Council's *Guidelines for Waste Management in New Developments 2018*.
- (b) The Waste and Recycling Management Plan must include:
 - (i) The path of travel between the bin storage areas/bulky waste storage areas and the designated waste/recycling collection point is to have a minimum 1,200mm wall-to-wall clearance, be slip-proof, of a hard surface, be free of obstructions and at no point have a gradient exceeding 1:14. The use of a lift is permitted, but consideration should be given to the inclusion of a service lift in this instance.
 - (ii) All nominated waste and recycling storage areas must be constructed to meet the relevant conditions required by Council's *Guidelines for Waste Management in New Developments 2018*.

UPON COMPLETION OF THE DEVELOPMENT

- (c) Prior to any Occupation Certificate being issued or the use commencing, whichever is earlier, the Principal Certifier must obtain Council's approval of the waste and recycling management facilities provided in the development and ensure arrangements are in place for domestic waste collection by Council.

Reason

To ensure that waste and recycling is appropriately managed.

(62) STRATA SUBDIVISION – APPROVAL OF STRATA PLAN REQUIRED – 17-19 MARY STREET

A separate application must be made to Council or an accredited certifier to obtain approval of the Strata Plan and issue of a Strata Certificate under the *Strata Schemes Development Act 2015*.

Reason

To ensure separate approval is obtained for approval of the Strata Plan.

(63) ACCESS AND FACILITIES FOR PERSONS WITH DISABILITIES

The building must be designed and constructed to provide access and facilities for people with a disability in accordance with the *Building Code of Australia*.

If, in complying with this condition, amendments to the development are required, the design changes must be submitted to and approved by Council prior to the relevant Construction Certificate being issued.

Reason

To ensure that appropriate access and facilities are provided.

(64) REFLECTIVITY

Prior to issue of the Stage 3a and 3b Construction Certificates the Accredited Certifier must ensure that the visible light reflectivity from building materials used on the facade of the building does not exceed 20%.

Reason

To ensure the development does not result in adverse reflectivity impacts and to protect the amenity of the public domain.

(65) LETTERBOXES

- (a) Details of the location and design of all letterboxes are to be submitted to and approved by Council's Area Coordinator Planning Assessments or Area Planning Manager prior to the issue of the Stage 3a and 3b Construction Certificates.
- (b) Letterboxes are to be discreetly located, must not obstruct and/or dominate the public way and must be of a type and specification that minimises opportunities for mail theft.
- (c) Where possible, consideration should be given to locating letterboxes within secure building lobbies.

Note: the applicant is strongly advised to contact Australia Post to discuss how the letterboxes within the lobby will be accessed.

Reason

To ensure letterboxes are located in an appropriate location on the site to prevent mail theft.

(66) FLOOR TO CEILING HEIGHT

Prior to the relevant Construction Certificate being issued, the Registered Certifier must ensure that all living rooms and bedrooms in sole occupancy units must have a minimum finished floor to ceiling height of not less than 2.7 metres.

Reason

To ensure an adequate minimum floor to ceiling height to provide an acceptable level of amenity.

(67) VENTILATION SECURITY AND WEATHER PROTECTION

All habitable rooms must have a combination of openable sashes and/or louvres that ensure a minimum Effective Openable Area (EOA) for ventilation purposes as required by the NCC and the Apartment Design Guide (ADG) when opened to the maximum dimension permitted under the NCC provisions for *Protection of Openable Windows*.

The sashes and/or louvres must provide the minimum EOA under most wet weather conditions and must also be securable to prevent unauthorised entry when open. The minimum EOA must be provided in addition to any external doors as these cannot be adequately weather-protected or secured when left partially open. A reduction for fly screens must be taken into consideration to account for any future installation.

The method of measurement must be in accordance with the definition of EOA as defined by the Apartment Design Guide, which is:

‘the minimum area of clear opening of a window that can take part in providing natural ventilation. The effective openable area of a sliding or hung sash window can be measured in elevation. Hinged windows such as casement, awning and hopper windows may measure the diagonal plane from the sash to the jamb and add the triangles at either end up to a total area of the window opening in the wall. Obstruction within 2m of a window reduce the effective openable area as measured in elevation. Fly screens and security screen will reduce the effective openable area by half’.

- (a) Prior to the issue of the relevant Construction Certificate, the following details of the proposed fenestration must be submitted to, and approved by Council’s Area Coordinator Planning Assessments / Area Planning Manager:
 - (i) Detailed elevation drawings and a window schedule which show the size, type and location of all openable sashes / louvres in relation to the floor area served by those sashes;
 - (ii) Details of any proposed insect screens or other barriers to free air flow;
- (b) Evidence that all fenestration details shown in the approved drawings described in part (a) above have been completed is to be provided to the Principal Certifier prior to the relevant Occupation Certificate being issued.

Reason

To ensure adequate ventilation to provide an acceptable level of amenity.

(68) UTILITY SERVICES

To ensure that utility authorities are advised of the development:

- (a) Prior to the issue of the relevant Construction Certificate a survey is to be carried out of all utility services within and adjacent to the site including relevant information from utility authorities and excavation if necessary, to determine the position and level of services.

- (b) Prior to the commencement of work the applicant is to obtain written approval from the utility authorities (e.g. Energy Australia, Sydney Water, and Telecommunications Carriers) in connection with the relocation and/or adjustment of the services affected by the construction of the underground structure. Any costs in the relocation, adjustment or support of services are to be the responsibility of the developer.

Reason

To ensure that utility authorities are advised of the development and their approval is obtained in connection with the relocation and/or adjustment of services affected by the development.

(69) AUSGRID UNDERGROUND CABLES IN VICINITY OF DEVELOPMENT

Care should be taken to ensure that construction activities do not interfere with existing underground cables located in the footpath or adjacent roadways. It is recommended that the developer locate and record the depth of all known underground services prior to any excavation in the area. Information regarding the position of cables along footpaths and roadways can be obtained by contacting Dial Before You Dig (DBYD). The following points should be taken into consideration. Ausgrid cannot guarantee the depth of cables due to possible changes in ground levels from previous activities after the cables were installed. Should ground anchors be required in the vicinity of Ausgrid underground cables, the anchors must not be installed within 300mm of any cable, and the anchors must not pass over the top of any cable. In addition to DBYD the proponent should refer to the following documents to support safety in design and construction:

- (a) SafeWork Australia – Excavation Code of Practice.
- (b) Ausgrid’s Network Standard NS156 which outlines the minimum requirements for working around Ausgrid’s underground cables. This document can be found by visiting the Ausgrid website via: www.ausgrid.com.au
- (c) The Ausgrid Quick Reference Guide for Safety Clearances “Working Near Ausgrid Assets - Clearances”. This document can also be found by visiting the Ausgrid website www.ausgrid.com.au/Your-safety/Working-Safe/Clearance-enquiries

Should you have any enquiries, please contact Ausgrid at: development@ausgrid.com.au

Reason

To ensure that the development does not interfere with Ausgrid’s infrastructure.

