Introduction

Overview

This Landscape Planning Proposal is submitted to the Council of the City of Sydney (Council) to support a request for a Planning Proposal relating to land at 242-258 Young Street, Waterloo. The Planning Justification Report prepared by Ethos Urban outlines the proposed amendments to the Sydney Local Environmental Plan (Sydney LEP) 2012.

The proposed amendments are seeking principally to facilitate the delivery of a new independent K-12 vertical school, catering for approximately 800 students. The amendments sought to the Sydney LEP 2012 will encourage and facilitate the redevelopment of the site by allowing for:

- an increased maximum Floor Space Ratio (FSR)
- an increased maximum Building Height.

Proposal

Supporting the amendments to the Sydney LEP 2012 is an amendment to the Sydney DCP 2012 which includes site-specific controls. For assessment purposes, the Planning Proposal is supported by a concept scheme prepared by Plus Architecture that facilitates the following:

a) A new 6 storey vertical school consisting of:

- 45 GLS, 13 specialist / classrooms
- A multi-purpose hall / auditorium
- An auditorium
- A library
- A canteen
- Administration, lobby and circulation spaces
- An active green roof
- A basement including 60 car parking spaces and end-of-trip facilities

b) The incorporation of the existing film school within the new vertical school building

c) A total of approximately 13,543m² of gross floor area which equates to a floor space ratio of 2.94:1. The gross floor area comprises approximately:

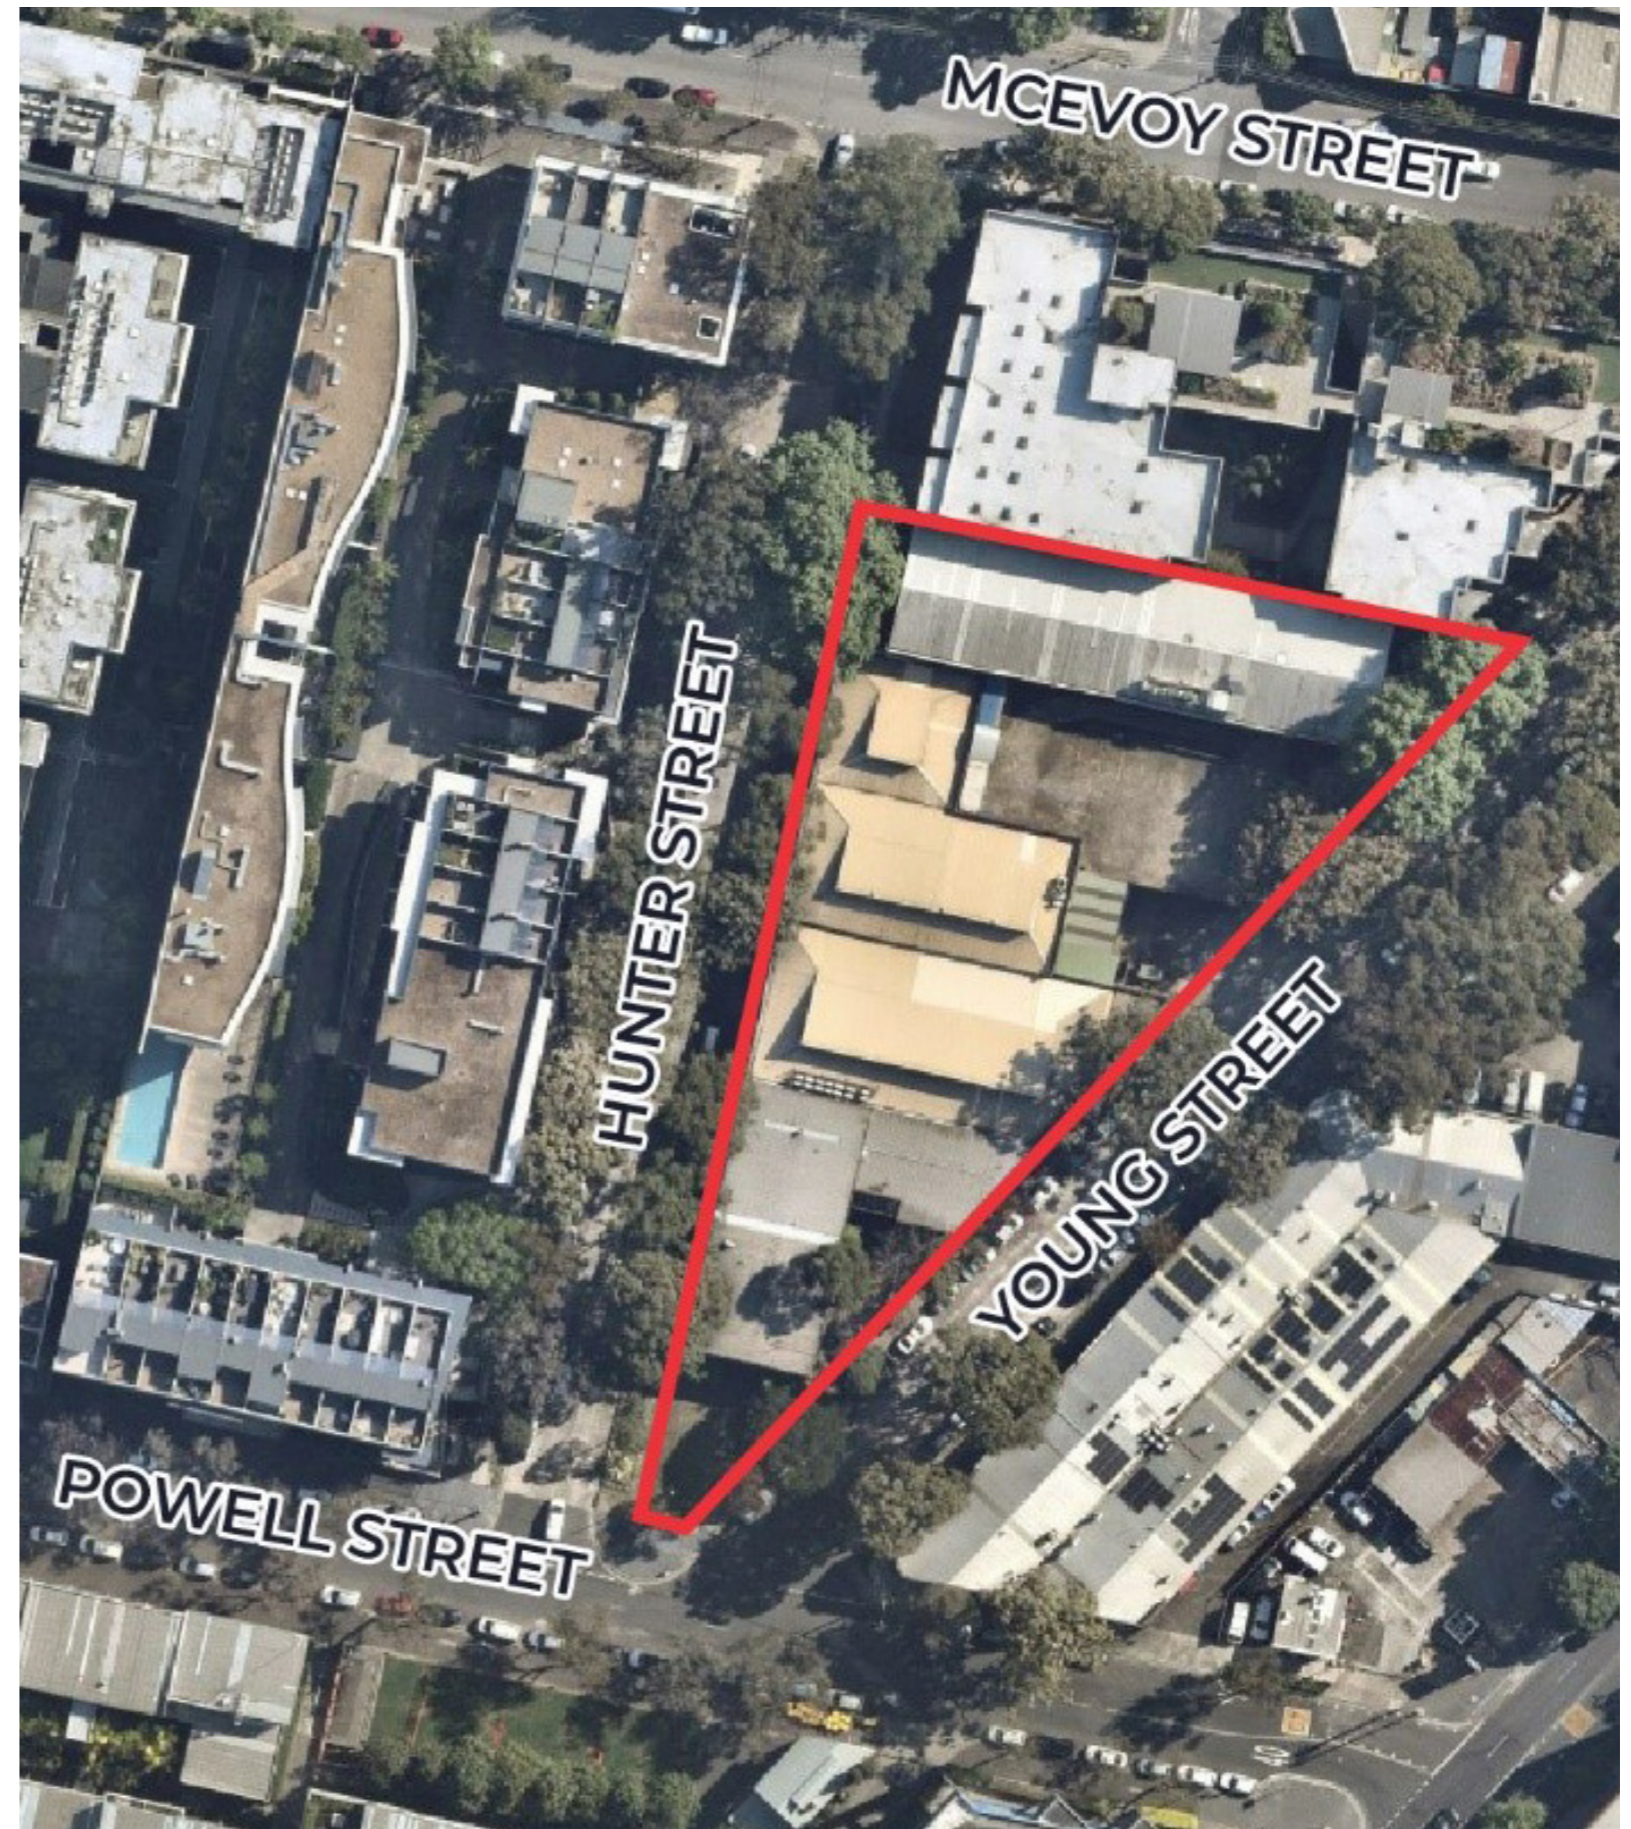

- 10,608m² education floor area
- 2,935m² commercial (film school) floor area

d) Outdoor spaces totalling approximately 4,978m².

The Site

The site is situated on the traditional land of the Gadigal people of the Eora nation, located at 242-258 Young Street, Waterloo within the City of Sydney Local Government Area (LGA). The site is prominently positioned at the junction of Hunter Street, Young Street and Powell Street. It is located 4km south of the Sydney CBD within the Green Square Urban Renewal Area.

The site and is currently occupied by 2 storey office building and film school. The southern tip of the site is a grass lawn area.

Public domain & Landscape Strategic Planning policy

State | Sydney Green Grid - Central District 2023 (GANSW)

State | Greener Places (GANSW)

State | Better Placed (GANSW)

Increase access to open space (P118)	<ul style="list-style-type: none"> Providing opportunities and improved access to public open space through spatial strategies which define the site's landscape.
Create new high quality public realm (P121)	<ul style="list-style-type: none"> Improve connections through major roads and barriers, enhancing access to public green space. Creating new public spaces which benefit larger scale infrastructure projects. Revitalise and create high quality public spaces which foster gathering and connection.

