Advice

Advice will be updated after the meeting.

Background

In September 2020, The Local Pedestrian, Cycling and Traffic Calming Committee endorsed the installation of an at-grade pedestrian and cycle crossing in Huntley Street, Alexandria, east of Burrows Road.

The City has performed a re-analysis of this site and is now proposing to further improve this crossing by introducing a raised pedestrian and cycle crossing, to help improve general

safety in the area, as part of the City's commitment to calm traffic and improve residential amenity.

Comments

This proposed crossing will link the major cycleway along the Alexandria Canal and provide access for pedestrians across this busy street especially to the two new child care centres and the activity centres in the street. The proposal will improve safety and accessibility for pedestrians and cyclists and reduce vehicle speeds in Huntley Street.

There is no loss of kerbside parking spaces as part of this proposal.

Consultation

The City notified local residents and businesses in the area due to previously approved pedestrian and cycle crossing at this location.

Financial

Appropriate funding for the proposal will be secured once greater certainty on the construction timeline is reached.