(70) AUSGRID OVERHEAD POWERLINES IN VICINITY OF DEVELOPMENT

- (a) The developer should refer to SafeWork NSW Document – Work Near Overhead Powerlines: Code of Practice. This document outlines the minimum separation requirements between electrical mains (overhead wires) and structures within the development site throughout the construction process. It is a statutory requirement that these distances be maintained throughout the construction phase.
- (b) Consideration should be given to the positioning and operating of cranes, scaffolding, and sufficient clearances from all types of vehicles that are expected be entering and leaving the site.
- (c) The “as constructed” minimum clearances to the mains must also be maintained. These distances are outlined in the Ausgrid Network Standard, NS220 Overhead Design Manual. This document can be sourced from Ausgrid’s website at www.ausgrid.com.au.
- (d) It is the responsibility of the developer to verify and maintain minimum clearances onsite. In the event where minimum safe clearances are not able to be met due to the design of the development, the Ausgrid mains may need to be relocated in this instance. Any Ausgrid asset relocation works will be at the developer’s cost.
- (e) Additional information can be found in the Ausgrid Quick Reference Guide for Safety Clearances “Working Near Ausgrid Assets - Clearances”. This document can be found by visiting the following Ausgrid website: www.ausgrid.com.au/Your-safety/Working-Safe/Clearance-enquiries
Should you have any enquiries, please contact Ausgrid at development@ausgrid.com.au

(71) ELECTRICITY SUBSTATION

If required by the applicable energy supplier, the owner must dedicate to the applicable energy supplier, free of cost, an area of land within the development site, but not in any landscaped area or in any area visible from the public domain, to enable an electricity substation to be installed. The size and location of the substation is to be submitted for approval of Council and Ausgrid, prior to the Stage 3a Construction Certificate being issued or the commencement of the use, whichever is earlier.

Reason

To ensure that the provision of a substation to service the development is appropriately incorporated into the design of the building in a manner that minimises streetscape impacts.

BEFORE BUILDING WORK COMMENCES

(72) DILAPIDATION REPORT – MAJOR EXCAVATION/DEMOLITION

- (a) Subject to the receipt of permission of the affected landowner, dilapidation report/s, including a photographic survey of affected properties (and any other properties identified by the qualified structural engineer engaged to undertake the report) are to be prepared by an appropriately qualified structural engineer prior to commencement of demolition/excavation works. A copy of the dilapidation report/s together with the accompanying photographs must be given to the above property owners, and a copy lodged with the Registered Certifier and the Council prior to the issue of a Construction Certificate.

UPON COMPLETION OF EXCAVATION/DEMOLITION

- (b) A second Dilapidation Report/s, including a photographic survey must then be submitted at least one month after the completion of demolition/excavation works. A copy of the second dilapidation report/s, together with the accompanying photographs must be given to the above property owners, and a copy lodged with the Principal Certifier and the Council prior to the issue of any Occupation Certificate.

Any damage to buildings, structures, lawns, trees, sheds, gardens and the like must be fully rectified by the applicant or owner, at no cost to the affected property owner.

Note: Prior to the commencement of the building surveys, the applicant/owner must advise (in writing) all property owners of buildings to be surveyed of what the survey will entail and of the process for making a claim regarding property damage. A copy of this information must be submitted to Council.

Reason

To ensure that dilapidation reports are prepared and to identify damage to adjoining/nearby properties resulting from building work on the development site.

(73) RODENT TREATMENT PROGRAMME – PRE DEMOLITION AND/OR EXCAVATION

- (a) Prior to the commencement of any demolition and/or excavation works, a programme of baiting and monitoring of rodent activity is to be put in place at the site.
- (b) A licensed Pest Control Operative must carry out all pest control work and prepare a report, confirming that there is no evidence of any rodent activity at the site prior to the commencement of any works on site. The report must be submitted to and be approved/endorsed by Council's Area Coordinator Planning Assessments/Area Planning Manager.

Reason

To ensure that the potential impact of rodents during the demolition, excavation and construction phase is appropriately managed.

(74) APPLICATION FOR HOARDINGS AND SCAFFOLDING INSTALLED ON OR ABOVE A PUBLIC ROAD AND OPERATING HOISTING DEVICES INCLUDING BUILDING MAINTENANCE UNITS OVER A PUBLIC ROAD

- (a) Where a hoarding and/or scaffolding (temporary structures) are proposed to be installed on or above a road reservation (footway and/or roadway), a separate application under Section 68 of the *Local Government Act 1993* and Sections 138/139 of the *Roads Act 1993* must be submitted to and approved by Council for such structures.
- (b) Where an approval (Permit) is granted allowing the placement of temporary structures on or above a public road the structures must comply fully with Council's *Hoarding and Scaffolding Policy; Guidelines for Hoardings and Scaffolding*; and the conditions of approval (Permit) granted including:
 - (i) maintaining a current and valid approval for the full duration that the temporary structure/s is in place;
 - (ii) maintaining temporary structure/s in a structurally sound and stable condition for the full duration of installation (Clause 2.11.1);
 - (iii) bill posters and graffiti being removed within 24 hours of their placement (Clause 2.11.2);
 - (iv) maintaining temporary structures and the public place adjoining the work site in a clean and tidy condition including repainting and/or repair of graphics (Clauses 2.11.1, 2.11.4, 2.14.1 and 3.9.3);
 - (v) maintaining a watertight deck (Type B hoardings) to prevent liquids including rainwater, falling onto the footway/roadway surfaces (Clauses 3.9.1 and 3.9.4);
 - (vi) approved site sheds on the decks of a Type B hoarding being fully screened from the public place (Clause 3.9.5);
 - (vii) material and equipment not being placed or stored on the deck of Type B hoardings, unless specifically approved by Council (Clause 3.9.4);
 - (viii) providing and maintaining operational artificial lighting systems under Type B hoardings including at high-bay truck entry points (Clause 3.9.9); and
 - (ix) ensuring all required signage, artwork or historic images are provided and fully maintained to the City's requirements (Clauses 3.4, 3.9.3, 3.9.6, 3.9.8, 3.10.1 and 4.2).

If it is proposed to operate a hoisting device including a building maintenance unit above a public road which swings, hoists material/equipment and/or slews/wind vanes any part of the device over the public road, a separate application under Section 68 of the *Local Government Act 1993* and Sections 138/139 of the *Roads Act 1993* must be made to Council to obtain approval.

Note: 'Building maintenance unit' means a power-operated suspended platform and associated equipment on a building specifically designed to provide permanent access to the faces of the building for maintenance (*Work Health and Safety Regulation 2017*).

