Issues

- trees
- remediation

Trees

- non compliance with 50% canopy coverage - Urban Forest Strategy 2023
- proposal provides 31% canopy coverage across the site
- 26 new trees are proposed across the site and are located in areas away from significant heritage fabric
- site forms part of the overall Sydney Park - shortfall can be made up elsewhere
- trees need to be located away from heritage fabric
- non compliance supported

Remediation

- Sydney Park is declared as significantly contaminated by the NSW EPA due to historical uses of the site
- park has extensive remediation history and is subject to a Voluntary Management Proposal which sets out commitments for ongoing management
- Health Unit satisfied site can be made suitable for proposed development subject to conditions.

Remediation

- NSW Site Auditor accepts conclusions and recommendations of submitted documentation - has asked for additional administrative information in accordance with SEPP (Resilience and Hazards) 2021
- deferred commencement recommended - requiring additional investigations and information to be provided to the Site

Recommendation

Deferred Commencement Approval