Integration (P32)	<ul style="list-style-type: none"> Delivering enhanced quality of life in communities through the integration of green with urban infrastructure.
Connectivity (P34)	<ul style="list-style-type: none"> Green Space which optimises and maximises wellbeing and sustainable development Delivering access between place, highlighting landscapes which provide urban cooling.
Multi Functionality (P36)	<ul style="list-style-type: none"> Focus on high quality and performing green spaces which are multi-functional. Promoting access to open space, strengthening identity and image of place

Better Fit (P39)	<ul style="list-style-type: none"> A space that relates to Waterloo's local and contextual location with communal aspirations and local character.
Better for Community (40)	<ul style="list-style-type: none"> Seek to grow economic and social status Incorporating diverse use e.g. hotels, commercial and retail Allows the public to move freely and sustainably throughout spaces.
Better for People (P41)	<ul style="list-style-type: none"> Focus on safety (CPTED), comfort and basic uses of public spaces. Creating spaces that are valuable parts of the environment and local community.

Inclusive play process (P21)	<ul style="list-style-type: none"> Creating play spaces that people of all ages and abilities can access and enjoy, through designing alongside inclusion needs. Evaluating and continually reviewing to measure design success. Incorporating the six-step inclusive play process into planning design and management of inclusive play spaces.
Connecting with Place (P53)	<ul style="list-style-type: none"> Provide a sense of identity through creating and connecting Waterloo's community social, cultural and environmental aspects. Recognising the importance of Country in public open space, celebrating the 'Sharing of Country' and rich culture with everyone. Celebrate and engage with natural elements such as smells, sounds and organic textures.
Designing inclusive nature play spaces (P67)	<ul style="list-style-type: none"> Integrating variety of play spaces, engaging with nature Considering a diverse range of materials, levels and native planting.

Ambition (P36)	<ul style="list-style-type: none"> Increasing green and canopy cover for heat prevention and community health to 30-40%
Canopy Coverage (P37)	<ul style="list-style-type: none"> Increase canopy cover for Street from 25% in 2019 to 34% in 2050 Increase canopy cover for parks from 31% in 2019 to 46% in 2050 Increase canopy cover for Property from 12% in 2019 to 20% in 2050
Green Coverage (P37)	<ul style="list-style-type: none"> Increase green cover for Street from 25% in 2019 to 34% in 2050 Increase green cover for parks from 31% in 2019 to 46% in 2050 Increase green cover for Property from 12% in 2019 to 20% in 2050.

Main Themes	<ul style="list-style-type: none"> Connectivity and accessibility Promote walking and cycling Quality public domain and place making Environmental sustainability Urban canopy and greening
Canopy Coverage (P23)	<ul style="list-style-type: none"> Increase canopy cover from the current 18.1% coverage to 22% in 2030 and 27% in 2050
Urban Renewal Areas (P80)	<ul style="list-style-type: none"> Many former industrial areas are being transformed into medium to high density residential and mixed use neighborhoods. These areas include new streets that present the opportunity to be exemplars in streetscape design and sustainability. The area will provide a network of new streets which will achieve a highly permeable street pattern that integrates pedestrian, cycle and vehicular movements, WSUD, and flood management.

Street tree selection	<ul style="list-style-type: none"> Young Street prescribed tree species: Tallowood - Eucalyptus microcorys Adapting to future climate and recognising street tree selection which can adapt to warmer conditions and frequent heat waves.
Diversity, biodiversity and habitat	<ul style="list-style-type: none"> Increase diversity through shelter, food sources and nesting opportunities Native species implementation to be the driver biodiversity
Indigenous Knowledge	<ul style="list-style-type: none"> Collaboration between indigenous ecologists to incorporate locally indigenous tree species to Sydney Reintroduce locally indigenous tree species to heighten the cultural significance of the site Acknowledging Gadigal of the Eora Nation as the Traditional Custodians of Waterloo and complex cultural land management practices.

Principles

- Biophilic | Engaging with biophilic principles to promote health & wellbeing
- Resilient | Design and materials that will endure extreme weather events and suitably robust for the school context
- Adaptable | Future-proofing spaces by maximising flexibility for multiple uses
- Playful | Integrating moments of play and delight into the everyday experience
- Inclusive | An environment that does not discriminate and maximises opportunities for social interaction
- Outdoor Learning | A diversity of outdoor 'rooms' as an extension of indoor learning facilities
- Connected | With Country and the local community