Reason

To ensure the necessary approval is obtained for temporary structures over a public road.

(75) STREET TREE PRUNING AND REMOVAL

- (a) The consent from Council's Tree Management Officer must be obtained prior to the undertaking of any street tree pruning works including tree roots greater than 30mm diameter. Only minor pruning works will be approved by Council.
- (b) Any pruning that has been approved by Council, must be carried out by a qualified Arborist (AQF3), and must be in accordance with AS4373 Australian Standards 'Pruning of Amenity Trees'.

Reason

To ensure that approval is obtained for any pruning works to, or removal of, street trees and that such works are carried out in an appropriate manner.

(76) PUBLIC DOMAIN WORK – CONSTRUCTION APPROVAL UNDER SECTION 138 ROADS ACT 1993

Prior to the construction of any public domain works, approval under Section 138 / 139 of the Roads Act 1993 must be issued by the City's Public Domain Unit.

Reason

To ensure relevant approvals for public domain work are obtained.

(77) OPERATING HOISTING DEVICES INCLUDING BUILDING MAINTENANCE UNITS OVER A PUBLIC ROAD

If it is proposed to install a building maintenance unit or operate a hoisting device above a road (footpath) including swinging, hoisting material/equipment and slewing any part of the device, a separate application under Section 68 of the *Local Government Act 1993* and Sections 138/139 of the *Roads Act 1993* must be submitted to and approved by Council prior to the installation of such devices.

Note: Building maintenance unit means a power operated suspended platform and associated equipment on a building specifically designed to provide permanent access to the faces of the building for maintenance (*Work Health and Safety Regulation 2017*).

Reason

To ensure appropriate approvals are sought for operating hoisting devices.

(78) ROAD OPENING APPLICATION

A separate road opening application under Sections 138/139 of the *Roads Act 1993* must be submitted to and approved by Council prior to the commencement of any:

- (a) Excavation in or disturbance of a public way, or
- (b) Excavation on land that, if shoring were not provided, may disturb the surface of a public road (including footpath).

Reason

To ensure that approval under the Roads Act is obtained.

(79) SYDNEY WATER CERTIFICATE (TAP-IN)

- (a) The approved plans must be submitted to Sydney Water's "Tap-in" online service to determine whether the development will affect Sydney Water's sewer and water mains, stormwater drains and/or easements, and if further requirements need to be met. Sydney Water's "Tap-in" online service is available at www.sydneywater.com.au, (see Plumbing, Building & Development and then Sydney Water "Tap-in").
- (b) The Consent Authority or a Principal Certifier must ensure that Sydney Water has appropriately stamped the plans before the commencement of work.

Reason

To ensure the development satisfies Sydney Waters requirements.

(80) STREET ADDRESSES OF LOTS

In accordance with Clause 60(c) of the Surveying and Spatial Information Regulation 2017, the street addresses for each lot must be shown on the final plan of subdivision. An application should be made to Council to obtain the correct street address for each lot.

(81) ADDITIONAL EASEMENTS

Any other documentary easements or any other encumbrances and indemnities required for joint or reciprocal use of part or all of the proposed lots as a consequence of the subdivision must be created over appropriate lots in the subdivision, pursuant to Section 88B of the *Conveyancing Act 1919* and to Council's satisfaction.

DURING BUILDING WORK

(82) PUBLIC DOMAIN WORKS SECURITY BOND

A Public Domain Works Security Bond will be required for the public domain works and for repairing damage that may be caused to the public domain in the vicinity of the site, in accordance with the City of Sydney's adopted fees and charges and the Public Domain Manual.

The City's Public Domain Unit must be contacted to determine the bond amount prior to lodgement. The bond must be lodged with the City prior to an approval being issued for the approval of the Public Domain Plan.

The bond will be retained in full until all public domain works, including rectification of damage to the public domain, are completed to City's standards and approval and the required works-as-executed documentation are approved. On satisfying the above requirements, and the issue of the Public Domain Works Letter of Completion Operational Acceptance by the City, 90% of the bond will be released. The remaining 10% will be retained for the duration of the specified Defects Liability Period.

Reason

To ensure public domain works are completed and any damage to the public domain is rectified.

(83) DRAINAGE AND SERVICE PIT LIDS

All existing or proposed drainage and service pit lids throughout the public domain must be to City of Sydney specifications and heel/bicycle safe, slip resistant, infill with material to match surrounding surface, finished flush with the adjacent pavement to avoid trip hazards and be clear of obstructions for easy opening and cleaning. Infill pit lids are to be detailed where specified by Council's Public Domain Officer. Private pits are not permitted within the public domain. All details of pit lids must be shown on the public domain plan and must be approved by the City's Public Domain Unit prior to the issue of an approval for public domain works.

Reason

To ensure drainage and service pit lids within the public domain are appropriately designed and installed.

(84) PUBLIC DOMAIN PLAN DETAILED DOCUMENTATION FOR CONSTRUCTION

A detailed public domain plan and all relevant documentation must be submitted to and approved by City's Public Domain Unit prior to issue of the Stage 3a and 3b Construction Certificate. This Plan must document all works required to ensure that the public domain upgrade work complies with the City's specifications and requirements, as outlined in documents such as City of Sydney's *Public Domain Manual*, *Sydney Streets Code*, *Sydney Street Tree Masterplan*, *Sydney Lights: Public Domain Design Code* and *Sydney Streets Technical Specification*. The documentation must be *checked, accurate, and comply with specified requirements*.

Plans must be based on an accurate survey, to scale and fully coordinated across all disciplines and submissions. The supplied documentation must be for Construction issue and will be approved under Section 138 of the Roads Act.

The Public Domain Manual and all other relevant documents are available for download from Council's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/da-associated-works>.

The Public Domain Plan documentation must be submitted with an Application for Public Domain Plan Assessment and include the approved Public Domain Levels and Gradients documentation. If the proposed detailed design of the public domain requires changes to any previously approved levels, details must be submitted for approval with the public domain plan and additional fees may apply.

Reason

To ensure the public domain complies with Council's requirements.

(85) HOLD POINTS

Prior to an approval being issued for the construction of public domain and / or planning agreement works, including civil, drainage and subsurface works, a set of hold points will be provided by the City's Public Domain Unit in accordance with the City's Public Domain Manual and Sydney Streets Technical Specification. The list of hold point inspections will be included in the Public Domain works approval letter.

These hold point inspections must be adhered to during construction works. Prior to the issue of any Occupation Certificate, confirmation from the City's Public Domain Unit, that hold point inspections have been completed and works have been accepted by the City must be provided to the Principal Certifier.

Reason

To ensure hold points are adhered to during construction works.

(86) STORMWATER DRAINAGE CONNECTION

For approval of a connection into the City of Sydney's drainage system an "*Application for Approval of Stormwater Drainage Connections*" must be submitted to the City, together with an application fee in accordance with the City of Sydney's adopted Schedule of Fees and Charges. This must be approved prior to approval being issued for the construction of public domain work.

Reason

To ensure approval of connection into the Council's drainage system is sought.

(87) PUBLIC DOMAIN LIGHTING RETICULATION

Prior to the issue of any relevant approval for the construction of public domain works, a detailed Public Domain Lighting Reticulation Plan for pedestrian and street lighting in the public domain must be submitted to and approved by the City's Public Domain Unit in accordance with the City's *Sydney Lights Design Code*, *Sydney Streets Code*, *Sydney Streets Technical Specification* and *Public Domain Manual*.

The Public Domain Manual and all other relevant documents are available for download from Council's website at <https://www.cityofsydney.nsw.gov.au/development/public-domain-works/d-a-associated-works>.

If applicable, this public domain lighting documentation must include pole footing locations and structural details, location and details of underground electrical reticulation including connections and conduits, pit cabling and certifications as described in the City's *Public Domain Manual*. The public domain lighting is to be superimposed on the public domain plan to show any conflicts between lighting and the proposed landscape design.

Reason

To ensure the public domain lighting documentation complies with Council requirements.

(88) ASBESTOS REMOVAL WORKS

- (a) All works removing asbestos containing materials must be carried out by a suitably licensed asbestos removalist duly licensed with Safework NSW, holding either a Friable (Class A) or a Non-Friable (Class B) Asbestos Removal Licence which ever applies.

A copy of the relevant licence must be made available to any authorised Council officer on request within 24 hours.

- (b) Five days prior to the commencement of licensed asbestos removal, Safework NSW must be formally notified of the works. All adjoining properties and those opposite the development must be notified in writing of the dates and times when asbestos removal is to be conducted. The notification must identify the licensed asbestos removal contractor and include a contact person for the site together with telephone number and email address.
- (c) All work must be carried out in accordance with the *Work Health and Safety Regulation 2017* and the NSW Government and SafeWork NSW document entitled *How to manage and control asbestos in the work place: Code of Practice (Safework NSW) December 2011* and the *City of Sydney Managing Asbestos Policy dated 21 October 2013 and associated guidelines*.

- (d) The asbestos removalist must use signs and barricades to clearly indicate the area where the asbestos removal work is being performed. Signs must be placed in positions so that people are aware of where the asbestos removal work area is and should remain in place until removal is completed and clearance to reoccupy has been granted. Responsibilities for the security and safety of the asbestos removal site and removal must be specified in the asbestos removal control plan (where required). This includes inaccessible areas that are likely to contain asbestos.
- (e) Warning signs must be placed so they inform all people nearby that asbestos removal work is taking place in the area. Signs must be placed at all of the main entry points to the asbestos removal work area where asbestos is present. These signs must be weatherproof, constructed of light-weight material and adequately secured so they remain in prominent locations. The signs must be in accordance with AS 1319 -1994 *Safety Signs for the Occupational Environment* for size, illumination, location and maintenance.
- (f) Asbestos waste must only be transported and disposed of at an EPA licensed waste facility.
- (g) No asbestos products are to be reused on the site (i.e. packing pieces, spacers, formwork or fill etc).
- (h) No asbestos laden skips or bins are to be left in any public place without the written approval of Council.
- (i) A site notice board must be located at the main entrance to the site in a prominent position and must have minimum dimensions of 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size.

The site notice board must include the following:

- (i) contact person for the site;
- (ii) telephone and facsimile numbers and email address; and
- (iii) site activities and time frames.

Reason

To ensure that the handling and removal of asbestos from the site is appropriately managed.

(89) FLASHINGS TO BOUNDARY WALLS

A flashing must be provided to prevent water entering between the proposed and existing external boundary walls of the adjoining properties.

Note: Attachments or connections to party walls may require the consent of the adjoining property owner/s.

Reason

To prevent water entering between the walls of adjoining properties.

(90) HOURS OF WORK AND NOISE – OUTSIDE CBD

The hours of construction and work on the development must be as follows:

- (a) All work, including building/demolition and excavation work, and activities in the vicinity of the site generating noise associated with preparation for the commencement of work (eg. loading and unloading of goods, transferring of tools etc) in connection with the proposed development must only be carried out between the hours of 7.30am and 5.30pm on Mondays to Fridays, inclusive, and 7.30am and 3.30pm on Saturdays, with safety inspections being permitted at 7.00am on work days, and no work must be carried out on Sundays or public holidays.
- (b) All work, including demolition, excavation and building work must comply with the City of Sydney Code of Practice for Construction Hours/Noise 1992 and Australian Standard 2436 - 2010 Guide to Noise Control on Construction, Maintenance and Demolition Sites.
- (c) Notwithstanding the above, the use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on-site tower cranes which warrant the on-street use of mobile cranes outside of above hours can occur, subject to a separate application being submitted to and approved by Council under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993.

Note: Works may be undertaken outside of hours, where it is required to avoid the loss of life, damage to property, to prevent environmental harm and/or to avoid structural damage to the building. Written approval must be given by the Construction Regulation Team, prior to works proceeding.

The *City of Sydney Code of Practice for Construction Hours/Noise 1992* allows extended working hours subject to the approval of an application in accordance with the Code and under Section 4.55 of the *Environmental Planning and Assessment Act 1979*.

Reason

To protect the amenity of the surrounding area.

(91) USE OF HIGH NOISE EMISSION APPLIANCES / PLANT

- (a) The operation of high noise emission appliances, plant and/or machinery such as pile – drivers, rock breakers and hydraulic hammers and those which are not listed in Groups B, C, D, E or F of Schedule 1 of the *City of Sydney Code of Practice for Construction Hours/Noise 1992* and Australian Standard 2436-2010 *Guide to Noise Control on Construction, Maintenance and Demolition Sites* is restricted to the hours of (EHO to specify hours)
- (b) All reasonable and feasible steps must be undertaken to ensure that the work, including demolition, excavation and building complies with the *City of Sydney Code of Practice for Construction Hours/Noise 1992* and Australian Standard 2436- 2010 *Guide to Noise Control on Construction, Maintenance and Demolition Sites*.

Reason

To protect the amenity of the surrounding area.

(92) NOTIFICATION OF EXCAVATION WORKS OR USE OF HIGH NOISE EMISSION APPLIANCES/PLANT

The immediately adjoining neighbours must be given a minimum of 48 hours notice that excavation, shoring or underpinning works or use of high noise emission appliances / plant are about to commence.

Reason

To protect the amenity of the surrounding area.

(93) NOTIFICATION – NEW CONTAMINATION EVIDENCE

Council's Area Planning Manager and the Principal Certifier must be notified of any new information which comes to light during remediation, demolition or construction works which has the potential to alter previous conclusions about site contamination.

Reason

To ensure that the site is appropriately remediated.

(94) SURVEY

All footings, walls and floor slabs adjacent to a boundary must be set out by a registered surveyor. On commencement of brickwork or wall construction a survey and report, prepared by a Registered Surveyor, must be submitted to the Principal Certifier indicating the position of external walls in relation to the boundaries of the allotment. Any encroachments by the subject building over adjoining boundaries or roads must be removed prior to continuation of building construction work.

Reason

To ensure the development does not encroach onto neighbouring properties.

(95) COVERING OF LOADS

All vehicles involved in the excavation and/or demolition process and departing the property with demolition materials, spoil or loose matter must have their loads fully covered before entering the public roadway.

Reason

To ensure loads are managed appropriately and do not impact local amenity.

(96) COMPLIANCE WITH DEMOLITION, EXCAVATION AND CONSTRUCTION NOISE AND VIBRATION MANAGEMENT PLAN

- (a) All works conducted on site which form part of this development must be carried out in accordance with the submitted Demolition, Excavation and Construction Management Plan prepared by Elephants Foot Company dated 15/12/2022 Revision B.

- (b) Where all such control measures have been implemented and the resultant noise and/ or vibration levels at any sensitive receiver still exceed the council's applicable criteria stated in the Construction Hours/Noise Code 1992 and are giving rise to sustained complaints then the contractor must provide regular, appropriate and sustained periods of respite in consultation with Council's Health and Building unit. Approval to vary the authorised noise and vibration levels must be received in writing by the proponent from Council prior to activities being undertaken that exceed sanctioned emission levels. (Use where respite periods not specified under the approved DEC NMP)

Such periods must be set and agreed to by Council's Health and Building Unit.

Reason

To ensure all parties are aware of the supporting documentation that applies to the development.

(97) STREET TREE PROTECTION

All street trees located directly outside the site must be retained and protected in accordance with the Australian Standard 4970 Protection of Trees on Development Sites. All street trees must be protected during the construction works as follows:

- (a) Tree trunk and major limb protection must be undertaken prior to the commencement of any works (including demolition). The protection must be installed and certified by a qualified Arborist (AQR Level 3) and must include:
 - (i) An adequate clearance, minimum 250mm, must be provided between the structure and tree branches, and trucks at all times.
 - (ii) Tree trunk/s and/or major branches to a height of two meters must be protected by wrapped thick underlay carpet or similar padding material to limit damage, and
 - (iii) Timber planks (50mm x 100mm or similar) must be placed around tree trunk/s. The timber planks must be spaced at 100mm intervals and must be fixed against the trunk with tie wire, or strapping. The thick underlay carpet or similar padding material and timber planks must not be fixed to the tree in any instance, or in any fashion.
 - (iv) Tree trunk and major branch protection is to remain in place for the duration of construction and development works and must be removed at the completion of the project.
- (b) Temporary signs, or any other items, shall not be fixed or attached to any street tree.
- (c) All hoarding support columns are to be placed a minimum of 300mm from the edge of the existing tree pits/setts, so that no sinking or damage occurs to the existing tree pits. Supporting columns must not be placed on any tree roots that are exposed.

- (d) Materials or goods, including site sheds, must not be stored or placed:
 - (i) around or under the tree canopy; or
 - (ii) within two (2) metres of tree trunks or branches of any street trees.
- (e) Any excavation within any area known to or suspected of having tree roots greater than 30mm diameter must be undertaken by hand.
- (f) Any trenching works for services, hydraulics, drainage etc. must not be undertaken within the Tree Protection Zone of any street tree. Alternate installation methods for services such as directional boring/drilling or redirection of services must be employed where roots greater than 30mm diameter are encountered during installation of any services.
- (g) Existing sections of kerbs adjacent to any street tree must not be removed without approval from the Council's Tree Management Officer.
- (h) Any damage sustained to street tree/s as a result of the erection of any construction activities (including demolition) must be immediately reported to the Council's Tree Management Officer on 9265 9333. Any damage to street trees as a result of any construction activities may result in prosecution under the Local Government Act 1993 and the Environmental Planning and Assessment Act 1979.

Reason

To ensure the protection and ongoing health of the street trees.

(98) TREE SENSITIVE EXCAVATION

- (a) Within the SRZ;
 - (i) Excavation must not occur within the SRZ. If excavation is proposed within this zone, the Council's Tree Management Officer must be contacted immediately and the excavation must be carried out in accordance with Council's direction.
- (b) Within the TPZ;
 - (i) Small hand tools such as mattocks or using compressed air or water jetting only shall be used. Roots with a diameter equal to or greater than 40mm shall not be severed or damaged unless approved in writing by Council's Tree Management Officer.

Mechanical excavation is permitted beyond this radius when root pruning by hand along the perimeter line is completed. Exposed roots to be retained shall be covered with mulch or a geotextile fabric and kept in a moist condition and prevented from drying out.
 - (ii) All excavations must be supervised by a Project Arborist (minimum AQF Level 5).

- (c) Footings must be relocated / realigned if any tree root greater than 40mm in diameter is encountered during excavations. A minimum of 150mm clearance must be provided between the tree root and footing.
- (d) All excavations located within the TPZ must be supervised by a Project qualified Consultant Arborist (minimum AQF Level 5), who holds the Diploma in Horticulture (Arboriculture), Level 5 under the Australian Qualification Framework.
- (e) All root pruning must be undertaken in accordance with the Australian Standard 4373 'Pruning of Amenity Trees' and by a qualified Arborist with a minimum AQF level 3.

Reason

To ensure the protection and ongoing health of trees.

(99) SYDNEY WATER CERTIFICATE

A Section 73 Compliance Certificate under the Sydney Water Act 1994 must be obtained from Sydney Water Corporation.

Application must be made through an authorised Water Servicing Coordinator. Please refer to the Building Developing and Plumbing section on the web site www.sydneywater.com.au then refer to "Water Servicing Coordinator" under "Developing Your Land" or telephone 13 20 92 for assistance.

Following application a "Notice of Requirements" will advise of water and sewer infrastructure to be built and charges to be paid. Please make early contact with the Coordinator, since building of water/sewer infrastructure can be time consuming and may impact on other services and building, driveway or landscape design.

The Section 73 Certificate must be submitted to Council or the Principal Certifier prior to any Occupation Certificate or subdivision/strata certificate being issued.

Reason

To ensure the requirements of Sydney Water are met.

(100) LOADING AND UNLOADING DURING CONSTRUCTION

The following requirements apply:

- (a) All loading and unloading associated with construction activity must be accommodated on site, where possible.
- (b) If, it is not feasible for loading and unloading to take place on site, a Works Zone on the street may be considered by Council.

- (c) A Works Zone may be required if loading and unloading is not possible on site. If a Works Zone is warranted an application must be made to Council at least 8 weeks prior to commencement of work on the site. An approval for a Works Zone may be given for a specific period and certain hours of the days to meet the particular need for the site for such facilities at various stages of construction. The approval will be reviewed periodically for any adjustment necessitated by the progress of the construction activities.
- (d) Where hoisting activity over the public place is proposed to be undertaken including hoisting from a Works Zone, a separate application under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993 must be submitted to and approved by Council.

Reason

To protect the amenity of the public domain.

(101) NO OBSTRUCTION OF PUBLIC WAY

Unless otherwise approved by Council, the public way must not be obstructed by any materials, vehicles, waste receptacles, skip-bins or the like. Non-compliance with this requirement may result in the issue of a notice by Council to stop all work on the site.

Reason

To protect the amenity of the public domain.

(102) USE OF MOBILE CRANES

The following requirements apply:

- (a) Mobile cranes operating from the road must not be used as a method of demolishing or constructing a building.
- (b) For special operations including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes, permits must be obtained from Council for the use of a mobile crane. The permits must be obtained 48 hours beforehand for partial road closures which, in the opinion of Council will create minimal traffic disruptions and 4 weeks beforehand in the case of full road closures and partial road closures which, in the opinion of Council, will create significant traffic disruptions.
- (c) The use of a crane for special operations, including the delivery of materials, hoisting of plant and equipment and erection and dismantling of on site tower cranes which warrant the on-street use of mobile cranes outside of approved hours of construction can occur, subject to a separate application being submitted to and approved by Council under Section 68 of the Local Government Act 1993 and Sections 138/139 of the Roads Act 1993.

Reason

To ensure mobile cranes are used appropriately.

(103) ARCHAEOLOGICAL DISCOVERY DURING EXCAVATION

- (a) Should any relics be unexpectedly discovered on the site during excavation, all excavation or disturbance to the area is to stop immediately and the Heritage Council of NSW should be informed in accordance with section 146 of the Heritage Act 1977.
- (b) Should any Aboriginal objects be unexpectedly discovered then all excavation or disturbance of the area is to stop immediately and NSW Government Office of Environment and Heritage is to be informed in accordance with Section 89A of the *National Parks and Wildlife Act 1974*.
- (c) Should any archaeological remains or Aboriginal objects be discovered, a copy of recording of the finds and the final archaeological summary report is to be submitted to Council prior to the issue of any Occupational Certificate.
- (d) If the discovery is on Council's land, Council must be informed.

Reason

To ensure that the archaeology of the site is appropriately managed and protected.

(104) SITE NOTICE OF PROJECTS DETAILS AND APPROVALS

A site notice is to be prominently displayed at the boundary to each frontage of the site for the purposes of informing the public of appropriate project details and relevant approvals. The notice(s) is to satisfy all of the following requirements:

- (a) Minimum dimensions of the notice are to measure 841mm x 594mm (A1) with any text on the notice to be a minimum of 30 point type size;
- (b) The notice is to be durable and weatherproof and is to be displayed throughout the construction period;
- (c) A copy of the first page of the development approval, building approval (including any modifications to those approvals) and any civic works approvals is to be posted alongside the notice in weatherproof casing;
- (d) The approved hours of work, the Principal Certifier including contact address and certification details, the name of the site manager, the responsible managing company, its address and 24 hour contact phone number for any enquiries, including construction/noise complaint, and the estimated date of completion of the project are to be displayed on the site notice;
- (e) The notice(s) is to be mounted at eye level on the perimeter hoardings and is also to state that unauthorised entry to the site is not permitted.
- (f) All notices and signs must be displayed in locations as specified in the City's Guidelines for Hoardings and Scaffolding.

Reason

(Prescribed condition EP&A Regulation, clauses 98A (2) and (3)).

(105) STRATA SUBDIVISION – DEVELOPMENT CONSENT

Any proposal for strata subdivision will require development consent and therefore the lodgement of a separate development application or complying development application and subsequent approval from Council, or a Registered Strata Certifier, of the Strata Plan – and issue of a Strata Certificate, under the *Strata Schemes Development Act 2015*.

Reason

To ensure separate development consent is sought for strata subdivision.

(106) SURVEY

- (a) AT FOUNDATION STAGE - All footings and walls adjacent to a boundary must be set out by a registered surveyor. On commencement of brickwork or wall construction a survey and report must be submitted to the Principal Certifier indicating the position of external walls in relation to the boundaries of the allotment. Any encroachments of the subject building over the side boundaries must be removed prior to continuation of building construction work, or alternatively a letter supplied from the registered proprietor(s) of the adjoining lot(s) confirming that they are aware of the nature & extent of the encroachment, and undertaking to execute all necessary documentation to permit the creation of an easement to permit the encroachment to remain.
- (b) Prior to the concrete pour of the main slab at each level, a survey shall be made by a surveyor registered under the Surveying & Spatial Information Act, 2002, confirming that the formwork adjacent to existing or proposed boundaries is clear of those existing or proposed boundaries and is in accordance with approved setbacks. This survey shall be provided to the Principal Certifier prior to the concrete pour. The concrete pour must not take place until the Principal Certifier receives a survey proving that the formwork has been constructed within the existing and proposed boundaries of the site, and is compliant with the setbacks approved under this consent.
- (c) AT COMPLETION - Prior to the issue of any staged or final Occupation Certificate for a part or the whole of the building - a Final Identification Survey prepared by a Surveyor registered under the Surveying & Spatial Information Act, 2002 must be submitted at the completion of the building work certifying the location of the building in relation to the boundaries of the allotment. Any encroachments of the building over the external site boundaries or proposed internal boundaries as approved by this consent must be rectified prior to the issue of a staged or final Occupation Certificate for the whole or any part of the building, or suitable easements registered on title.

Reason

To ensure the development does not encroach onto neighbouring properties.

BEFORE ISSUE OF AN OCCUPATION CERTIFICATE

(107) PUBLIC DOMAIN WORKS COMPLETION

The Public Domain works are to be constructed in accordance with the Public Domain Works Approval letter, stamped plans for Public Domain Levels and Gradients, Stormwater, Public Domain Lighting, the City's *Public Domain Manual*, *Stormwater Drainage Manual*, *Sydney Lights Design Code* and *Sydney Streets Technical Specification*.

The public domain work must be inspected and a Public Domain Work Letter of Completion Operational Acceptance must be issued by Council's Public Domain Officer prior to the issue of the relevant Occupation Certificate or before the commencement of use, whichever is earlier.

Reason

To ensure the public domain works are completed in accordance with the approved documents and Council's requirements.

(108) PUBLIC DOMAIN COMPLETION – WORK AS EXECUTED DOCUMENTATION

Prior to a Public Domain Works Letter of Completion Operational Acceptance being issued for public domain works, works-as-executed (As-Built) plans and documentation, must be submitted to and accepted by the City of Sydney for all public domain works, including where required Stormwater, Public Domain Lighting and road construction. These works must be certified by a suitably qualified, independent professional. Details of the documentation required for approval will be advised by the City's Public Domain Unit.

Reason

To ensure Council receives works-as-executed documentation for public domain works.

(109) STORMWATER COMPLETION DEED OF AGREEMENT AND POSITIVE COVENANT

Prior to the issue of the relevant Occupation Certificate:

- (a) The Owner is required to enter into a Deed of Agreement (Stormwater Deed) with the City of Sydney and obtain registration of Title of a Positive Covenant for all proposed connections to the City's underground drainage system. The deed and positive covenant will contain terms reasonably required by the City and will be drafted by the City's Legal Services Unit at the cost of the applicant, in accordance with the City's Fees and Charges.
- (b) A Positive Covenant must be registered on the property title for all drainage systems involving On-Site Detention (OSD) to ensure maintenance of the approved OSD system regardless of the method of connection. The positive covenant will contain terms reasonably required by the City and will be drafted by the City's solicitor at the cost of the applicant, in accordance with the City's Fees and Charges.

Reason

To protect underground drainage system.

(110) SURVEY INFRASTRUCTURE – RESTORATION

- (a) Prior to the issue of the relevant Occupation Certificate being issued for the development, documentary evidence of restoration must be prepared by a Registered Surveyor and submitted to and approved by Council's Area Planning Manager / Coordinator. This evidence must include:
 - (i) Certification that all requirements requested under the Surveyor-General's Approval for Survey Mark Removal or by the City's Principal Surveyor under condition "Survey Infrastructure – Identification and Recovery" have been complied with;
 - (ii) Certification that all requirements requested under any Surveyor-General's Approval for Deferment of Survey Marks from condition "Survey Infrastructure – Pre Subdivision Certificate works" have been complied with and;
 - (iii) Time-stamped photographic records of all new survey infrastructure relating to the site clearly showing the mark itself and sufficient context to aid in identifying the mark on site.

Reason

To ensure all requirements for survey mark removal are complied with.

(111) CONSTRUCTED FLOOR LEVELS

A certification report prepared by a suitably qualified practitioner engineer (NPER) must be submitted to the Principal Certifier prior to issue of the relevant Occupation Certificate stating that the development has been constructed and the required levels achieved in accordance with the recommendations of the report titled Performance Criteria Flood Assessment / Rev B prepared by Northrop dated 5 September 2023.

Reason

To ensure the development achieves the required floor levels.

(112) FLOOD RISK MANAGEMENT

Prior to the issue of the relevant Occupation Certificate, a certification report prepared by a suitably qualified practitioner engineer (NPER), for flood risk management measures including flood planning level/s demonstrating compliance with the approved construction plans must be submitted to and be approved by the Principal Certifier. A copy of the report must be provided to Council for record keeping purposes.

Reason

To ensure flood risk management measures are complied with.

(113) COMPLIANCE WITH HAZARDOUS MATERIALS SURVEY REPORT

All of the recommendations for management and/or removal of hazardous materials on the site, as outlined in the Hazardous Materials Survey Report (prepared by Safe Work & Environments dated 27/05/2020), as approved must be complied with.

Prior to the issue of any Occupation Certificate, certification must be submitted to the Principal Certifier from a certified Occupational Hygienist (*Australia Institute of Occupational Hygienists*) confirming that all hazardous materials identified have been contained, managed or removed in accordance with the recommendations given in the approved Hazardous Materials Survey Report and that the site is safe for future occupation in accordance with the approved use.

Reason

To ensure that hazardous materials on the site are appropriately managed.

(114) BASIX

All commitments listed in each relevant BASIX Certificate for the development must be fulfilled prior to any Occupation Certificate being issued.

Reason

To ensure BASIX commitments are fulfilled in accordance with the BASIX certificate (prescribed condition under clause 75 EP&A Regulation 2021).

(115) PHYSICAL MODELS

- (a) Prior to the issue of any Occupation Certificate an accurate 1:500 scale model of the development as constructed must be submitted to and approved by Council's Area Coordinator Planning Assessments/Area Planning Manager for the City Model in Town Hall House.

Note:

- (i) The models must be constructed in accordance with the Model Specifications available online at <http://www.cityofsydney.nsw.gov.au/development/application-guide/application-process/model-requirements> Council's modellers must be consulted prior to construction of the model.
- (ii) The models are to comply with all of the conditions of the Development Consent.
- (iii) The models must be amended to reflect any further modifications to the approval (under Section 4.55 of the *Environmental Planning and Assessment Act*) that affect the external appearance of the building.

Reason

To ensure the provision of an appropriate physical model of the development.

(116) SUBMISSION OF ELECTRONIC CAD MODELS PRIOR TO OCCUPATION CERTIFICATE

- (a) Prior to any Occupation Certificate being issued, an accurate 1:1 electronic CAD model of the completed development must be submitted to and approved by Council's Area Coordinator Planning Assessments/Area Planning Manager for the electronic Visualisation City Model.
- (b) The data required to be submitted within the surveyed location must include and identify:
 - (i) building design above and below ground in accordance with the development consent;
 - (ii) all underground services and utilities, underground structures and basements, known archaeological structures and artefacts;
 - (iii) a current two points on the site boundary clearly marked to show their Northing and Easting MGA (Map Grid of Australia) coordinates, which must be based on Established Marks registered in the Department of Lands and Property Information's SCIMS Database with a Horizontal Position Equal to or better than Class C.

The data is to be submitted as a DGN or DWG file on a Compact Disc. All modelling is to be referenced to the Map Grid of Australia (MGA) spatially located in the Initial Data Extraction file.

- (c) The electronic model must be constructed in accordance with the City's 3D CAD electronic model specification. The specification is available online at <http://www.cityofsydney.nsw.gov.au/development/application-guide/application-process/model-requirements> Council's Modelling staff should be consulted prior to creation of the model. The data is to comply with all of the conditions of the Development Consent.

Reason

To ensure the provision of an appropriate electronic model of the development.

(117) SURVEY CERTIFICATE AT COMPLETION

A Survey Certificate prepared by a Registered Surveyor must be submitted to the Principal Certifier at the completion of the building work certifying the location of the building in relation to the boundaries of the allotment.

Reason

To ensure the development does not encroach onto neighbouring properties.

(118) WASTE AND RECYCLING COLLECTION CONTRACT

Prior to the relevant Occupation Certificate being issued, the building owner must ensure that there is a contract with a licensed contractor for the removal of **all waste**. Waste is to be stored and collected from within the curtilage of the site at all times.

Reason

To ensure that waste and recycling is appropriately managed.

(119) PRODUCTS BANNED UNDER THE BUILDING PRODUCTS (SAFETY) ACT 2017

- (a) No building products that are banned, or products that are subject to a ban if used in a particular way, under the Building Products (Safety) Act 2017 are to be used in the construction of the development approved in this development consent.
- (b) Prior to the issue of any Occupation Certificate, the principal certifier is to confirm that none of the building products used on the building are subject to a building product use ban under the Building Products (Safety) Act 2017 or, if a product is only subject to a ban if used in a particular way that it is not used in any way contrary to the Building Products (Safety) Act 2017.

Reason

To ensure that no banned products are used in the development.

(120) PARTY WALL

- a) The part(s) of the common boundaries between the proposed lots in the subdivision occupied by the proposed shared wall of the abutting buildings are to be shown as "Party Wall" on a Plan of Easement (or similar) in order to invoke the statutory provisions of Section 181B of the *Conveyancing Act, 1919* and create the required Easements for Support.
- b) The party wall(s) must be of masonry construction and extend at a minimum to the underside of the roof structure
- c) The plan of easement must be registered at NSWLRS prior to the issue of any occupation certificate for any building.

Reason

To ensure the orderly development of land, with the creation of the appropriate easements

OCCUPATION AND ONGOING USE

(121) ENCROACHMENTS – NEIGHBOURING PROPERTIES

No portion of the proposed structure shall encroach onto the adjoining properties.

Reason

To protect neighbouring properties.

(122) ENCROACHMENTS – PUBLIC WAY

No portion of the proposed structure, including gates and doors during opening and closing operations, shall encroach upon Council's footpath area.

Reason

To protect the public way.

(123) USE OF COMMON AREAS AND FACILITIES

The roof top terrace must be available for the use all residents of the building and must be designated as common property on any strata subdivision of the site, with no exclusive use rights.

Reason

To ensure designated areas within the residential development are maintained as common property.

(124) HOURS OF USE – COMMON ROOF TERRACE

The common roof terrace for 5-15 Mary Street (Foster House) is restricted to between 7am and 10pm Monday to Sunday.

Reason

To achieve appropriate residential amenity outcomes

(125) PLAN OF MANAGEMENT – FOSTER HOUSE

The use of Foster House must always be operated / managed in accordance with the Plan of Management, prepared by The Salvation Army signed and dated 15 December 2022 that has been approved by Council. In the event of any inconsistency, the conditions of this consent will prevail over the Plan of Management.

Reason

To ensure all parties are aware of the approved supporting documentation that applies to the development.

(126) OLYMPIC AND POWERLIFTING WEIGHTS PROHIBITED

Olympic and or powerlifting weights must not be kept or used on the premises.

For the purpose of this condition, Olympic and or Powerlifting weights means:

- (a) In reference to 'Olympic weights', equipment described by and or reasonably equivalent to Regulation 3.3.3 describing barbels, discs and collars of the *IWF (International Weightlifting) 2020 Technical and Competition Rules & Regulations*, published by the IWF, dated 2020.
- (b) In reference to 'powerlifting weights', equipment described by or reasonably equivalent to that described by the *Bars and Discs and Collars subsection of the Equipment and Specifications section of the IPF (International Powerlifting Federation) Technical Rules Book 2021*, updated on 31 December 2021.

Reason

To protect the acoustic amenity of surrounding properties.

(127) NOISE – COMMERCIAL PLANT / INDUSTRIAL DEVELOPMENT

- (a) Noise from commercial plant and industrial development must not exceed a project amenity/intrusiveness noise level or maximum noise level in accordance with relevant requirements of the NSW EPA [Noise Policy for Industry 2017 \(NPfI\)](#) unless agreed to by the City's Area Planning Manager. Further:
 - (i) Background noise monitoring must be carried out in accordance with the long-term methodology in [Fact Sheet B](#) of the NPfI unless otherwise agreed by the City's Area Planning Manager.
 - (ii) Commercial plant is limited to heating, ventilation, air conditioning, refrigeration and energy generation equipment.
- (b) An $L_{Aeq,15 \text{ minute}}$ (noise level) emitted from the development must not exceed the $L_{A90, 15 \text{ minute}}$ (background noise level) by more than 3dB when assessed inside any habitable room of any affected residence or noise sensitive commercial premises at any time. Further:
 - (i) The noise level and the background noise level must both be measured with all external doors and windows of the affected residence closed.
 - (ii) Background noise measurements must not include noise from the development but may include noise from necessary ventilation at the affected premises.
- (c) Corrections in [Fact Sheet C](#) of the NPfI are applicable to relevant noise from the development measured in accordance with this condition, however duration corrections are excluded from commercial noise.

Reason

To protect the acoustic amenity of surrounding properties.

(128) ON SITE LOADING AREAS AND OPERATION

All loading and unloading operations associated with servicing the site must be carried out within the confines of the site, at all times and must not obstruct other properties/units or the public way.

At all times the service vehicle docks, car parking spaces and access driveways must be kept clear of goods and must not be used for storage purposes, including garbage storage.

Reason

To maintain the orderly operation of vehicle parking areas and to ensure the public domain is kept free from physical obstructions.

(129) LOADING SERVICE MANAGEMENT PLAN

The proposed service vehicle space must not be reserved by the retail/commercial, or any other single tenancy, and must be available to all users within the site. A management plan, loading dock manager, loading and delivery schedule or similar must be prepared and maintained within the site so all users are aware of their entitlements and to avoid too many deliveries being at the loading dock / service vehicle parking space at any one time.

(130) OCCUPATION CERTIFICATE TO BE SUBMITTED

An Occupation Certificate must be obtained from the Principal Certifier and a copy submitted to Council prior to commencement of occupation or use of the whole or any part of a new building, an altered portion of, or an extension to an existing building.

Reason

To ensure the site is authorised for occupation.

(131) WASTE/RECYCLING COLLECTION - COMMERCIAL

- (a) Waste storage and the collection of waste and recycling must only occur during the designated zone collection times as outlined in the City's Waste Policy – Local Approvals Policy for Managing Waste in Public Places 2017.
- (b) Waste and recycling bins must not be placed on the street for collection. Services must be conducted within the property boundary or as a wheel-out/wheel-back service.
- (c) Unimpeded access must be provided for collection vehicles to set down within 10 metres of waste storage areas during zone collection times on collection days.

Reason

To ensure that waste and recycling is appropriately managed.

(132) DEFECTS LIABILITY PERIOD – PUBLIC DOMAIN WORKS

All works to the City's public domain, including rectification of identified defects, are subject to a 6 month defects liability period from the date of Completion. The date of Completion will be nominated by Council on the Public Domain Works – Letter of Completion Operational Acceptance.

Reason

To ensure all works to the City's public domain are protected under a liability period.
